Subject: Oklahoma Regional Haze State Implementation Plan Planning Period 1 Revision 2

Dear Administrator Mason:

In his letter dated January 27, 2025, Governor Kevin Stitt appointed me as his designee for the purpose of submitting documents to the U.S. Environmental Protection Agency (EPA) for approval and incorporation into the State Implementation Plan (SIP) for Oklahoma.

In accordance with 40 C.F.R. § 51.308, Oklahoma must address regional haze at the Wichita Mountains Wilderness Area and at each mandatory Class I area located outside Oklahoma that may be affected by emissions generated within Oklahoma. Therefore, the State of Oklahoma submits for your review and approval under Section 110 of the federal Clean Air Act (CAA) and 40 C.F.R. Part 51, the second revision to the Regional Haze SIP for the First Planning Period and the associated evidence as required by 40 C.F.R. Part 51, Appendix V, 2.1. This SIP revision addresses the federal regulatory requirements applicable to Oklahoma in 40 C.F.R. Part 51, Subpart P, Protection of Visibility.

I hereby certify that the procedures for preparation and submittal of Oklahoma's Regional Haze SIP Planning Period 1 Revision 2 were in compliance with the requirements of the Oklahoma Administrative Procedures Act 75 O.S. §§ 250.1 through 323, as well as 40 C.F.R. § 51.102 and 40 C.F.R. Part 51, Appendix V, 2.1(g). There were no rulemaking actions associated with this SIP.

State public participation procedures for such SIP submittals were submitted to EPA for review under 40 C.F.R. § 51.102. Public notice for this submittal was posted on DEQ's website on December 18, 2025, to allow the opportunity to provide comments and to attend a public hearing scheduled for January 22, 2026, at the DEQ headquarters. It is our understanding that the EPA's review of this submittal will be determined through rulemaking and will be published in the *Federal Register*.

Mr. Scott Mason IV, Regional Administrator
