CHAPTER 515. MANAGEMENT OF SOLID WASTE

SUBCHAPTER 21. USED TIRE PROCESSING, CERTIFICATION, PERMITS AND COMPENSATION

PART 7. COMPENSATION FROM THE USED TIRE INDEMNITY FUND

252:515-21-73. Certification for compensation

(a) **Compliance.** An applicant requesting certification for compensation from the fund must be in substantial compliance with:

(1) the Act;

(2) the requirements of this Chapter;

(3) any permits issued by the DEQ, if applicable; and

(4) other applicable authorizations issued by the United States Army Corps of Engineers or local Conservation District.

(b) **Affiliated facilities.** An applicant may submit a combined request for certification for compensation for two or more facilities if the facilities are owned or operated by the same legal entity or by entities under common ownership or control. A request for certification under this subsection must specify the compensation sought for each facility separately for compensation authorized under 27A O.S. § 401.4(C) and (D), but may aggregate a request for certification for compensation authorized by 27A O.S. § 401.4(E) for all affiliated facilities covered by the combined request.

(c) **Required forms.** Applicants eligible for compensation from the fund shall complete the required forms provided by the DEQ and submit them to DEQ.
