

26-27 CareerTech Programs and Courses for Postsecondary Opportunity Points

CareerTech courses combine classroom work with skill-based practices to train and develop students in preparation for the workforce.

Local Student Information Systems (SIS) Reporting Requirements:

The Instructional Level for all CareerTech Courses and Programs is 73044.

CareerTech opportunities are provided through two channels:

8000+

Students are enrolled and complete courses at the local high school or embedded within a technology center program. At a high school or technology center, 8000 courses must be taught by a CareerTech-certified instructor.

9000+

Students enroll and complete a program at an Oklahoma Technology Center. These programs lead to “Industry Endorsed or Industry Aligned” certifications. *To qualify for PSO and 3rd Math on Core, these programs must meet the full-time program requirement.*

Important “Best Practices”:

9000+ are full-year programs that may be taught year-long with two semester grades or in a block with two semester grades in one semester. (i.e. 1S grade and 2S grade in SIS)
