PATIENT-CENTERED MEDICAL HOME SOONERCARE CHOICE APPLICATION
ENTRY LEVEL

Provider Name:

Provider ID:

NPI:

Address:

Phone:

Email:

Practice Type (i.e., FP, Peds, GP, etc.):

Medical Home Requested Panel Capacity and Age Range:

The requirements listed below are mandatory to be approved as an entry level medical home provider. Before your contract can be finalized, a representative from provider services will call to schedule the readiness review. Please have examples or written policies and procedures available to include with your application. The policies and procedures needed are listed on the checklist at the end of the application.

To apply, login under the Provider/Group that is requesting to become a PCMH provider and locate the "Update Provider File" on the right-hand side. Click on "Enroll in a Managed Care Program," then answer the questions about programs, panel size and age restrictions. Next, you will fill out the PCMH level application of your choice and upload the required documents.

REQUIREMENTS

Provider must:

1. Maintain a full-time practice, which is defined as having established appointment times available to patients during a minimum of 20 hours each week.
2. Provide all medically necessary primary and preventive services for panel members.
3. Provide Care Coordination for all SoonerCare members. This includes continuity of care through proactive contact with panel members and incorporates the family or support system with coordination of care. Provider will coordinate the delivery of primary care services with any specialist, case manager and community-based entity involved with the patient (e.g., WIC and

Children's First program, home health, hospice, DME. etc.). This includes but is not limited to referrals, lab/diagnostic testing, preventive services, and behavioral health screening.

4. Provide patient or family with education and support utilizing varying forms of educational materials appropriate for individual patient needs and medical conditions to improve understanding of the medical care provided and plan of treatment. An example would include patient education handouts. This education must be documented within the patient medical record.
5. Explain the expectations of a patient-centered medical home with the patient. The defined roles should be explained within the context of all joint principles which reflect a patient-centered medical home.
6. Use scheduling processes to promote continuity of care through maintaining open appointment slots daily. Open scheduling is defined as the practice of having open appointments available in the morning and afternoon for same day/urgent care appointments. This does not include double-booking appointment times. Provider implements training and written triage procedures for the scheduling staff.
7. Use voice-to-voice telephone coverage to panel members 24 hours a day, 7 days a week. This must provide an opportunity for the patient to speak directly with a licensed health care professional. The number to call should connect to a person or message which can be returned within 30 minutes. All calls are triaged and forwarded to the PCP or on-call provider when necessary. This coverage includes after office hours and weekend/vacation coverage. Provider maintains a formal professional agreement with the on-call PCP or provider and notification is shared relating to panel members' needs and issues.
8. Use behavioral screening, brief intervention, and referral to treatment for members five years of age and older. Behavioral screening is an annual requirement. By using screening tools, the provider will coordinate treatment for members with positive screens with the goal of improving outcomes for members with mental health or alcohol or substance use disorders.
9. Have an organized structured template in a paper or electronic format for clinical data.
10. Maintain medication list within the medical record and update it during each office visit. This medication list includes chronic, acute, and over-the-counter medications and herbal supplements. This includes all prescribing instructions (e.g., dosage, method of administration, frequency, etc.).
11. Maintain a step-by-step system to track the entire process for lab/diagnostic tests. This should include the process of follow-up on test results as well as patient reminders and notifications as needed. This tracking method can be written logs, paper-based documents or electronic reports. Provider must have written policies and procedures for this measure. The written policy and procedures should include the designated staff by position (e.g., nurse, medical assistant, clerk, etc.) assigned to maintain and oversee this process.

12. Maintain a step-by-step system to track referrals including self-referrals communicated to provider by member. This should include the process of follow-up on consult notes and findings as well as to remind and notify patients to follow-up as needed. This tracking method can be via written logs, paper-based documents, or electronic reports. Provider notifies panel members when a specialty appointment is made by the PCP. Provider documents attempts to obtain a copy of the specialist provider's consult notes and findings. Provider must have written policies and procedures for this measure. The written policy and procedures should include the designated staff by position (e.g., nurse, medical assistant, clerk, etc.) assigned to maintain and oversee this process.
