OKLAHOMA STATE TREASURER

**MONTHLY INVESTMENT
PERFORMANCE REPORT**

MARCH 2013

OKLAHOMA STATE TREASURER

April 10, 2013

To the People of Oklahoma:

I am pleased to issue the March monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

US Treasury yields were mostly down for the month. The yield on the 10-year Treasury note ended the month 10 basis points higher than on December 31. A bank bailout in Cyprus and Italy's continued political unrest contributed to European turmoil. The Dow Jones Industrial Average (DJIA) closed at a new high of 14578 at month-end. The S&P 500 also closed at a new record high of 1569. Federal Reserve Chairman Ben Bernanke, in a news conference after the two-day policy meeting in March, said the Federal Open Market Committee (FOMC) is developing a strategy to gradually wind down an \$85 billion monthly bond-buying program. The program includes \$40 billion per month of long-term Treasury purchases and \$45 billion per month of mortgage-backed securities purchases. The Fed also said it will keep short-term interest rates near zero until unemployment drops to 6.5%.

Economic Developments

Numerous reports were issued in March that affected performance of the markets during the month. The Institute for Supply Management reported that its index of manufacturing activity increased in February to a reading of 54.2. The current level is still below levels seen in October and November of 2012. The February unemployment rate fell to 7.7% as 236,000 jobs were added. The workweek increased to 34.5 hours. The Bureau of Labor Statistics reported the producer price index (PPI) for finished goods rose 0.7% in February. Retail sales jumped 1.1% in January and up 4.6% on a year-over-year basis. The consumer price index (CPI) rose 0.7% in February. The trade deficit widened to \$44.4 billion in January as exports decreased 1.2%. Exports to the European region fell 6.4% and the U.S. trade deficit with China rose 13.6%. The Commerce Department reported housing starts climbed 0.8% in February. Housing starts have risen approximately 28% over the past twelve months. Existing home sales increased to 4.98 million in February from 4.94 million in January. Existing home sales are now running at the fastest pace since November 2009. Median home prices appreciated to \$173,000 from \$170,600. The Commerce Department reported new single-family home sales fell 4.6% in February. The major drag in new home sales was a 13.3% decline in the Northeast. The National Association of Home Builders gauge of confidence fell to a reading of 44 in March from 46 in February. This is the second consecutive monthly decline but the confidence gauge is up over 50% from the prior year. The improvement in housing was one of the key factors behind the 0.5% increase in the index of leading economic indicators (LEI). The S&P/Case-Shiller index of home prices in 20 major metropolitan cities reported prices rose by 8.1% in January from a year earlier. The Conference Board's consumer confidence index declined to 59.7 in March from 68.0 (revised) in February. Rising gasoline prices, tax increases, and fiscal uncertainties contributed to the decline. The final release of fourth quarter (4Q) gross domestic product (GDP) was revised up to 0.4% from 0.1% in the second release.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 2.06% in March and the weighted average maturity was 1,073 days. No significant alterations were made in the portfolio's composition. The year-to-date monthly average investable base was down \$12 million to \$3.876 billion. Portfolio diversification continues to be sound. U.S. Treasury Inflation-Protected Securities represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 36% of the portfolio. Mortgage-backed securities were 44%, municipal bonds were 2% and Certificates of Deposit represented 3% of assets. Money market mutual funds were 9%, and the allocable portion of sales and use tax to General Revenue collected by the Oklahoma Tax Commission was 3%. State Bond Issues (at 2%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on challenging and potentially volatile market conditions, portfolio strategy consists of a combination of laddered maturities and market observation for investment opportunities that will maximize income in a secure environment.

Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees and mutual fund operating expenses are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,894,914,625 and State Agency balances in OK Invest at \$2,318,710,830 for a total of \$6,213,625,455.

Explanation of Performance Comparison

March 31, 2013

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at J. P. Morgan Chase & Co.

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
