Physical Plant

<p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	68
<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	3

Audit Findings

Audit Narrative (including Audit Methodology)

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Carla Braggs. We coordinated the dates for the onsite audit at the facility. During these conversations we outlined an overall audit schedule and notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit posting to the Agency PREA Coordinator on March 5, 2021, she then forwarded the posting to the facility. The posting included the dates of the audit, purpose of the audit, my contact information, and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas, and all common areas. I verified the placement of the audit notices through time stamped photographs and during the facility tour, and inmate and staff interviews. I did not receive any letters from inmates nor staff.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The Agency had previously provided me a flash drive containing all Oklahoma Department of Corrections Policies and Procedures related to the Prison Rape Elimination Act. The facility PREA Compliance Manager provided me with a flash drive containing all facility level Policies and Procedures, as well as documentation that all Department and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted KIBOIS Domestic Violence Program who provides victim advocacy. They knew of no issues at the facility.

I also contacted Kathy Bell the Statewide SANE Coordinator. I verified that all SANE examinations in the State of Oklahoma are provided at no cost to the victim. I also confirmed that when a Sexual Assault Examination takes place a victim advocate is dispatched with the nurse, and provides victim advocacy during the examination, interviews and for any follow-up advocacy. Ms. Bell knew of no issues at the audited facility, nor at any other Oklahoma Department of Corrections Facility.

Agency level interviews:

During the current audit I verified that there have been no changes in any agency process since the last audits conducted in October 2020. From 05/03/21 through 05/14/21 I interviewed agency level staff again these included the Director, Investigative Staff, Administrative Personnel, and the PREA Coordinator.

Onsite Audit Phase

Site Review:

The audit was conducted during the Covid 19 Pandemic. The Agency, Facility and Auditor took all necessary precautions outlined by the Oklahoma Department of Corrections. These precautions included temperature check prior to entering the facility, questionnaire, universal masking for all staff, inmates, and visitors. During the facility tour social distancing was practiced. The staff and inmate interviews were conducted with the participants seated at minimum of 6 feet apart, and both wearing masks.

The Agency PREA Coordinator and I met with Warden Jim Farris and Deputy Warden Christe Quick on May 12, 2021 at approximately 8:00 a.m. to conduct a briefing and facility tour. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review. During the tour I had the opportunity to view the facility. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While on the housing units I observed the related PREA information, Audit Posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed logbooks on the housing units.

The inmate interviews began immediately following the facility tour. They were conducted in private offices, this allowed for social distancing and privacy. The inmates were randomly selected from inmates on the housing units. During this process I interviewed inmates in the following categories:

Interview Type	Number
Random Inmate Interviews	17
Youthful Inmates	Facility does not house
Inmates with a Physical Disability	2
Inmates who are Blind, Deaf, or Hard of Hearing	1
Inmates who are Limited English Proficient	1
Inmates with a Cognitive Disability	4
Inmates who Identify as Lesbian, Gay or Bisexual	5
Inmates who identify as Transgender or Intersex	0
Inmates in Segregated Housing for High Risk of Sexual Victimization	0
Inmates who Reported Sexual Abuse	1
Inmates who Reported Sexual Victimization During Risk Screening	2
Total Inmate Interviews	33

During the interview process several targeted categories of inmates were not being housed at the facility. I conducted the interviews with all inmates in the same manner, a preamble to the interview was related to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews I utilized a copy of the initial PREA information received by inmates, and Screening form to visually stimulate the inmate's recollection of their initial intake process.

The staff interviews were conducted in various locations throughout the facility. Interviews were conducted on all shifts. During the process I interviewed staff in the following categories:

Interview Type	Number
Random Staff Interviews	13
Intermediate or Higher-Level Staff Conducting Unannounced Rounds and Intake Staff	3
Line Staff who Supervise Youthful Inmates	Not Applicable
Education and Program Staff who Work with Youthful Inmates	Not Applicable
Medical and Mental Health Staff	3
Administrative Staff	2
Volunteers and Contractors	1
Investigative Staff	2
Training Officer	1
Staff who Perform Screening	2
Staff who Supervise Inmates in Segregated Housing	1
Staff on the Sexual Abuse Incident Review Team	2
First Responders	3
PREA Compliance Manager and Designated to Monitor for Retaliation	1
Warden	1
Agency Director	1
Total Staff Interviews	36

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff were asked questions related to the Random Staff Interviews, and if they were in a targeted category, they were then asked questions pertaining to that area. During the interviews I utilized a copy of the training they received, and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff's recollection on the daily practices at the facility.

The onsite documentation review was conducted during all days of the audit process. The onsite documentation was reviewed at the source, all files, and facility documents were retrieved by me. The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit and Post Audit Phases, with the applicable standard to each.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

During the staff interviews I found that the staff took ownership not only of the immediate areas they worked in, but the facility overall. This staff attitude helps in creating the respectful culture at the facility. This was further confirmed by the interviewed inmates who related that they are treated with respect by the staff. The majority of the staff were very career orientated and looked at their employment with the Oklahoma Department of Corrections as a career not just a job.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and

documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Prisons and Jails.

Facility Characteristics

Jackie Brannon Correctional Center is located at 900 North West Street, McAlester, Oklahoma 74501, the facility is adjacent to the Oklahoma State Penitentiary. The immediate surrounding area would be best described as rural, with residential and commercial properties across the road from the facility.

Jackie Brannon Correctional Center has educational classes available to inmates that include adult basic education, literacy, the ability to earn a GED, and even college course work. This facility operates a farm utilizing the inmates to raise about 200 heads of cattle and farm 340 acres of wheat, hay, and corn. Inmate's feed and care for the animals and can also work in a meat processing center which provides the pork and beef that is consumed by many of the inmates in the state. Additionally, inmates at Jackie Brannon Correctional Center can work in the dairy operation producing 650,000 gallons of milk each year that is distributed to prisons throughout the state. The facility sends out Prisoner Public Works Program crews to assist with work in the city, county and with the Department of Transportation. There is also a six-month Substance Abuse Treatment Program for inmates who meet the enrollment criteria. The Substance Abuse Treatment program is an intensive cognitive treatment program for inmates who have a documented history of substance abuse problems. The program is six months in duration, with sessions running five days a week, five hours a day. Each six-month cycle consists of a maximum of forty participants. The program has two cycles per year. During each cycle, participants are exposed to individual and group counseling sessions covering behavioral modification, effects of chemical abuse, goal setting, and relapse prevention. Other programs at include education (adult basic education, HiSet, literacy, college courses, life skills), recreational programs, religious programs, law/leisure library, offender work programs, psychological programs (Thinking for a Change), and agri-services.

Inmate housing consists of three units, Unit A, B, and C each with its own unit management. Unit A is a single level, open dormitory type building constructed in the 1960s. Unit B has four pods with the administrative offices in the center of the pods. Unit C was established in 1978 but was originally built in 1938 as a hospital. Unit C is a three-story building with multi-occupancy rooms housing, administrative offices, and program offices.

The overall facility layout is open, with inmates walking from one area of the facility to the others. C unit is located a short distance from the main compound area, the inmates will walk from the housing unit to the dining hall, educational services, etc.

The bathrooms in the housing units are constructed to provide privacy while performing bodily functions and showering. They have either walls or curtains to provide this privacy. In C Unit some of the rooms have their own bathrooms with doors or curtains, otherwise the bathrooms are in the hallways of the housing areas. The inmate movement is monitored by staff who are either posted within the housing units, as well as posted throughout the facility. The Unit Managers and Case Managers have offices on the units, this allows the inmates access to them during business hours.

Cameras are located throughout the facility, with the main monitors in a secure control room.

During my tour of the facility, I found that information on the Prison Rape Elimination Act, and reporting avenues are located throughout all the buildings at the facility, all this information is also available to the inmates in their issued handbook.

I found that administrative staff, as well as general staff move throughout the compound frequently, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

I have had the opportunity to conduct audits at every Oklahoma Department of Corrections facilities, throughout these audits I have found that the Department has created a culture of professionalism and respect. This culture enables the Department to create a safe environment in their facilities. During the first audit of the Jackie Brannon Correctional Facility in 2018, I found that the staff did not meet this standard set by the agency. During the current audit I have found that they not only meet this standard but exceed it in

many ways. I found all the staff to be extremely professional and they took ownership of not only their responsibilities but the facility overall.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy outlines the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and further outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency wide PREA Coordinator. During the interview she related that she has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the Oklahoma Department of Corrections. Prior to becoming the Agency PREA Coordinator, she was the PREA Manager. The PREA Coordinator works directly with the PREA Manager, the PREA Manager is a second agency level position. This position is also dedicated to the implementation of the PREA Standards throughout the OKDOC. During the audits of the OKDOC facilities, every Warden and PREA Compliance Manager stated that the PREA Coordinator and the PREA Manager are always available to answer questions and provide advice on the implementation of the PREA policies.

The agency has also designated a PREA Compliance Manager at each of their facilities. During the interview with the PREA Compliance Manager they related that they have enough time to implement the PREA Standards at the facility. During the onsite audit I found that the PREA Compliance Manager is making routine tours of the facility to ensure overall operational safety, which includes sexual safety.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

(N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) Yes No NA

115.12 (b)

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections contracts with agencies to house inmates. I reviewed these contracts in their entirety, the contracts specify that the contractor must adhere to specific Oklahoma Department of Corrections policies, one being OP-030601 the Oklahoma Prison Rape Elimination Act Policy.

I further confirmed during interviews that the facilities are monitored for compliance through direct assignment of staff at each facility. All contracted facilities were audited during the previous auditing cycles and will be audited during this auditing cycle.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment. The facility also has the ability to collapse posts and limit inmate activity and movement when needed.

The staffing plan was completed and reviewed by the Warden on February 11, 2021, and the Agency PREA Coordinator on March 2, 2021. This was confirmed through interviews and viewing their signatures on the staffing plan. I also reviewed staffing plans from previous years to ensure the yearly review is consistent.

During the interviews with the administration at the facility I confirmed a daily review of the staffing at the facility. The administration meets on a regular basis, this includes the Warden, Deputy Wardens, Chief of Security, and Unit Managers. During this meeting, the overall facility operations are discussed to include staffing.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed, and they have the ability to collapse other posts if need be.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and inmate interviews as well as reviewing the logs generated by the housing unit officers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The facility is an all-male facility.

The above policies outline procedures and practices that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The policies further dictate that staff of the opposite gender announces their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The bathrooms in the housing units are constructed to provide privacy while toileting and showering. They have either walls or curtains to provide this privacy. In C Unit some of the rooms have their own bathrooms with doors or curtains, otherwise the bathrooms are located in the hallways of the housing areas.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined

during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. I further confirmed with staff that if an inmate were being processed into the facility they would be coming from another correctional facility. If the inmate had identified as transgender or intersex at that facility, this information would be known prior to arrival.

The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed during staff interviews and reviewing the provided training materials.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above directives as well as the Limited English Proficiency (LEP) Plan. This plan outlines procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and inmate interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency has a list of approved interpreters within the agency who are available when needed. This interpretation includes verbal as well as sign language.

The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.

During the inmate interviews I interviewed inmates with Cognitive Disabilities, limited English speaking and hard of hearing. All these inmates related that the staff further explained the sexual abuse and sexual harassment policies and ensured that the inmates understood the reporting avenues.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed the Oklahoma Department of Corrections Applicant Questionnaire and Background Investigation Form.

This form specifically asks the applicant about these activities. During the interviews with staff, and Human Resources I verified that the form is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff interviews I verified they were asked these questions.

During the documentation review, and review of personnel files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.

The agency has also implemented a background investigation process for all new employees, contractors, and volunteers. The background investigations are being conducted as per Department policy. During the review of personnel files, I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency utilizes the Rap Back System through the Oklahoma Law Enforcement Telecommunications System. The Rap Back System notifies the agency if any changes occur in any Staff, Volunteer or Contractors Criminal History, this system runs constantly and negates the five-year Criminal History Check. The facility conducts a separate Criminal History Check through the National Crime Information Center (NCIC), the logs for these checks were provided to me during the onsite audit, the logs verified the checks are conducted every five years.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

The agency has made no substantial expansion to this facility nor is any planned. During the interviews I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.

The facility has not installed cameras since the last PREA Audit. During the interviews I confirmed that if any camera installation takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.

The Agency utilizes Attachment A and B of OP-150101 for any proposed new construction or new renovation. Both forms direct that the agency's ability to protect inmates from sexual abuse must be taken into consideration. This new construction or renovations must be approved by the Regional Director and Chief of Operations.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency is responsible for both the administrative and criminal investigations of all sexual abuse and sexual harassment incidents. These investigations are initially responded to at the facility level utilizing a team approach, where the administration, medical and mental health will be notified. The investigation is further conducted by the investigators in the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are highly trained in evidence collection and identification. I reviewed the training materials utilized and interviewed investigators from this division. I found that they follow the evidence protocols outlined in the policy and are well versed in evidence identification and collection.

The facility would utilize a Victim Advocate from KIBOIS Domestic Violence Program with whom the agency has a Memorandum of Understanding with. I contacted a supervisor at KIBOIS Domestic Violence Program and confirmed that they provide the services outlined in the MOU.

All sexual assault examinations would take place at the McAlester Regional Health Center who would provide a SANE nurse. The agency has Memorandum of Understanding with McAlester Regional Health Center. I contacted McAlester Regional Health Center and confirmed that they provide the services outlined in the MOU.

The protocols outlined in the policies are developmentally appropriate for youth and exceed nationally accepted standards.

The victim advocates are available to the victim during the forensic medical examination process, the investigatory interviews and they provide emotional support, crisis intervention, information, and referrals.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The agency provides yearly training to all employees on the areas enumerated in this standard. I reviewed the training curriculum and materials, I found that they address all areas. I further confirmed the training during the staff interviews and the review of training records. The employees receive the initial training and annual updates. It was confirmed during staff interviews that they also receive updates during roll calls. The yearly training exceeds the requirements of the standard.

All employees receive training on interacting with males, females, transgender, and youthful inmates. This was confirmed during review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature, this was verified during the review of the sample signature logs.

All staff at the facility is provided with a laminated card that outlines the required response to a PREA incident. Several of the interviewed staff showed me their cards during the interview process.

The training provided by the agency is updated yearly by the PREA Coordinator. At the beginning of each year, they meet with all training officers and provide them with the yearly training and explain any changes to the training. The PREA Coordinator is constantly improving on the training materials.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has trained all volunteers and contractors who have contact with inmates on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. I also confirmed this practice with the facilities Chaplin, who is the volunteer coordinator. The volunteers are trained at the agency level, and receive recertification training every two years. This training consists of a one-day training, this training includes the agencies zero tolerance policy and PREA.

All contractors are trained at the facility level by the PREA Compliance Manager. This was confirmed with the contractors who were interviewed during the audit and reviewing the acknowledgement forms.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility level, this was confirmed during review of the volunteer and contractor acknowledgment forms.

The agency is far exceeding the expectations of the standard. They are training the volunteers every two years and ensuring they are aware of the zero-tolerance policy and PREA.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

During the intake process inmates receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment, this information is in the inmate handbook. This was confirmed during the inmate and staff interviews, I further confirmed this by reviewing inmate files and ensuring that the Zero Tolerance Acknowledgment for Offenders Forms were in the files and signed by the inmates.

The inmates receive an in-depth orientation upon arrival at which time the facility provided training on the Prison Rape Elimination Act. The training is provided by a staff member who shows a video on PREA, reviews the materials with the inmates, and answers any questions the inmates may have. This was confirmed during the staff interviews and the inmate interviews.

The facility provides inmate education in formats accessible to all inmates, this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish, they also have designated staff who can provide interpretation of other languages. The Case Managers confirmed they would provide education to other individuals if needed.

The facility has all key information on the zero-tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed

that the signage has been in place during the inmate and staff interviews. The information is further posted in the window of every cell door for the inmates in the segregated housing units.

I conducted several interviews with inmates who have been in custody at several OKDOC facilities. They confirmed that they received training and education at every facility they were transferred to. I further confirmed this by reviewing the inmate files, several inmates had the Zero Tolerance Acknowledgment for Offenders Forms from other facilities in their file.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

- How to detect and assess signs of sexual abuse and sexual harassment;
- How to preserve physical evidence of sexual abuse;
- How to respond effectively and professionally to victims of sexual abuse and sexual harassment; and
- How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

This was confirmed by reviewing the training materials utilized by the Oklahoma Department of Corrections, and during the review of the PREA Training for Medical & Mental Health Course Rosters at the facility. I also confirmed this training with the medical and mental health staff during interviews. The medical staff at the facility does not conduct sexual assault examinations.

The medical and mental health care practitioners also receive the training mandated for employees under § 115.31 or for contractors and volunteers under § 115.32, depending upon the practitioner's status at the agency. This was confirmed during the review of training rosters at the facility. I also confirmed this training with the medical and mental health staff during interviews.

The facility is providing this training on a yearly basis to all medical and mental health care practitioners. This practice far exceeds the requirement of the standard. They have also created a Medical PREA binder with all training materials, policy, and a flow chart to utilize during incidents. This is utilized by staff as a refresher and as a quick reference during an incident.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All inmates are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identify all areas of victimization and abusiveness enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if an inmate is transferred to another facility, they would receive a screening again.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the case managers, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess an inmate's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is only available to case managers, medical if needed, and administration. The screening information is stored in the inmate field files, which are kept in a locked filing cabinet inside the case managers office.

The agency further screens all inmate through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews.

The inmates are constantly being reassessed by their assigned Case Managers. The Case Managers are located on the housing units and are accessible to the inmates, or the case managers will tour the housing unit to interact with the inmates. This gives the Case Managers the opportunity to observe the inmates and ensure there is no change in their behavior or status. The Case Managers meet with each inmate on their caseload once a month and make case notes in the Offender Management System. This was confirmed through interviews and watching the interaction between inmates and the Case Managers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

- Unless placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting lesbian, gay, bisexual, transgender, or intersex inmates, does the agency always refrain from placing intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status? (N/A if the agency has a dedicated facility, unit, or wing solely for the placement of LGBT or I inmates pursuant to a consent decree, legal settlement, or legal judgement.) Yes

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and inmate interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. I also confirmed that the inmates own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates.

I confirmed during interviews with the Unit Managers and Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy.

Neither the agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely based on such identification or status. This was confirmed during agency level interviews, as well as inmate interviews, several inmates interviewed at the facility identified as gay, and bisexual.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLAINE:

The agency has a policy prohibiting the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made. This policy addresses all provisions in the standard, the language in the policy meets all aspects of the standard.

This facility has had no incident where they have segregated an inmate due to being at high risk of sexual victimization.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

REPORTING

- Does staff promptly document any verbal reports of sexual abuse and sexual harassment? Yes No

115.51 (d)

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility provides the inmates the information on reporting in the inmate handbook provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through the PREA reporting hotline at 073 on the phone, or to the Oklahoma State Bureau of Investigations, which is the agencies external reporting avenue. The instructions for the usage of these reporting avenues is extremely comprehensive and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the inmates. During the interviews with both staff and inmates I confirmed that they were aware of the reporting avenues and that they can remain anonymous.

The agencies website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviewed related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of inmates. The policy allows the staff to report directly to the Inspector General's Office through a telephone number or email. All interviewed staff was aware of these reporting avenues.

I found during the inmate interviews that the inmates who were interviewed felt that if something were happening, they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all inmates, the agency has provided so many different reporting avenues that an inmate should feel comfortable with one of them. It should be noted that after reviewing hundreds of agency investigations I found that most of the incidents were initially reported to a staff member.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Standard 115.52: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. - If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)
 Yes No NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (e)

 Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA

 Yes No NA
- Does the initial response and final agency decision document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency's final decision document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (g)

- If the agency disciplines an inmate for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the inmate filed the grievance in bad faith? (N/A if agency is exempt from this standard.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All provisions of this standard are addressed in the agencies Inmate/Offender Grievance Process. I reviewed this policy in its entirety. I further questioned staff on this procedure, they understood the process if an inmate filed a grievance pertaining to sexual abuse.

The audited facility did not have any grievances filed within the last 12 months relating to sexual abuse. This was confirmed through interviews and a memo from the facility. The interviewed inmates were aware of the opportunity to file a grievance related to sexual abuse, but they all stated they would utilize another reporting avenue. The interviewed staff was aware of their responsibility to assist an inmate in filing a grievance if they asked, but they also stated they would report the incident as per policy and respond accordingly. All interviewed staff understood that sexual abuse is a violation of Criminal Law, not just a policy violation.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.53: Inmate access to outside confidential support services

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.53 (a)

Yes No

(N/A if the facility *never* has persons detained solely for civil immigration purposes.) Yes No NA
- Does the facility enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible? Yes No

115.53 (b)

- Does the facility inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws? Yes No

115.53 (c)

- Does the agency maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide inmates with confidential emotional support services related to sexual abuse? Yes No
- Does the agency maintain copies of agreements or documentation showing attempts to enter into such agreements? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

Access to outside confidential support services is outlined in the agencies policies and procedures. The inmate would have the ability to utilize the services provided by KIBOIS Domestic Violence Program. These services are outlined in the inmate handbook and would be provided to inmates involved in an incident. The services that the inmates would receive are the same as the level received in the community, this was confirmed with the supervisor at KIBOIS Domestic Violence Program.

Through interviews I further established that follow up mental health care would be provided by the facility for any inmate victim or abuser who was involved in an incident.

The PREA Compliance Manager would inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws. This was confirmed during interviews.

The facility has provided the contact information for KIBOIS Domestic Violence Program to inmates involved in incidents, it is unknown if they contacted the agency due to confidentiality.

The agency holds a MOU with the KIBOIS Domestic Violence Program for the services outlined in the standard.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.54: Third-party reporting

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.54 (a)

- Has the agency established a method to receive third-party reports of sexual abuse and sexual harassment? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has established third party reporting methods in policy, these methods allow inmates to report for other inmates and outside individuals to report. The agencies website outlines the third party reporting avenues, this was confirmed through review of the agency website. The website has the following posted:

ODOC accepts and investigates reports regarding allegations or knowledge of sexual abuse of offenders from third parties (family, friends, clergy, vendors, contractors, or any other person having knowledge of an incident).

1. Send an email to preareport@doc.ok.gov
2. Call the PREA Reporting line at 1(855) 871-4139
3. Call the ODOC Fugitive Apprehension and Investigations at (405) 425-2571
4. Verbally report to a DOC facility administrator or staff member ODOC Facility Information

The facility has third party reporting avenues posted in areas in the facility where they can be viewed by visitors.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency policy states that any staff, volunteer, and contractors shall immediately report to their supervisors or higher authority:

1. Any knowledge, suspicion, or other information regarding an incident of sexual abuse, assault, or harassment that occurred in a facility/unit or other location, whether or not it is part of the agency;
2. Retaliation against inmates or staff who reported such incidents; and
3. Any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

The staff interviewed understood their responsibilities under this policy. During interviews with staff who reported an allegation I verified that they followed the policy.

The policy further states that staff are prohibited from revealing any information related to sexual abuse to anyone other than the extent necessary. All staff interviewed understood this requirement.

The agency would report to the Oklahoma Department of Human Services for any individual under the age of 18.

During the interviews of medical and mental health staff I confirmed their duty to report, they understood their obligations to report an incident to security staff.

As an agency all allegations are being reported to security and administration for immediate action. This was confirmed during staff interviews and review of the investigations from the audited facility and other facilities.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has established a policy that meets the provisions of this standard. The agency has identified the facility PREA Compliance Manager to monitor the inmate or staff member for alleged retaliation.

The agency has established through past incidents that they utilize housing transfers, as well as facility transfers of perpetrators to protect the victim in an incident. This was confirmed during review of investigations and through staff interviews.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

During the policy review I established that the agency has policies in place that address all provisions of this standard. More importantly during the review of agency investigations, and staff interviews I found they understand the provisions of the standard and are applying them throughout their investigations.

The Administrative Investigators have received training on how to conduct the investigations at the facility level. They work closely with the Office of Fugitive Apprehensions and Investigations during any investigation. The members of this unit are highly trained sworn law enforcement officers who will conduct both in depth administrative investigations as well as all criminal investigations. After reviewing investigations throughout the agency, I was impressed with the consistency of the overall investigation process.

During the review of the investigation reports at this facility as well as other facilities I found that all substantiated allegations that violated criminal law were sent for a prosecutorial decision.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

investigations throughout the agency I have determined the disciplinary sanctions for violations of policy commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories.

Through investigation review and interviews I confirmed that all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, were investigated criminally and referred for a prosecutorial determination and if applicable were reported to licensing bodies.

The audited facility has not disciplined any staff member within the last 12 months for a violation of these policies.

Through investigation review and interviews I confirmed that any contractor or volunteer who engages in sexual abuse is prohibited from contact with inmates and reported for a criminal investigation as well as a prosecutorial decision. If the contractor or volunteer is licensed in anyway, the licensing body will be notified. I confirmed with the Warden that any contractor or volunteer who violated the policies would have their security clearance immediately revoked.

The audited facility has not disciplined any volunteers and contractors within the last 12 months for a violation of these policies.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has policies in place that address the provisions of this standard. As previously stated under standard 115.41 the medical department does a second screening of the inmates and asks questions relative to sexual victimization as well as sexual abusiveness. If it is found that any inmate has experienced either they will be scheduled for an evaluation with a mental health practitioner within 14 days. I confirmed these evaluations with the medical and mental health personnel as well as during the inmate interviews.

All medical records are kept secure and are only available to medical and mental health personnel.

I confirmed compliance with the standard through the review of inmate medical files, staff interviews and inmate interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLAINE

The medical personnel ensure that victims of sexual assault receive prompt and appropriate medical intervention. The nature and scope are determined by medical and mental health practitioners according to their professional judgment.

The facility does not provide 24 hr. medical coverage. Any inmate involved in an incident would immediately be brought to medical for an evaluation and if after hours the on call nurse would respond to the facility.

The policy further states that prophylactic treatment and testing is offered to the patient, as well as follow up care for sexually transmitted or other communicable diseases. An evaluation by a mental health provider is completed for crisis intervention counseling and long term follow up plans.

The above services are offered at no financial cost to the inmate. These policies and procedures were confirmed with the medical and mental health staff during interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.
