PUBLIC NOTICE OF FILING AN APPLICATION:
Permit to Discharge Municipal/Domestic Wastewater

In accordance with 27A O.S. §§ 2-14-103 and 2-14-301, upon filing an application for a new permit, renewal of an existing permit, or major modification of an existing permit with the Oklahoma Department of Environmental Quality (DEQ), the applicant must publish a notice of the filing that contains information on how the public may view documents, subscribe to updates, and receive electronic notice of public participation opportunities related to the pending application and agency decision.

The notice of filing shall be published as legal notice in one newspaper of general circulation local to the proposed new site or existing facility ONCE A WEEK for TWO (2) CONSECUTIVE WEEKS. Once the notice of filing has been published:

- Return a **notarized** proof of publication (which you must request from the newspaper company) to DEQ.
- Place a copy of the completed application (Form 2M1, 2M2, etc.) at a location where the public can view it for 30 days (example: library, city hall).

Please use the template below as a guide for what should be included in the notice of filing. Fill in the template blanks below the dotted line using the following prompts:

(1) Choose either "New", "Renewal", or "Major Modification";
(2) Applicant Name and Address;
(3) Estimated date of filing application (Month, Year);
(4) Location of facility (Legal description and street address if any);
(5) Choose either "the same location as the facility" or if different from the facility location include the legal description of discharging point(s);
(6) Name(s) of receiving streams(s);
(7) Category of Reclaimed Water: choose from Cat. 2-5 (see OAC 252:627-1-6);
(8) Purpose of water reuse (example: pasture irrigation for beef cattle, cooling towers, etc.);
(9) Section, Township, Range, and County of reclaimed water application sites;
(10) Name, Address, and Telephone number of contact person for applicant;
(11) Name and address of location where application may be reviewed locally (example: library, city hall).
(12) Include the second paragraph which directs the public to the Electronic Environmental Permit Application Docket on DEQ's website.

(The text below this line is what should be published in the newspaper.)

PUBLIC NOTICE OF FILING AN APPLICATION
FOR A (1) _____ OPDES DISCHARGE PERMIT

This is notice that (2) _____,_____, has filed an application on (3) _____ for a permit to discharge municipal/domestic wastewater from a facility located at (4) _____. The discharge point(s) is/are located at (5) _____ discharging to (6) _____. The

permit, if issued, would establish effluent limitations of the discharge. [Omit the following sentence if facility does not supply reclaimed water:] This facility also supplies Category (7) _____ reclaimed water for (8) _____ on site(s) located at (9) _____. If further information is needed, please contact (10) _____,_____,_____. The application may be reviewed at the (11) _____,_____.

(12) Interested parties are directed to the Electronic Environmental Permit Application Docket on DEQ's website at https://applications.deq.ok.gov/PermitsPublicReview, where the public may view documents related to the pending application, subscribe to receive electronic notice of public participation opportunities, receive updates on other actions related to the pending application, and submit comments on the draft permit (including requesting a public meeeting).
