

KEN MILLER
OKLAHOMA STATE TREASURER

**MONTHLY INVESTMENT
PERFORMANCE REPORT**

JANUARY 2015

February 27, 2015

To the People of Oklahoma:

I am pleased to issue the January monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

The Treasury yield curve continued its flattening trend during January. Treasury yields continue to stay low due in large part to strong demand from overseas investors. The 2-year Treasury reached 0.66% at the beginning of the month, but fell to 0.45% by month's end. The yield of the 10-year Treasury dropped in concert with the 2-year coming in at 1.64%, which reflected a 47 basis point drop from the month's high on January 2. In addition, the 30-year ended the month at a measly 2.22%.

The Dow Jones Industrial Average rose 1.3% to close at 17,417. The Standard & Poor 500 gained approximately 1% to close at 2,021 and the tech-laden Nasdaq Composite Index closed at 4,683 increasing by 1%.

The January 28 Federal Open Market Committee (FOMC) policy statements reprised previous releases that specifically stated "it can be patient to normalize the stance of monetary policy". It appeared the FOMC was still not comfortable in releasing a precise time frame for a rate hike.

Economic Developments

The Bureau of Labor Statistics (BLS) reported the unemployment rate in December decreased from 5.8% to 5.6% and non-farm payrolls had grown by a seasonally adjusted 252,000. In addition, the BLS made upward revisions to October and November, totaling an additional 50,000 jobs. The total job gains in 2014 were 2.952 million which was the best year for job creation in 15 years.

In December, both the Consumer Price Index (CPI) and the Producer Price Index (PPI) shrank from -0.3% to -0.4% and -0.2% to -0.3%, respectively. The year-over-year CPI increased by just 1.3% and PPI advanced by 2.1%. Price declines were seen in energy, clothing, airfares and auto prices. These price declines were offset by higher prices for shelter and medical care commodities and services.

Retail sales fell 0.9% in December and the originally reported 0.7% month-over-month retail sales increase in November was revised down to only a 0.4% rise. The decline in gasoline prices did not appear to entice consumers to increase their retail spending. In fact, there were many sectors that reflected languor such as building materials, electronics/ appliances, apparel, sporting goods/hobbies and department stores. The best sales growth in 2014 was in restaurant and bars sector.

December existing home sales increased by 2.4% to 5.04 million, but total existing home sales for 2014 fell by 3.1% to 4.93 million in comparison to 2013. The National Association of Realtors also reported that single-family starts were higher by 7.2% month-over-month and 7.9% for the year. The 2014 median sales price rose to \$209,500 which was a 6.6% increase for the year.

The Commerce Department released that the November U.S. trade deficit fell by 7.7%, which was the smallest since December 2013. Imports fell 2.2% during the month and importation of oil was the lowest since August 2009. The stronger Dollar and a weaker global demand for U.S. goods attributed to the decline in exports by 1%.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 1.75% in January and the weighted average maturity was 947 days. The year-to-date monthly average investable base was \$4.19 billion. Portfolio diversification continues to be sound. U.S. Treasury Inflation-Protected Securities represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 42% of the portfolio. Mortgage-backed securities were 39%, municipal bonds were 1% and Certificates of Deposit represented 3% of assets. Money market mutual funds and commercial paper sweep were 9%, and the allocable portion of sales and use tax to General Revenue collected by the Oklahoma Tax Commission was 4%. State Bond Issues (at 1%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Laddered bond maturities and a buy-and-hold strategy were utilized. Market observation for investment opportunities were considered in order to maximize income within investment parameters and the current low interest rate environment.

Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees and mutual fund operating expenses are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$4,373,662,355 and State Agency balances in OK Invest at \$2,418,101,317 for a total of \$6,791,763,672.

Best regards,

KEN MILLER

Explanation of Performance Comparison

January 31, 2015

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at J. P. Morgan Chase & Co.

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.

NOTE: Pursuant to Oklahoma State Statute Title 62, Section 89.7, all known fees are to be reported. The money market mutual fund fees reported above are shown at the contracted rate. Due to the current low interest rate environment, a portion of these fees have been voluntarily waived by the provider. An adjustment to actual fees will be presented in the Annual Report.

The State Treasurer participates in a Securities Lending Program with J. P. Morgan Chase & Co. acting as lending agent. J. P. Morgan retains 15% of the revenues generated as compensation for services. Its share for the month was \$5,756.47. Pursuant to Oklahoma State Statute Title 62 Section 90, the State Treasurer retains the first \$450,000 of securities lending revenues in a revolving fund. These funds are used to pay custody and other banking fees. Any revenue not needed for this purpose is deposited to the General Fund.
