UNIFORM STATE HIGHWAY MARKERS

Interstate or United States Highways are designated by shield-shaped markers of white with black figures. The same number is used throughout their length, the state passed through being shown at the top of the shield.

Oklahoma state highways are designated by diamond-shaped yellow signs with black figures.

The octagonal sign is used to indicate "Stop," where for any reason such action is necessary.

The diamond shaped signs, commonly called "Slow" signs, are used to indicate any condition inherent in the road itself requiring slow speed and caution on the part of the driver.

The circular sign is used as an advance warning at railroad grade crossings only.

The square shaped signs, commonly called "Caution" signs, are used to indicate any condition requiring caution that is not inherent in the road itself, but which is due to contiguous or adjacent conditions which are also intermittent.

COLOR—All signs of precautionary character, including the circular railroad sign, the octagonal stop sign, the diamond slow signs, and the square caution signs have black designs on a yellow background.

All direction, information and restriction signs are black on a white background.

SYMBOLS—The symbols used on the various signs are those for railroad grade crossings, both for single and multiple tracks, for left and right curves and turns; for reversed curves and turns; the arrow on the directional sign and the arrow which accompanies the route marker.

TRAFFIC REGULATIONS

SPEED LIMITS: (Sec. 14—Chap. 114—Ses. Law; 1933).

PRIVATE MOTOR CARS: "Any person driving a vehicle on a highway shall drive the same at a careful and prudent speed not greater than or less than is reasonable and proper, having due regard to the traffic, surface and width of the highway and of any other conditions then existing, and no person shall drive any vehicle upon a highway at a speed greater than will permit him to bring it to a stop within the assured clear distance ahead."

MOTOR BUSES: Transporting passengers, not over 45 miles per hour.

TRUCKS: Speed limits for trucks vary with the load.

It is a penal offense to operate a motor vehicle on the highway while under the influence of intoxicating liquor.

LIGHTS: Spot lights prohibited. Both head lights and tail light shall be burning during night driving.

STOPPING: Stopping or parking on the slab or on main traveled portion of any highway is prohibited.

REGISTRATION: Non-residents are permitted to operate "automobiles" on the highways for 60 days, without fee, IF REGISTERED WITH TAG AGENTS WITHIN TEN DAYS FROM DATE OF ENTRY.

Both resident and non-resident "Truck" and "Motor Buses" are required to be registered forthwith with tag agent. (Chap. 113 and 156. Ses. Laws 1933).

WIDTH: No motor vehicle or other object of a greater width than 96 inches or maximum height of 12 feet 6 inches shall be moved on any highway, except traction engines, which may be nine feet wide.

To move houses or other large objects across or upon the highway, permit must first be secured from the State Highway Commission.

MILEAGE TABLE

Below are given the approximate distances between the county seats and principal towns of the State. - To find the distance between two towns, trace down the vertical column of the one to its intersection with the horizontal column of the other. The figure represents the approximate distance between the two points.
