

K9 Casualty Care

June 8, 2026 8:00 AM-5:00 PM CT

 [Share session](#)

Police/EMS

University B

This course provides essential skills for EMS and law enforcement personnel to deliver lifesaving care to working K9s in the field. Participants will learn how to recognize and manage common K9 medical emergencies, apply practical treatment techniques, and effectively collaborate with K9 handlers during high-stress operations. Designed to bridge the gap between emergency providers and K9 teams, this course equips responders with the knowledge and confidence needed to protect and care for their canine partners.
