10. Allie Friesen introduces herself as the Director of Behavioral Health Clinical Program with INTEGRIS. Allie presents that she is working on having a collaborative bed board established for mental health facilities and is asking the difficulties that are experienced in Region 3 that can be addressed. It is reported that safety plans through the Department of Mental Health have been a huge help in the region. Questions are asked about transport of patients and where the responsibility falls. Discussion is had about the options that are presented outside of using police or ambulance with a contract company that has a positive impact on the community. It is reported that there has been an increase in pediatric patients with an increase in difficulty finding beds for the patients, especially those with chronic medical conditions.

Tessa Cleary-Smith discusses the pediatric age limit changes that have been made with the new trauma triage and transfer algorithm. For trauma patients, the pediatric age is 14 and under. Information sheets are in the process of being obtained to be distributed.

Across the state EMResource has been discussed to find what changes can or should be made to further help prehospital and hospital better identify what facilities have certain capabilities at the time.

The Oklahoma Trauma Triage algorithm has been revised and approved by OTERAC with the draft documents included in the packet.
