OKLAHOMA DEPARTMENT OF CORRECTIONS Mental Health Classification Level Log

MSRM 140201.01.4 (D-5/05)

Mental Health Levels

The following levels are based on criteria established in the Mental Health Service Levels Classification System Criteria.

Mental Health Levels (MH-0, MH-A, MH-B, MH-C1, MH-C2, and MH-D) are initially established and documented on the Level II screening interview. Mental Health Levels may be changed at the discretion of facility QMHP's (Qualified Mental Health Professionals) based on subsequent assessments or emerging symptoms requiring a change in the level of treatment being provided.

Changes to Mental Health Levels are to be documented in a treatment note (detailing reasons and/or changing circumstances) and on this tracking form.

Date	Classification Level	Signature/Title

Inmate Name	DOC#
