### Administrative Rules Report | Executive Order 2020-03

**Report Submitted by:** Carrie Slatton-Hodges

**Title:** Interim Commissioner

**Email:** [Chodges@odmhsas.org](mailto:Chodges@odmhsas.org)

**Phone:** (405) 248-9201

#### **Method Used to Conduct Review:**

The Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) has conducted a thorough review of its administrative rules contained in Title 450 and has identified a significant number of unnecessary, duplicative, and/or outdated regulations. The agency conducted numerous meetings with legal, policy, provider certification, and program staff over the course of the last few months to identify the optimal strategy to reduce regulatory burden and streamline provider requirements within administrative rules. Staff also considered feedback from providers on desired rule changes. The identified rule reductions in this report accomplish the following goals: 1) eliminating unnecessary or duplicative regulations while maintaining a regulatory framework that ensures safety of consumers, 2) applies regulations consistently across provider types where appropriate, and 3) eliminates burdensome and unclear requirements.

ODMHSAS evaluated the need for sweeping changes within the body of its administrative rules while conducting its review. As such, some reorganization of rules across chapters is planned, as indicated in this report. This reorganization will result in some addition of language in strategic places in order to eliminate duplicative language across chapters and increase consistency, with an overall impact of reduced regulations. The agency has noted below both the total and the estimated “net” reduction that takes into account those additions.

ODMHSAS will conduct ongoing review of its administrative rules and continue to monitor the need for reduced regulations for providers.

**TOTAL NUMBER OF UNECESSARY, COSTLY, INEFFECTIVE, DUPLICATIVE OR OUTDATED REGULATIONS: 214**

**ESTIMATED NET REDUCTION: NUMBER OF UNECESSARY, COSTLY, INEFFECTIVE, DUPLICATIVE OR OUTDATED REGULATIONS: 198**

**Notes Regarding the Compilation of the Administrative Rules Report:**

- Unless otherwise indicated, the following removal categories align with the explanations below:
  - Duplicative = the requirement appears within multiple chapters and will be addressed in new language in an existing chapter or is currently addressed in an existing chapter
  - Unnecessary = the requirement did not add significant value to the agency's oversight mission
  - Ineffective = the requirement was impractical to monitor and/or arbitrary
  - Outdated = the requirement references outdated information or citations
- To achieve overall reduction, some chapters will have language added. These chapters include Chapter 1, Chapter 21, and Chapter 55, and reorganization of content is noted below the relevant chapters in this report.
- The agency has completed this report based on planned rule changes and acknowledges that the permanent rulemaking and public comment process may impact the exact changes and reductions that are made.
