## Badge Details

<b>Name</b>	Canine & Feline CPR – Advanced Life Support - 5315
<b>Description</b>	<p>The PetCPR+ Advanced Certification program is designed for veterinary professionals specifically such as Veterinary Technicians, Assistants, and support personnel that work in veterinary facilities particularly general practices. This class is RACE approved for Veterinary Technicians only.</p> <p>Disclaimer: Licensed Veterinarians will find that the material covered in this program is too basic for their needs as the course is geared towards vet techs and support staff.</p> <p>Our certification classes are becoming the choice for veterinary hospitals and clinics to validate their staff training for hospital accreditations.</p>
<b>Criteria</b>	<p>Learning Objectives:</p> <ul style="list-style-type: none"><li>• Discuss communication skills and techniques needed to effectively work as a team during an emergency</li><li>• Emergency room supplies and equipment and what they are used for</li><li>• How to perform triage on dogs and cats</li><li>• Discuss primary assessment and its importance in advanced life support</li><li>• Oxygen and fluid therapy and when it is used</li><li>• What is cardiopulmonary arrest and how to perform CPR on dogs and cats</li><li>• Ventilated vs manual CPR including compression to breath ratios</li><li>• Post cardiopulmonary arrest care</li></ul>
