LETHALITY ASSESSMENT PROTOCOL TRAINING

OVERVIEW

The Lethality Assessment Program (LAP) is a life-saving tool used across Oklahoma to identify high-risk victims of intimate partner violence and connect them with immediate support. This training covers domestic violence trends, the Oklahoma LAP protocol, and the importance of early, coordinated intervention. Participants will learn the research behind LAP, its statutory authority, and best practices for administering the protocol in a victim-centered way. Real case studies, including a domestic violence homicide, demonstrate how early risk identification can prevent future tragedies.

TRAINING INFORMATION

🕐 **1 PM to 3 PM**

📅 **March 12th**

📍 **Virtual**

💲 **FREE!**

SIGN UP FOR THE TRAINING HERE

HTTPS://WWW.ACCELEVENTS.COM/E/LETHALITY-ASSESSMENT-PROTOCOL-LAP-RESPONSE-RISK-RE1

1 Recognize

Learn to identify major lethality risk factors in IPV situations and understand their significance under the Oklahoma LAP.

2 Understand

Understand the statutory foundation of the LAP in Oklahoma and law enforcement duties for screenings and referrals.

3 Strengthen

Gain practical skills for conducting screenings, making referrals, collaborating with advocates, and applying LAP best practices in real-world scenarios.
