2. **Consideration and possible action on minutes for the regular board meeting held December 16, 2022**

Currie asked if item 8d on the minutes from the December 16, 2022, meeting accurately reflected the Board's discussion. Denney suggested changing "staff turnover" to "staff resignation." Robison suggested adding "unexpected" before "staff resignation." A motion was made to approve the minutes as corrected by Smith and seconded by Ferate. The motion was approved with none opposed.

- b. Currie presented the SFY 23 Budget to Actual report through January 31, 2023. Denney asked if carryover money was earmarked for something. Currie explained the carryover came from open positions and they planned to use it for differential payments, furniture, and technology. McCleod mentioned SFY22 carryover funds are not reflected on this report but are approximately \$174,000. A motion to approve the report was made Robison and seconded by Dace. The motion passed with none opposed.
- c. Currie presented the SFY 23 Cost Variance Report through January 31, 2023. A motion was made to accept the report as presented by Dace and seconded by Smith. The motion passed with none opposed.

4. **Library Services and Technology Act (LSTA) projects and updates**
  - a. Currie recognized Business Manager and Federal Programs Officer Tara McCleod to present the FFY 2021 LSTA Project status report. Dace asked what resource sharing is and Currie explained it is sending items to other libraries and providing access to WorldShare. Smith made the motion to accept the report as presented and seconded by Robison. The motion passed with none opposed.
  - b. Currie recognized Business Manager and Federal Programs Officer Tara McCleod to present the FFY 2022 LSTA Project status report. McCleod explained some money is currently unallocated, but they have projects in mind to use those funds. Denney asked what grants to states are, and McCleod explained it is federal money given to state libraries. Dace asked about the amount spent on databases, and Currie and McCleod explained we have spent less than budgeted because we pay quarterly. Dace made a motion to accept the report as presented, seconded by Robison. The motion carried with none opposed.
5. **American Rescue Plan Act (ARPA) projects and updates**
  - a. Currie recognized Business Manager and Federal Programs Officer Tara McCleod to **present the ARPA Projects status report**. McCleod shared they found a way to spend the remaining \$30,000 before 2/28 by reimbursing libraries for expenses already incurred. We received requests totaling \$76,000, and some additional funds will be added to the \$30,000 available because the security cameras project was canceled. Denney suggested ODL communicate with Ryan Walters regarding the Ready to Read project, and Smith agreed. A motion to accept the report as presented was made by Robison and seconded by Dace. The motion carried with none opposed.
6. Currie presented the **Director's report**. There are currently five open positions and two staff are leaving. She stressed to the Legislature that pay is insufficient to attract and retain talent. Currie mentioned several bills she is tracking, the Book Awards and Book Festival, the project with the state broadband office, and the Storage drive decrease resulting in savings.
  - b. Denney suggested telling Representative Conley that ODL is not involved with school libraries and requesting public libraries not be included in the bill on libraries.
  - d. Currie pointed to page 67 as an important overview of appropriations and FTE. Dace asked if ODL's services have declined due to this, but Currie said staff have taken on more responsibility to maintain the same services.
7. **Consideration and possible approval of projects for Federal Fiscal Year 2023 LSTA award**
  - a. Currie recognized Business Manager and Federal Programs Officer Tara McCleod to present the proposed FFY 2023 LSTA Projects. McCleod explained we have 15 continuing projects and one new project: Transforming Teen Services. We received \$290,000 more due to MOE and an IMLS budget increase.
  - b. Denney asked how Oklahoma compares to other states for allotments. McCleod said Oklahoma does comparatively well. A motion to approve the projects as presented was made by Smith and seconded by Ferate. The motion carried with none opposed.

**8. Consideration and possible approval of agency food purchasing policy**  
Currie presented a proposed agency Food Purchasing Policy. Robison asked how ODL currently pays for food and drinks purchased for meetings and events. Currie said staff pays for it themselves. A motion to approve the policy as presented was made by Robison and seconded by Dace. The motion carried with none opposed.

**9. Consideration and possible approval of appointment of Robbee Tunubee to the joint ODL/OLA Continuing Education Committee**  
Currie made a correction to a statement in a previous board meeting: not all appointees are voted on by both ODL and OLA. Each institution votes for 3. Paige Harkins shared Robbee Tunubee has a different perspective since she is a municipal director. A motion was made to approve the appointment of Robbee Tunubee to the join ODL/OLA Continuing Education Committee by Dace and seconded by Smith. The motion carried with all in favor.

**10. New Business**  
No new business.

**Agenda Item 4d**

FFY22/23 LSTA Project Proposal: Technology Grants

Lead Officer: Tara McCleod

**Summary**

The FFY22 and FFY23 LSTA Technology Grants projects would set aside LSTA funds to assist libraries in purchasing new technology, including computers, laptops, hotspots, printers, and more. Libraries would apply for the funds through a competitive grant. Upgrading essential technology allows libraries to maintain and potentially expand service to their communities.

We are requesting approval for a FFY22 **and** a FFY23 project.

**Background**

Many of the public libraries in Oklahoma receive little to no annual funding to upgrade the technology in their buildings. While the Category Two E-Rate program assists in upgrading internal connections, it doesn't address purchasing new computers, monitors, printers or the like. Libraries often use state aid or onetime funds such as the ARPA funding to upgrade necessary equipment. This grant would allow and encourage libraries to purchase new equipment as needed instead of limping along with slow and outdated technology.

**Budget Impact**

FFY22 LSTA Unallocated as of May 31:	\$ 76,815
Estimated Budget for Proposed FFY22 Project:	<u>\$ 50,000</u>
Balance (FFY22 Unallocated):	\$ 26,815

FFY23 LSTA Unallocated as of May 31:	\$ 106,347
Estimated Budget for Proposed FFY23 Project:	<u>\$ 50,000</u>

**Agenda Item 4e**

FFY23 Images of Oklahoma

Lead Officer: Jan Davis

**Summary**

Images of Oklahoma is a collection that highlights the unique holdings of libraries, archives and museums across the State of Oklahoma. This project allows ODL to partner with institutions to provide online access to their collections, which include photographs, postcards, pamphlets, directories, newsletters, yearbooks and more. The project includes professional development opportunities for the participating institutions as well as temporary staff to digitize, edit and create metadata for the added holdings. This proposal also includes a 999 Temporary Administration Technician I to assist with the project.

**Background**

This is a continuation of a project that has been in process for a number of years. Continuing allows ODL to work with smaller institutions to digitize information as well as digitize ODL-owned collections for use by a wider audience.

**Budget Impact**

FFY23 LSTA Funds Unallocated as of May 31:	\$ 106,347
Estimated Budget for Proposed FFY23 Project:	<u>\$ 35,000</u>
Balance (Unallocated):	\$ 71,347

# Agency Activity Report

*February 1 – May 31, 2023*

## Grants and Contracts Awarded

### **FFY21 Projects – LSTA funding**

- All funds for FFY21 were expended. The State Program Report was submitted to IMLS prior to the due date of April 30, 2023. The ARPA IMLS funds are tied to the same federal fiscal year as the FFY21 funds; therefore, our report cannot be accepted until the ARPA projects are reported (due June 28, 2023).

### **FFY22 Projects – LSTA funding**

- Additional libraries were awarded a grant for the Online Reading Platform Pilot – Nora Sparks Warren Library (Pauls Valley) and Stillwater Public Library. Contracts and claims were sent, and payments are processing.
- Contracts for Public Library Academy presenters were completed for spring classes. All presenters are paid.
- Four libraries were awarded Health Literacy grants for story walks. The program, which was originally a partnership with Oklahoma State Department of Health, is now moving forward with remaining FFY22 funds.
- Additional funds were sent to Stillwater Public Library to select e-materials for the Oklahoma Virtual Library Consortium.

### **FFY23 Projects – LSTA funding**

- Applications for Continuing Education Grants are open. The grants are for attending the Association of Rural and Small Libraries Conference held in Wichita, KS in September 2023.
- Work is under way to contract Leah Larson for a series of statewide Transforming Teen Services Workshops.

### **American Rescue Plan Act (ARPA)**

- Thirteen libraries were awarded an ARPA Targeted Reimbursement Grant, totaling \$72,984.69.
- All ARPA projects or purchases ended on February 28, 2023. We must pay all invoices and turn in the State Program Report by June 28, 2023.
- We will return a small amount of ARPA funds to IMLS, mostly due to grant sites not spending all their awarded funds in the time allowed. Current estimate is less than \$10,000 to be returned.

### **Government Publishing Office**

GPO Director Halpern has announced that he broadly intends to adopt the Task Force's recommendations to move to a digital Federal Depository Library Program with a few exceptions where GPO can't complete the recommendations as written. Many of these exceptions involve current statutory obligations which conflict with recommendations as written in areas of broadband access and Title 44 of the U.S. code, public printing, and documents laws. Agencies will retain the ability to decide which of their publications will be available in print rather than following the Task Force recommendations of primarily keeping key publications in print and allowing the Superintendent of Documents policy to determine print title availability for selection by federal depositories. The GPO plans to submit new proposals to the 118<sup>th</sup> Congress to include changes suggested by the Task Force.

### Citizenship Celebration

The Community for Literacy Centers welcomed 11 new citizens with a celebration in March. Rebecca Barker with the Literacy department attended the celebration and had this to say about the program.

*“Last night was so amazing! CLC welcomed 11 new citizens in this grant period and invited all their current students. I’m guessing there were 60 people there. I hope this program continues to grow. The testimonials of the new citizens were so heartwarming and encouraging to the students attending.”*

### My Favorite Book Thank You Letter

For the My Favorite Book competition, the Oklahoma Center for the Book invites readers in Grades 4–12 to write a letter to the author of a favorite book and explain how the book or one of the book’s characters impacted their life. Twelve-year-old Azmerrah Teav won first place in the 7<sup>th</sup> and 8<sup>th</sup> grade division for her precocious yet heartfelt letter to Noah Webster and his first edition of Webster’s American English Dictionary, originally published in 1828. Azmerrah sent a beautiful letter on her stationary thanking Connie Armstrong with the Oklahoma Center for the Book and ODL.

## FROM THE DESK OF AZMERRAH TEAV

May 30th, 2023  
Ms. Connie Armstrong  
Oklahoma Department of Libraries  
200 NE. 18 Street  
Oklahoma City, OK 73105

Dear Ms. Armstrong,

My name is Azmerrah Teav and I am twelve years old. I was one of the winners of the “My Favorite Book” writing contest and I just want to thank you for that wonderful opportunity. As you know, I chose to write to Noah Webster about his Webster's American English Dictionary. I submitted my letter in December of 2022.

It was March when Mommy got the email that I had won first place in my age group. And you invited me to read my letter at the State Capitol! I was both excited and nervous. I had never read a letter to a group of that many people let alone gone to the Capitol before. On May 12th, 2023, my family and I went to the State Capitol. I read my letter, received a medal, and two citations: one from Representative Stan May and one from Senator (now GOP Chairman) Nathan Dahm. Those were my first ever citations which I now love and treasure.

Surprisingly, I loved reading my letter up front, but most of all, I enjoyed making people laugh. It was truly an amazing experience! Thank you so much for everything. I plan to enter the contest again! Until next time, I'll keep writing. God bless you!

Sincerely,

Azmerrah N. Teav

**Agenda Item 6b - Director’s Report: Human Resources updates, including implementation of market rate salary increase for ODL staff**

**Summary**

The staff turnover rate continues to be high at 29% so far in State Fiscal Year 2023. The rate since 2019 is 74%, with 24% as retirements and 50% as resignations. This illustrates a tremendous loss of institutional knowledge and expertise. In an effort to achieve organizational stability through staff retention, continuous service incentives/differential payments were issued to staff using State Fiscal Year 2022 carryover funding. The total cost was \$168,041.51, including taxes and other required deductions.

The next step toward the agency goal of *Achieving operational stability and rebuilding* is moving forward with the plan to raise staff salaries to market rate using data provided by OMES Human Capital Management (HCM). While the agency did not receive the full requested amount from state appropriations to achieve this goal, the Director is working to adjust salaries to as close to market rate as affordable for all staff effective July 1. Through this adjustment of salaries, compression has been created between the Director’s salary and the other positions. Agenda item 8 presents an option for the Board to address this issue.

**Background**

The Agency Strategic Plan FY 2023 – 2028 was submitted to the Governor’s office and State Legislature with the budget request on October 1, 2022. The Strategic Plan was presented to the ODL Board on February 10, 2023. The number one strategic goal for the agency continues to be *Achieve operational stability and rebuild*. See Supporting Document 6b.1 ODL FY 2023-23 Strategic Plan.

Performance metrics for this goal are:

Goal	Metric	SFY 21 Actuals	SFY 22 Actuals	SFY 23 Target	SFY 28 Target
Achieve operational stability and rebuild	Reduce agency employee turnover rate to 10% or less	9%	19%	10%	5%

The planned strategy for meeting this goal is to increase salaries to market rate per data provided by OMES Human Capital management (HMC). The agency also planned to right size workloads by moving some 999 temporary positions to state employee positions.

The State Fiscal Year 2024 Budget Request was approved by the ODL Board on September 23, 2022 and submitted to the Governor’s office and State Legislature by the October 1, 2022 deadline.

State Fiscal Year 2024 Operational Budget Requests (Continuing)	
Bring all staff to market rate, reduce federal funds spent on salary to increase MOE/Match, adjust positions to meet business needs	\$768,945
Estimate to move agency computers to OMES lease plan	\$37,000
Estimated increases in OMES services and other bills	\$20,000
<b>TOTAL</b>	<b>\$825,945</b>

With the passage of the General Appropriations Bill [HB1004x](#) (First Special Session of 2023) by Rep. Kevin Wallace (Wellston) and Sen. Roger Thompson (Okemah), ODL received \$500,000 in increased appropriations toward our goals.

**Budget Impact**

The following charts outlines the most likely scenarios for the agency personnel budget based on information available at this time. Several budget pieces are still outstanding that will affect the final totals, such as the costs for OMES IT services, and final calculation of personnel costs, like retirement.

# Total Historic Actual Expenditures (FY 2018-22) and Current Year Budget (FY 2023)

## Explanation of Significant Changes and Trends

Beginning in SFY21, the agency received an additional \$350,000 in federal CARES Act funding to respond to the COVID-19 pandemic. The agency also saw an additional \$2,867,357 in federal ARPA funding for COVID-19 pandemic responses in SFY22 and we have until SFY24 to spend it. The agency anticipates this one time increase in federal funding to roll off the budget in SFY25. The increase of 4 budgeted FTE for SFY 23 includes the move of former GALT temporary employees to 999 temporary positions to avoid the upcharge.

# Labor Spend Historic Actual Expenditures (FY 2018-22) and Current Year Budget (FY 2023)

## Explanation of Significant Changes and Trends

The agency continues to experience high turnover at 19% in SFY22. Our difficulty in keeping positions filled and recruiting creates significant burnout and low morale as evidenced by the results of the SFY 21 and 22 Employee Engagement Surveys. The agency has budgeted for 38 FTE in SFY 23, which includes 5.5 currently vacant positions that we're recruiting for.

**ODL Board Meeting**

June 23, 2023 | 10:00 a.m.

Oklahoma Department of Libraries  
200 NE 18 Street  
Oklahoma City, OK 73105

**Agenda Item 7 Consideration and possible action on Agency Organizational Chart Updates**

**Summary**

The number one goal for the agency continues to be Achieve Organizational Stability. To meet this goal, the ODL Board approved a State Fiscal Year 2024 budget request for submission to the Legislature at the September 23, 2022 meeting that included: \$768,945 to “Bring all staff to market rate, reduce federal funds spent on salary to increase MOE/Match, adjust positions to meet business needs.” The Legislature and Governor approved a total increase in appropriations of \$500,000 for SFY 24.

While we are unable to achieve all of the known needed adjustments to the agency organizational structure at this time, we believe some changes to the agency organizational chart are necessary and achievable now. The planned January 2024 organizational study and classification and compensation studies are necessary to fully document agency needs and develop an action plan to address them. Those findings will be presented to the ODL Board for review and approval before implementation.

Today, the Director requests the ODL Board review, provide input, and possibly approve proposed changes to the agency organizational chart. The following documents are provided to present needed information to make the decision:

- 7a Past Organizational Chart as of 20230222
  - Previous operational structure provided for information only.
- 7b Current Functional Organizational Chart as of 20230615
  - Overview of adjustments made to org structure in the last few months to maintain operational stability. This represents current operations.
- 7c Proposed Organizational Chart 6/23/23
  - The Director requests the Board consider approval of this version.
- 7d Proposed Organizational Chart and Position Adjustments Explanation 20230623
  - This document explains changes made between the 2/22/23 and 6/15/23 versions, as well as the needs behind the proposed 6/23/23 chart.

### **Background**

65 Oklahoma Statutes Annotated § 3-104 Duties of the Director states: “The Director shall be the administrative, executive, directing and supervising official of the Department under the supervision of and in accordance with policies established by the Board. He shall:

(a) Approve all requisitions and claims;

(b) Prepare budgets;

**(c) Prepare the staff organization and position classification with the approval of the Board;**

(d) Employ or terminate employment of all personnel as provided by 74 O.S.1961, §§ 801-839, as amended; and

(e) Make all reports, maintain all records and execute all instruments required by law or regulation and perform all duties necessary to discharge the functions of the Department.”

### **Budget Impact**

- Changing the current 999 Temporary Administrative Assistant position assigned to the Business Office to a permanent half time state employee is an estimated cost of \$2,000.
- Adding back a position for Library Development Coordinator at the Librarian IV level (with the projected market rate salary increase) is an estimated cost of \$95,000.

## **Supplemental Document: 7d Proposed Organizational Chart and Position Adjustments Explanation Prepared for ODL Board Meeting June 23, 2023**

*See Supplemental Document 7c Proposed Organizational Chart 6/23/23 to see the described changes mapped to the org chart.*

### **Proposed Change 1**

65 Oklahoma Statutes Annotated § 3-103 Director and Assistant Director establishes those offices. The position currently known as Deputy Director is the Assistant Director. We propose to clarify this position's role by changing the title to match the statute. Also giving working title of Assistant State Librarian and Archivist. No change to classification.

### **Proposed Change 2**

Return to original organizational structure of Archives and Records Management (ARM) reporting to the Assistant (Deputy) Director. ARM previously reported to the Deputy Director under the tenure of former Director Susan McVey and Deputy Director Vicki Sullivan. This changed under the tenure of former Director Melody Kellogg.

### **Proposed Change 3**

Change the vacant Executive Secretary III position (previously unclassified) to Human Resources Specialist II. This matches the true business need of the agency. The position will report to the Assistant Director instead of the Director. The Assistant Director is the agency's Human Resources lead.

### **Proposed Change 4**

Change current 999 Temporary Administrative Assistant to half time state employee. There is a long-term business need for this position to support agency operations. The funding is available with the \$500k state appropriations increase. The incumbent temporary employee will be required to complete the application process.

### **Proposed Change 5**

To meet immediate business needs of the agency and achieve operational stability, we used the vacant Library Development Director (Administrative Librarian I) position to create a higher-level administrative position – Director of Services to Libraries (Administrative Librarian II) in May 2023. This proposed change formalizes the administrative nature of the position by moving the funding from budget department Library Development to budget department Administration. Additionally, Public Information will now report to this position instead of the Director.

### **Proposed Change 6**

Upon review and reflection, we believe it is necessary for the Library Development department to have a team lead and career progression path. This change will add back a Library Development Coordinator as a Librarian IV to that team. Previously, this position was Library Development Director (Administrative Librarian I. See Change 6). Adjusting the position to Librarian IV creates a pathway for Library Development Consultants (Librarian III) to move into a first level management position to gain skills and experience that are minimum qualifications for Administrative Librarian. This pathway does not currently exist.

**Agenda Item 8: Discussion and possible action to enter into Executive Session under 25 O.S. Section 307 (B)(1) for the purpose of discussing the annual performance review for employment, hiring, appointment, promotion, demotion, disciplining or registration of the Director of the Oklahoma Department of Libraries**

**Summary**

The next step toward the agency goal of *Achieving operational stability and rebuilding* is moving forward with the plan to raise staff salaries to market rate using data provided by OMES Human Capital Management (HCM). To meet this goal, the ODL Board approved a state appropriations budget request for submission to the Legislature at the September 23, 2022 meeting that included: \$768,945 to “Bring all staff to market rate, reduce federal funds spent on salary to increase MOE/Match, adjust positions to meet business needs.” The Legislature and Governor approved a total increase in appropriations of \$500,000 for SFY 24.

With this increase in appropriations for State Fiscal Year 2024, we are able to adjust current position salaries to get closer to the market rate data provided by OMES HCM. The planned January 2024 organizational study and classification and compensation studies are necessary to fully document agency needs and develop an action plan to address them. However, because adjusting salaries to meet market rate is a key component of our priority goal of Achieving Operational Stability, the Director is making responsive, across the board adjustments to staff salaries effective July 1.

Working through market rate salary increases for staff has created compression between the Director’s current salary and other positions. The Director respectfully submits this information to the Board for their review, input and possible action.

**Background**

65 O.S. 2-106, Duties and Powers states: “The Oklahoma Department of Libraries Board shall be the supervisory and policymaking body of the Department and shall:

- (a) Appoint the Director, who shall possess the qualifications specified by Section 65-3-103 of this title, and shall hold office at the pleasure of the Board.”

# Oklahoma Department of Libraries Collection Policy

## Introduction

### A. Purpose

The collection policy of the Oklahoma Department of Libraries (ODL) supports the mission and vision statements of ODL, guides agency work, and adheres to the legal responsibilities mandated by the Code of Oklahoma. This policy is subject to review and revision as needed.

### B. Mission Statement

The Oklahoma Department of Libraries works to ensure every Oklahoman has access to innovative, quality library and information resources and possesses the literacy skills needed to be successful in the global economy, and to participate in democracy, and accomplish individual life goals.

### C. Agency Vision

Oklahomans value and depend on library services and quality information to lead productive, healthy, and fulfilled lives.

### D. Intellectual Freedom

The ODL Board and Director believe that the right to freely access information is an important part of the intellectual freedom that is basic to democracy, and ODL hereby adheres to the *Library Bill of Rights*, *Freedom to Read*, and *Freedom to View* policy statements (Appendices A, B, and C) as adopted by the American Library Association.

## I. Key Services Supported by Collection

Research and Circulation: ODL provides resources for learning and research through collections and databases available to state employees, libraries and schools, and customers of libraries in other states.

Government Information: ODL provides state and federal information in the original format and/or digital versions. We promote access to Oklahoma state government and U.S. government information for everyone.

Law and Legislative Reference: ODL provides prompt, nonpartisan, and accurate information to executive, legislative, and judicial branches of government as well as to the general public.

## II. Selection of Materials

As the State Library and State Archives of Oklahoma, ODL's unique and specialized collections are built and maintained in a focused manner to meet the information needs of state government employees and agencies, researchers, the library community, and residents of Oklahoma.

Decisions regarding material acquisition include an analysis of patron inquiries, interlibrary loan patterns, circulation demand patterns, and the professional judgement of trained ODL staff regarding topics of concern and interest. Additionally, the following factors are considered:

## Agenda Item 9

- Access to existing collections in State agencies and institutions, including public and special libraries
- Authority, accuracy, and relevance of the material
- Diversity of viewpoint and culture
- Favorable reviews in critical library and other professional review publications
- Funds available for acquisitions
- Information needs, interests, and demands of our primary audiences
- Reliability, qualifications, and reputation of the author, artist, or publisher
- Social significance

Gifts are accepted on a selective basis and are evaluated according to the selection criteria of the collection in which it is to be assigned. ODL reserves the right to decide whether a gift should be added to the collection, referred to other libraries, or discarded. All donated material must meet the same criteria as those materials that are selected and purchased.

### **III. Collection Maintenance**

ODL staff conduct a systematic evaluation of materials on a regular basis using the following criteria:

- Accuracy and relevance
- Age
- Collection performance
- Condition
- Duplication
- Historical significance
- Statutory code

### **IV. Reconsideration of Library Materials**

It is the responsibility of the library to provide a balanced and diverse collection. Not all material will be of interest to everyone. Selection is based on the total work and not on the presence of words, phrases, or situations, which in and of themselves might be objectionable. Serious works presenting an honest aspect of some problem of life are not excluded because of coarse language or frankness. The inclusion of a particular resource does not constitute endorsement or advocacy of the ideas or statements found therein.

Patrons wishing to request a reconsideration of library materials should complete the "Request for Reconsideration of Library Materials" form (Appendix D). Library materials about which a reconsideration request has been made will not be removed from the collection or restricted in use before a final decision has been made.

A completed "Request for Reconsideration of Library Materials" form can be mailed to ODL or given to a staff member. The material will be evaluated using the criteria outlined in this policy. A letter from the Director will be sent to the patron explaining the decision and any action to be taken. The Director will make the final decision; however, appeals to the Director's decision may be heard by the ODL Board.

## **Appendix A**

### **Library Bill of Rights**

The American Library Association affirms that all libraries are forums for information and ideas and that the following basic policies should guide their service.

1. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Material should not be excluded because of the origin, background, or views of those contributing to their creation.
2. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrine disapproval.
3. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.
4. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.
5. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.
6. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.
7. All people, regardless of origin, age, background, or views, possess a right to privacy and confidentiality in their library use. Libraries should advocate for, educate about, and protect people's privacy, safeguarding all library use data, including personally identifiable information.

## **Appendix B**

### **Freedom to Read Statement**

The freedom to read is essential to our democracy. It is continuously under attack. Private groups and public authorities in various parts of the country are working to remove or limit access to reading materials, to censor content in schools, to label "controversial" views, to distribute lists of "objectionable" books or authors, and to purge libraries. These actions apparently rise from a view that our national tradition of free expression is no longer valid; that censorship and suppression are needed to counter threats to safety or national security, as well as to avoid the subversion of politics and the corruption of morals. We, as individuals devoted to reading and as librarians and publishers responsible for disseminating ideas, wish to assert the public interest in the preservation of the freedom to read.

Most attempts at suppression rest on a denial of the fundamental premise of democracy: that the ordinary individual, by exercising critical judgment, will select the good and reject the bad. We trust Americans to recognize propaganda and misinformation, and to make their own decisions about what they read and believe. We do not believe they are prepared to sacrifice their heritage of a free press in order to be "protected" against what others think may be bad for them. We believe they still favor free enterprise in ideas and expression.

These efforts at suppression are related to a larger pattern of pressures being brought against education, the press, art and images, films, broadcast media, and the Internet. The problem is not only one of actual censorship. The shadow of fear cast by these pressures leads, we suspect, to an even larger voluntary curtailment of expression by those who seek to avoid controversy or unwelcome scrutiny by government officials.

Such pressure toward conformity is perhaps natural to a time of accelerated change. And yet suppression is never more dangerous than in such a time of social tension. Freedom has given the United States the elasticity to endure strain. Freedom keeps open the path of novel and creative solutions, and enables change to come by choice. Every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of our society and leaves it the less able to deal with controversy and difference.

Now as always in our history, reading is among our greatest freedoms. The freedom to read and write is almost the only means for making generally available ideas or manners of expression that can initially command only a small audience. The written word is the natural medium for the new idea and the untried voice from which come the original contributions to social growth. It is essential to the extended discussion that serious thought requires, and to the accumulation of knowledge and ideas into organized collections.

We believe that free communication is essential to the preservation of a free society and a creative culture. We believe that these pressures toward conformity present the danger of limiting the range and variety of inquiry and expression on which our democracy and our culture depend. We believe that every American community must jealously guard the freedom to publish and to circulate, in order to preserve its own freedom to read. We believe that publishers and librarians have a profound responsibility to give validity to that freedom to read by making it possible for the readers to choose freely from a variety of offerings.

Agenda Item 9

The freedom to read is guaranteed by the Constitution. Those with faith in free people will stand firm on these constitutional guarantees of essential rights and will exercise the responsibilities that accompany these rights.

We therefore affirm these propositions:

1. *It is in the public interest for publishers and librarians to make available the widest diversity of views and expressions, including those that are unorthodox, unpopular, or considered dangerous by the majority.*

Creative thought is by definition new, and what is new is different. The bearer of every new thought is a rebel until that idea is refined and tested. Totalitarian systems attempt to maintain themselves in power by the ruthless suppression of any concept that challenges the established orthodoxy. The power of a democratic system to adapt to change is vastly strengthened by the freedom of its citizens to choose widely from among conflicting opinions offered freely to them. To stifle every nonconformist idea at birth would mark the end of the democratic process. Furthermore, only through the constant activity of weighing and selecting can the democratic mind attain the strength demanded by times like these. We need to know not only what we believe but why we believe it.

2. *Publishers, librarians, and booksellers do not need to endorse every idea or presentation they make available. It would conflict with the public interest for them to establish their own political, moral, or aesthetic views as a standard for determining what should be published or circulated.*

Publishers and librarians serve the educational process by helping to make available knowledge and ideas required for the growth of the mind and the increase of learning. They do not foster education by imposing as mentors the patterns of their own thought. The people should have the freedom to read and consider a broader range of ideas than those that may be held by any single librarian or publisher or government or church. It is wrong that what one can read should be confined to what another thinks proper.

3. *It is contrary to the public interest for publishers or librarians to bar access to writings on the basis of the personal history or political affiliations of the author.*

No art or literature can flourish if it is to be measured by the political views or private lives of its creators. No society of free people can flourish that draws up lists of writers to whom it will not listen, whatever they may have to say.

4. *There is no place in our society for efforts to coerce the taste of others, to confine adults to the reading matter deemed suitable for adolescents, or to inhibit the efforts of writers to achieve artistic expression.*

To some, much of modern expression is shocking. But is not much of life itself shocking? We cut off literature at the source if we prevent writers from dealing with the stuff of life. Parents and teachers have a responsibility to prepare the young to meet the diversity of experiences in life to which they will be exposed, as they have a responsibility to help them learn to think critically for themselves. These are affirmative responsibilities, not to be discharged simply by preventing them from reading works for which they are not yet prepared. In these matters values differ, and values cannot be legislated; nor can machinery be devised that will suit the demands of one group without limiting the freedom of others.

Agenda Item 9

5. *It is not in the public interest to force a reader to accept the prejudgment of a label characterizing any expression or its author as subversive or dangerous.*

The ideal of labeling presupposes the existence of individuals or groups with wisdom to determine by authority what is good or bad for others. It presupposes that individuals must be directed in making up their minds about the ideas they examine. But Americans do not need others to do their thinking for them.

6. *It is the responsibility of publishers and librarians, as guardians of the people's freedom to read, to contest encroachments upon that freedom by individuals or groups seeking to impose their own standards or tastes upon the community at large; and by the government whenever it seeks to reduce or deny public access to public information.*

It is inevitable in the give and take of the democratic process that the political, the moral, or the aesthetic concepts of an individual or group will occasionally collide with those of another individual or group. In a free society individuals are free to determine for themselves what they wish to read, and each group is free to determine what it will recommend to its freely associated members. But no group has the right to take the law into its own hands, and to impose its own concept of politics or morality upon other members of a democratic society. Freedom is no freedom if it is accorded only to the accepted and the inoffensive. Further, democratic societies are more safe, free, and creative when the free flow of public information is not restricted by governmental prerogative or self-censorship.

7. *It is the responsibility of publishers and librarians to give full meaning to the freedom to read by providing books that enrich the quality and diversity of thought and expression. By the exercise of this affirmative responsibility, they can demonstrate that the answer to a "bad" book is a good one, the answer to a "bad" idea is a good one.*

The freedom to read is of little consequence when the reader cannot obtain matter fit for that reader's purpose. What is needed is not only the absence of restraint, but the positive provision of opportunity for the people to read the best that has been thought and said. Books are the major channel by which the intellectual inheritance is handed down, and the principal means of its testing and growth. The defense of the freedom to read requires of all publishers and librarians the utmost of their faculties, and deserves of all Americans the fullest of their support.

We state these propositions neither lightly nor as easy generalizations. We here stake out a lofty claim for the value of the written word. We do so because we believe that it is possessed of enormous variety and usefulness, worthy of cherishing and keeping free. We realize that the application of these propositions may mean the dissemination of ideas and manners of expression that are repugnant to many persons. We do not state these propositions in the comfortable belief that what people read is unimportant. We believe rather that what people read is deeply important; that ideas can be dangerous; but that the suppression of ideas is fatal to a democratic society. Freedom itself is a dangerous way of life, but it is ours.

## Appendix C

## Freedom to View Statement

The **FREEDOM TO VIEW**, along with the freedom to speak, to hear, and to read, is protected by the First Amendment to the Constitution of the United States. In a free society, there is no place for censorship of any medium of expression. Therefore these principles are affirmed:

1. To provide the broadest access to film, video, and other audiovisual materials because they are a means for the communication of ideas. Liberty of circulation is essential to insure the constitutional guarantee of freedom of expression.
2. To protect the confidentiality of all individuals and institutions using film, video, and other audiovisual materials.
3. To provide film, video, and other audiovisual materials which represent a diversity of views and expression. Selection of a work does not constitute or imply agreement with or approval of the content.
4. To provide a diversity of viewpoints without the constraint of labeling or prejudging film, video, or other audiovisual materials on the basis of the moral, religious, or political beliefs of the producer or filmmaker or on the basis of controversial content.
5. To contest vigorously, by all lawful means, every encroachment upon the public's freedom to view.

This statement was originally drafted by the Freedom to View Committee of the American Film and Video Association (formerly the Educational Film Library Association) and was adopted by the AFVA Board of Directors in February 1979. This statement was updated and approved by the AFVA Board of Directors in 1989.
