A: Please contact the Certified Healthy Oklahoma Team at or your local county health department.

Scoring

Q: How will my application be scored?

A: We strive to be as transparent as possible with scoring. We use specific percentages for scoring, and applicants are scored based on the percentage of criteria checked in *each* category. These percentages vary based on type of program and recognition level (Basic, Merit, or Excellence). Scoring information is available online at [Certified Healthy \(oklahoma.gov\)](https://www.oklahomahhs.gov/certified-healthy).

Q: How many criteria do I need to check in each category to be certified?

A: Please see the scoring information on [Certified Healthy \(oklahoma.gov\)](https://www.oklahomahhs.gov/certified-healthy). The number of criteria needed for certification varies by type of program and certification level.

Q: I did not receive certification last year. How can I improve my score this year?

A: We are here to provide technical assistance to your program. We want all early childhood programs to eventually reach the Excellence level, and we are happy to provide information, training, and consultation. Please call the Certified Healthy Oklahoma Team. Your local county health department is also a great resource for information on criteria implementation.
