4. Legislative Update

Chief of Strategic Engagement (COSE) Jessica Brown provided the following update:

A. ODOC Roundtable

The Roundtable is a new project that came about from an inquiry Ms. Gesell had in reference to a negative article published by local think tank.

The goal of this roundtable is to open the lines of communication and provide accurate and timely information to legislators and interest groups involved in criminal justice.

Depending on the topic for each month’s discussion, the agency will provide subject matter experts to help explain complex issues and provide the most accurate information. The agency will offer these meetings virtually.

The first virtual Roundtable will be held tomorrow, November 19, 2020. Legislators have been invited to attend the 10:00 a.m. session and interest groups have been invited to attend the 2:00 p.m. session. The topic of the Roundtable will be “The Reality of Today’s Prisons”. Who is incarcerated? This will include today and historical statistics. The Roundtable will also provide an opportunity
to clarify the earned credit change. COSE Brown indicated the main goal of this project is to open a line of communication to promote accurate information distribution. COSE Brown encouraged Board Members to join the Roundtable. COSE Brown indicated the Roundtable will be recorded and placed on the website for anyone to view at a later time.

Board Members broadly discussed negative comments/articles. Board Members commended the COSE for her efforts on being transparent.

B. Legislative Initiatives
COSE provided an overview of the ODOC Request Bills for the First Session of the 58th Legislature. A copy of the bills was included in the BOC packet for November 18, 2020.

Legislative Session will begin the First Monday in February. This session the agency is requesting nine bills. Five of the bills were from last session that did not make it through the abbreviated session due to COVID-19. Most of the bills are clean-up language.

One bill worth discussing is the bill allowing for the forfeiture of seized monies from inmates. Currently, the agency must have a partner to obtain seized monies. This bill will allow the agency to receive the monies without needing a partner.

Board Members inquired about the current process of the partnership for seized monies. COSE Brown indicated there would be a memorandum of understanding in place and the monies would be divided based on the percentage of work each partner conducted.

Board Members inquired if other agencies had to have a partner to receive seized monies. COSE indicated No.

Another bill would be to place certain positions within the take-home vehicle statute to allow for compliance and eliminate useless paperwork.

Currently, the agency has positions that are permitted take-home vehicles. This will just remove the bureaucracy.

The next bill is the bill requesting a pay increase for Probation and Parole Staff and the final bill is requesting the elimination of the post incarceration supervision.

Board Members inquired on what determines when you need to go to the legislature for raises. Chief Financial Officer indicated it is when funding is needed.

Board Members inquired about education reimbursement. Director Crow indicated that previously that was an option, but budget restraints have halted this program.

Board Members inquired about student loan forgiveness. The answer was provided to indicate yes that was still an operational program as long as the loan
has not been refinanced.
