2012
ANNUAL REPORT
OKLAHOMA DEPARTMENT OF CORRECTIONS

Protecting the public, the employee, and the offender
The mission of the Oklahoma Department of Corrections is to Protect the Public, the Employees, and the Offenders.

The Oklahoma Department of Corrections will create a culture that empowers individuals, encourages teamwork, employs best practices, and embraces diversity.

Produced by the Executive Communications Office
Welcome to another edition of the Oklahoma Department of Corrections annual report. The department provides an effective and efficient correctional system to the great state of Oklahoma. This is evident by maintaining our low daily per diem rates and low recidivism numbers while experiencing and responding to the great recession. From 2008 through 2011, the department experienced continued net offender growth while also reducing the budget and absorbing unfunded mandates that exceeded $78 million dollars.

Our profession is driven by evidence-based practices and quality data analysis. Data analysis and other key indicators in this report will assist decision makers in determining needs, trends and future directions for our profession. Planning for everything from an aging offender population, employee compensation and retention, to sustainable natural resources will assist in maintaining a high quality of effectiveness and efficiencies.

It is impossible for an annual report to include every aspect of a complex correctional system and profession. This report attempts to focus on those areas and supporting data that is most requested and beneficial to stakeholders.

Our most valuable asset is our well trained professional workforce so I dedicate this annual report to the employees who so graciously serve the state by sacrificing other aspects of their lives to be dedicated public servants. Public service is a calling and to all employees who answer that call...the state thanks you.

Operating Environment

Departmental services are organized into five distinct divisions:

**Field Operations** includes:  Agri-Services; Classification, Population, and Sentence Administration; Female Offender Operations; Female Offender Diversion Program; Institutions; two female community corrections centers; 3 female halfway house facilities; K-9 Program; Oklahoma Correctional Industries; Private Prison and Jail Administration; Construction/Asbestos; Procedures and Accreditation; Safety Administration; Religious and Volunteer Services; Security; and Central Transportation Unit.

**Administrative Services** includes:  Contracts and Acquisitions; Departmental Services; Evaluation and Analysis; Finance and Accounting; Information Technology; Personnel; Training and Staff Development; Records Disposition; and Metro Affirmative Action.

**Community Corrections** includes:  Five male community corrections centers; fifteen community work centers; eight male halfway house facilities; Parole and Interstate Services; and six probation and parole districts.

**Community Sentencing and Offender Information Services** includes:  Community Sentencing; Correctional Offender Management Information Tracking (COMIT); and Grants Transition Team.

**Treatment and Rehabilitative Services** includes:  Medical Services; Mental Health Services; Programs; and Victim Services.

**Other administrative units** include:  Employee Rights and Relations; Executive Communications; Internal Affairs; and General Counsel.
This map provides a view of the geographic distribution of ODOC work locations.
Workforce

Correctional officers comprised the largest segment of the Oklahoma Department of Corrections workforce as of July 1, 2012. Uniformed staff were 80.01% male with an overall age of 42.8. Non-uniformed staff were 56.5% female with an overall average age of 48.5.

By race, the largest percentage of the agency’s workforce is Caucasian (78.5%) followed by Black (9.3%), American Indian (8.7%), Hispanic (2.5%), and Asian (1.0%) as of July 1, 2012.

Overall, the total number of filled positions in Fiscal Year 2012 (3,948) is 107 positions less than the total number of filled positions in Fiscal Year 2011 (4,055).
Employees and Base Salary by Residence County

This chart visually illustrates the changes in filled FTE since July 1, 2003. 
NOTE: FTE numbers are reported in whole numbers. Partial positions are not reflected.
The agency’s workforce is supplemented through the use of 3,514 volunteers. These volunteers serve in many capacities and provide invaluable services to the Oklahoma Department of Corrections.

Average Number of Volunteer Hours Monthly, Fiscal Year 2012
11,404
On November 29, 2012, the Bureau of Justice Statistics reported on the number of adult offenders under adult correctional supervision for 2011. According to the report over 6.98 million people in the U.S. were under supervision by adult correctional systems. Of that number 4,814,200 were either under probation or parole and 1,504,150 were in prison. These numbers were down from 2010 by 1.5% and 1.1% respectively.

Approximately 7 out of 10 offenders were supervised in the community on probation or parole. Approximately 3 out of 10 were incarcerated in state or federal prison.

The national rate for males was 932 per 100,000 residents; for females the rate was 65 per 100,000 residents.

About 3.0% of black males in the country are in state or federal prison, compared to slightly over 0.5% of white males and 1.2% of Hispanic males.

In 2011, there were 46,246 adult offenders under correctional supervision in Oklahoma. Of that number, 21,877 offenders were supervised under probation or parole and 24,369 offenders were incarcerated. These numbers were down from 2010 by 10.6% and 1.5%, respectively.

Of those under correctional supervision, approximately 4.7 out of 10 offenders were supervised in the community on probation or parole. Approximately 5.3 out of 10 offenders were incarcerated.

The rate of Oklahomans under correctional supervision for males was 1,167 per 100,000 residents; for females, the rate was 128 per 100,000 residents.

About 4.6% of black males in Oklahoma are incarcerated, compared to 0.8% of white males and 0.8% of Hispanic males.

Oklahoma Offender Population

DEMOGRAPHICS

Incarcerated Offenders
Of the state’s 25,889 incarcerated offenders (which excludes county jail backup), 53.6% are white and 46.4% are non-white.

The controlling or major offense of half of Oklahoma’s incarcerated offenders is a non-violent crime.

The average age of incarcerated offenders is 37.8.

Compared to the state’s general population, the U.S. Census Bureau reports Caucasians are 75.8% of the state’s population; African Americans represents 7.7% of the state’s population.

Probation Clients
The majority of the state’s 20,815 probation clients are primarily white and male.

The majority of probation clients committed non-violent crimes.

The average age of probation clients is 36.0.

Parole Clients
The majority of the state’s 3,069 parole clients are primarily white and male.

The majority of parole clients committed non-violent crimes.

The average age of parole clients is 45.3.
Receptions and Releases, Fiscal Year 2003 – Fiscal Year 2012

The following charts show the 10 year trend of offender receptions and releases. Receptions are convicted felons taken into custody of the Oklahoma Department of Corrections.
**Offender Population: Incarcerated, Receptions and Releases - FY 2003 to FY 2012**

**Note:** Population numbers are based on Department of Corrections Weekly Population Analysis, and the receptions and releases are based on data extracted from the Offender Management System.

The chart (above) shows the comparison of the state’s offender population with receptions and releases. The chart (bottom) illustrates yearly offender incarceration growth trends since July 2003. It does not include offenders sentenced to probation or other sanctions.

**Yearly Offender Growth Trends**

*“Out & Community Programs” includes offenders in hospitals, in transit to courts, GPS and other electronic monitoring, and other community programs.*
Offenders sentenced to Life Without Parole represent 2.9% of the total offender population.

### Average Sentences for Top “Nonviolent” Admissions

- **Trafficking**: 10.3 Years
- **Manufacturing**: 10 Years
- **Distribution**: 7.3 Years
- **Convicted Felon Charged w/Possession of Firearms**: 5.6 Years
- **Possession**: 5.2 Years
- **Burglary II**: 4.9 Years
- **Forged Instrument**: 4.8 Years
- **Stolen Property**: 4.7 Years
- **Unauthorized Vehicle**: 4.5 Years
- **DUI**: 3.9 Years

**Property Crimes** are clustered together with an average sentence length of **4.8 years**.
County Jail Backup

Offenders sentenced by the court to the Oklahoma Department of Corrections are housed in county jails until actual reception into department custody.

Financial responsibility for offender housing costs shifts from the county to the Oklahoma Department of Corrections upon court sentencing.

The daily charge to the Department by the counties for this service is set by statute and is currently set at $27 plus all medical costs.

The table right illustrates the jail backup bed growth since the end of FY 2003. The number of offenders as part of the county jail backup population has been trending upwards since FY 2003.
Contract Bed Space

Oklahoma began contracting for private prison bed space with Oklahoma private prison facilities in April 1996.

Currently three private facilities in this state have contracts to provide maximum and medium security beds to the Oklahoma Department of Corrections. The agency has contracts with 11 halfway houses for residential services.

The increased use of contract prison beds to accommodate net offender growth has resulted in expenditure growth beyond the agency’s appropriated resources. To meet this cost growth, numerous facility infrastructure, technology, vehicle replacements, programmatic and staffing needs have been chronically deferred, reduced in scope, or reallocated.

Note: In April 2007, the Oklahoma Department of Corrections was evicted from Great Plains Correctional Facility (not shown above), resulting in 804 offenders being moved elsewhere.
ESTIMATE OF GROWTH IN PRISON POPULATION
(Driven by Accumulation of 85% Offenders)

Oklahoma Department of Corrections, Entry and Exits, FY2005 to FY2011, and, “85% costs using 2011 COL.xls” from 29 November 2011 email “85% Offenders” from Tom James, OKDOC.

Others 90%

10% of 20,548 arrests for drug crime in 2008 were of FY2007 releases.
Offender Work Programs

Agri-Services plays a vital role in enabling offenders to learn valuable job skills and work ethics that can benefit them upon release. Collectively, Department of Corrections Agri-Services farm operations total 24,037 acres where livestock production and management, along with farm management skills, are taught by qualified farm managers. Agri-Services farm operations maintain a herd of over 3,101 beef cattle and 454 head of dairy cattle for meat and milk production to support feeding of offenders. Agri-Services produces grass hay and alfalfa hay, wheat, and other small grains to supplement the winter-feeding of livestock.

The Department of Corrections has two enterprise operations, Agri-Services and Oklahoma Correctional Industries, which employ incarcerated offenders.
Agri-Services also operate facilities to process meat and vegetables that are ultimately used for offender meals.

Oklahoma Correctional Industries operates production facilities at a number of institutions, offering customers quality products at reasonable prices while reducing offender idleness and providing job skills training. This results in significant overall tax savings to the general public. The five largest product lines are license tags and plates, garment operations, modular office systems, upholstered furniture and metal fabrication.

The charts shown below illustrate the number of offenders employed in these enterprise operations.
Offender Treatment Programs

Substance abuse programs utilize cognitive behavioral modalities to address drug addiction and abuse behaviors. Program durations are from four months to one year in duration based on facility location and individual progress in treatment.

Educational Services to include General Equivalency Diploma (GED); Adult Basic Education (ABE); Literacy; and CIMC Life Skills. Education opportunities are available across all levels of security.

Thinking for a Change classes are offered at multiple facilities and security levels. This curriculum teaches offenders how to restructure their thinking so their behavior is positively impacted.

The economic crisis in 2009-10 forced the discontinuation of all sex offender treatment programs and reduced or eliminated several

“...offenders assessed with a substance abuse treatment need who completed treatment returned at a lower rate than offenders with an assessed need for treatment who did not participate in programming.”
substance abuse treatment programs. Private foundation funds afforded a slight recovery with the addition of 40 treatment slots between the gender specific substance abuse treatment programs located at Eddie Warrior and Mabel Bassett Correctional Centers. State appropriated dollars afforded the expansion of treatment programs at Joseph Harp Correctional Center, Elk City Community Work Center and Enid Community Corrections Center.

Efforts continue to provide treatment services to offenders with the utmost need. Changes contained in HB 3052, the “Justice Reinvestment Act,” requires the development of Intermediate Revocation Facilities (IRF) and the development of programming for revoked offenders.

A recent comparison performed by the Evaluation and Analysis Unit of prison releases from July 1, 2005 - June 30, 2009, found that offenders assessed with a substance abuse treatment need who completed treatment returned at a lower rate than offenders with an assessed need for treatment who did not participate in programming.

Several types of programs are offered to offenders at all prisons in the system. The table below summarizes program participation.

</tbody>
</table>

Note: Based on prison releases from July 1, 2005 - June 30, 2009 who also completed SAT/RTP. May have completed course before July 1, 2005.
Probation and Parole

Probation revocations accounted for 25.4% of FY 2012 receptions. Of the offenders who were received on a probation revocation, 51.1% were received into prison without a new case and 48.9% were received with a new case. Some probation violators may have been probationers supervised by an agency other than the department. Parole violators constituted 1.0% of all FY 2012 receptions.
The following tables present a statistical overview of offenders in probation and parole for Fiscal Year’s 2009, 2010 and 2011.

Four of Five Nonviolent Offenders Have a Treatment Need

- 9,376 FY2010 Receptions
- 5,282 Non Violent Offenders
- 4,354 Total Non-Violent Offenders With Substance Abuse/Mental Health Treatment Needs
  - 1,533 Co-occurring
  - 2,392 Substance Abuse Only

Completion Rates for Probation Increased After OKDOC Implemented Evidence Based Practices

- High Risk Offenders had the greatest increase in successful completions after OKDOC introduced EBP.

Specific Populations

Medical

A 2008 Urban Institute Report on Offender Re-entry Health has documented the poor health status of offenders entering prisons as compared with the general population. Offender populations are also aging due to longer prison sentences. This circumstance is often made worse by offender’s tendency for unhealthy lifestyles, coupled with a history of substance abuse or other chronic medical conditions.

The offender population 50 years and older in the Oklahoma Department of Corrections has grown from 85 in 1980 to over 4,484 in Fiscal Year 2012.

<table>
<thead>

</tr>
</tbody>
</table>

- The projected population aged 50 years or older is expected to be 5,254 by Fiscal Year 2013, a 48% increase, while the overall offender population is expected to grow 10%.

- Oklahoma Department of Corrections health care expenditures demonstrate consistent growth, reflecting the national trend.
Factors increasing the cost of offender health care include: Increased offender population, increased average age of offenders, market-driven increases in salaries and benefits of health care personnel, and increased costs of non-Department of Corrections physician and hospital services.

Less tangible factors affecting costs include: Improved overall quality of care, compliance with community standards of care, and the evolution of medical technology.

The chart above illustrates Oklahoma Department of Corrections health care expenditures have increased from $50,636,369 in Fiscal Year 2003 to over $59,000,000 in Fiscal Year 2012, an increase of 17%.

Despite the increase in health care expenditures, the agency has improved efficiency as evidenced by the drop in daily costs shown in the chart below.
Mental Health

Offenders with mental health problems continue to be increasingly overrepresented in the DOC populations compared to the community:

- **History of or current symptoms of a mental illness:** 12,265 incarcerated offenders
- **Current symptoms of serious mental illness:** 7,238 incarcerated offenders
- **Suffer from a serious developmental or cognitive disability:** 222

The chart below is a dramatic picture of the fact that significant decreases in the rate of citizens committed to state mental health hospitals occurred at the same time the incarceration rate has significantly increased.

From FY06 through FY12, the number of offenders on psychotropic medications increased from 4,072 to 5,744, a 29% increase, while the general population increased only 5%.
Several types of mental health services are offered to offenders at all prisons in the system. The table below summarizes the FY2012 average monthly number of mental health services.

The Oklahoma Department of Corrections and the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) collaborative Mental Health Reentry Program transitions incarcerated offenders with serious mental illness into appropriate community-based mental health services in the community. Reentry Intensive Care Coordination Teams (RICCTs) are under ODMHSAS contracts to be responsible for engaging with the offender with serious mental illness prior to discharge and then working with them in the community until they are fully participating in the appropriate community-based mental health and substance abuse services.

A recent outcome analysis of the program that was performed by ODMHSAS showed promising results. Outcomes of offenders served during the first 36 months of the program were compared with a baseline group comprised of similar individuals.

The Collaborative Mental Health Reentry Program outcomes are as follows:

</tbody>
</table>

*The baseline comparison group was comprised of similar individuals prior to program implementation (2006)
Female Offenders

- Oklahoma has consistently ranked first in the rate of female incarceration nationally, and projections for the female offender population through Fiscal Year 2013 indicate that ranking will continue.

- The steady, small increases in female offender numbers reflect reception and release patterns that have stayed consistent in recent years. However, reception numbers appear to be slowing down possibly decreasing.

Hispanic Offenders

The Hispanic/Latino offender population in Oklahoma prisons is the fastest growing racial/ethnic population in the system. While the numbers are not a large proportion of the total offender population at this time, their growth and rate of increase pose definite issues for effective and efficient management of department institutions.

For 2011, the US Census Bureau estimates the Hispanic population in Oklahoma to be 8.9% of the total population. The DOC Hispanic offender population is slightly over 7.62% of the DOC incarcerated population.
National Funding and Expenditure Trends

As with other areas of the state budget, spending growth on corrections has slowed considerably over the past several years; as recently as fiscal 2007 state spending on corrections grew by 10.1 percent. Some of the actions states took to rein in corrections spending included closing prisons and other correctional facilities, the early release of prisoners, sentencing reform and employee furloughs.

In fiscal 2011, corrections spending represented 3.1 percent of total state spending and 7.5 percent of general fund spending. General fund dollars are used primarily to fund state corrections spending and account for $47.6 billion, or 91.5 percent, of all fiscal 2011 state corrections spending. State funds (general funds and other state funds combined, but excluding bonds) accounted for 95.8 percent of total state corrections spending in fiscal 2011. Federal funds accounted for 2.9 percent and bonds accounted for 1.3 percent, due to the American Recovery and Reinvestment Act of 2009 (ARRA), which produced $1.9 billion in corrections funds. However, in fiscal 2011 federal funds are estimated to decline by 26.0 percent as ARRA corrections spending slows to $783 million. Federal funds for corrections are estimated to decline even further in fiscal 2012 by 39.4 percent as ARRA corrections spending is reduced to $433 million.

The same report also documented expenditures for Oklahoma in FY11. Oklahoma corrections expenditures were 2.3% of total state spending and 9.3% of total state general fund spending. According to the report, the state’s corrections expenditures totaled $487 million in FY11.

The state general fund is the dominant source of the state’s corrections spending, providing 92.8%, or $522 million, of total monies spent in corrections. This percentage is slightly higher than the national average of general fund support reported for the same year (91.5%).

Total state funds made up 99.6% of total corrections spending. This percentage for Oklahoma was considerably higher than the national average of 95.8%.

In contrast, federal funds accounted for only 0.42% of the total monies spent in corrections. This level of federal funds was below the national average (2.9%) reported for the same fiscal year.

SOURCE: National Association of State Budget Officers, State Expenditure Report (Fiscal 2010 - 2012)
Oklahoma’s high costs associated with a high rate of per capita incarceration are reflected in the percentage of general revenue fund expenditure.

Although Oklahoma corrections takes a larger share of general revenue funds, the state has one of the lowest incarceration per diem rates, the result of incarcerating higher percentages of state citizens compared to surrounding states.

Department of Corrections
2013 Proposed Legislative Initiatives

- Amend statute regarding drug or alcohol assessment, required for certain crimes, allowing for third party payment of the assessment fee. This change would allow grants, social service agencies, or family members to assist with the fee.

- Modify statute to specify that DOC approved substance abuse treatment programs shall satisfy the 10 or 24 hour alcohol and drug program required by Drug or Alcohol Assessment.

- Amend powers of the Director to authorize award of the badge of an employee who dies while employed to the spouse or next of kin of the deceased employee.

- Amend powers of the Director to authorize payment of $100.00 per month for the maintenance and cleaning of uniforms to all uniformed correctional officers.

- Amend private prison statute to require contractors housing Oklahoma offenders or offenders from other jurisdictions to furnish information regarding a riot, escape, or other serious emergency and facility operations upon request of Oklahoma DOC. Failure to comply may result in fines to be assessed.

- Amend private prison statute to assess liquidated damages when a contractor houses maximum security offenders for longer than 30 days without authorization.
