Unduplicated enrollees State Fiscal Year-to-Date (July through report month including Insure Oklahoma) — **865,966**

Other Breakdowns of Total Enrollment

Oklahoma SoonerCare (Medicaid) members residing in a long-term care facility — **15,866**

Oklahoma persons enrolled in both Medicare and Medicaid (Dual Enrollees) — **108,415**

Small Businesses Enrolled in ESI	Employees w/ ESI	Individual Plan (IP) Members
4,811	16,525	13,694

Race Breakdown of Total Enrollment

	Children	Adults	Percent	Pregnant Women
American Indian	62,829	25,546	11%	3,101
Asian or Pacific Islander	8,448	4,145	2%	628
Black or African American	64,767	36,650	13%	2,531
Caucasian	324,001	195,984	67%	18,501
Multiple Race	43,408	9,006	7%	1,618
Hispanic Ethnicity	98,579	17,496	15%	4,847

Race is self-reported by members at the time of enrollment. The multiple race members have selected two or more races. Hispanic is an ethnicity not a race. Hispanics can be of any race and are accounted for in a race category above.

Age Breakdown of Total Enrollment

Data was compiled by Reporting & Statistics as of the report date. Numbers frequently change due to certifications occurring after the data is extracted and other factors. This report is based on data within the system prior to the report date. A majority of the data is a "point in time" representation of the specific report month and is not cumulative. Unless stated otherwise, CHILD is defined as an individual under the age of 21. The data is valid as of the report date and is subject to change.

OHCA Brings A Geneticist On Board

The Oklahoma Health Care Authority is proud to announce and welcome Alison Martinez, Ph.D., in the role as geneticist for the agency.

For more than a year, Martinez has served the OHCA as a Clinical Data Analyst in the Reporting and Statistics unit. Effective October 1, she will become OHCA's first geneticist and will reside in the Medical Professional Services unit.

Prior to joining OHCA, Martinez received her undergraduate degree in microbiology from Pennsylvania State University - followed by a doctorate degree in genetics from the University of Chicago.

OHCA Chief Medical Officer Dr. Sylvia Lopez said Martinez has been an asset to the agency since she began – by providing extraordinary work – and said she looks forward to seeing the quality of work and expertise Martinez will bring, serving OHCA as the in-house expert on all issues related to genetics.

“Genetics is an exploding field in the world of medicine. There are a multitude of new genetic tests under development that may or may not have an impact on a patient’s condition,” said Lopez. “This is where Dr. Martinez will be such a valuable resource, in establishing guidelines for the utilization of new genetic testing and critical, objective analysis of new therapies and treatments.”

Lopez added, “it’s been challenging for OHCA because not only are genetic companies marketing to doctors but also to consumers (patients) who may start requesting genetic testing by their doctors. OHCA wanted to utilize in-house expertise to critically look at the scientific data and see if these tests/procedures will influence patient outcomes, and we know Dr. Martinez will do just that.”

“Genetic technologies have already made a significant impact on the way we understand, diagnose, and treat disease, and we fully expect genetics to play a growing role in shaping the health care landscape going forward,” said Martinez. “I am looking forward to helping the Oklahoma Health Care Authority evaluate the latest developments in the field of genetics and ensure that our members can benefit from clinically useful technologies.”
