Name	8773 – Phlebotomy Technician Certification
Description	<p>Phlebotomy plays a key role in laboratory testing and patient care. It is widely accepted that the quality of a laboratory test is only as good as the specimen that was collected. Due to the need to be cost effective, Phlebotomy has now become a specialized area of clinical laboratory practice. Although a hospital is a common place where a phlebotomy technician may work, clinics, acute care facilities as well as doctor’s offices are also ideal places for a phlebotomist to work.</p>
Criteria	<p><i>Candidates receiving this certification will take an exam with the following criteria:</i></p> <p>The exam is composed of 100 questions.</p> <ul style="list-style-type: none">• Professionalism & Regulatory Compliance• Infection Control & Safety• Patient Identification• Assessment• Site Preparation• Equipment Selection & Maintenance• Collection of Blood & Non-Blood Specimen• Specimen Processing & Transportation
