GUIDELINES AND RULES FOR SUPERVISORS
OF PRISONER PUBLIC WORKS PROGRAMS

The mission of the Oklahoma Department of Corrections (ODOC) is to “Protect the public, the employee, the inmate and the offender.” In addition to the mission of the department, state laws govern the Prisoner Public Works Program (PPWP). Listed below are the guidelines and rules for the supervisors of PPWP programs. These guidelines and rules will provide you with the basic tools and information to accomplish the agency’s mission. Prior to supervising any PPWP crew, each supervisor must attend PPWP supervisor’s training, read the guidelines, rules, post orders, and sign that they understand and accept them.

These guidelines and rules will be included in the post orders for PPWP supervisors.

1. Inmates assigned to your work crew may not leave your job site or assigned work area without your approval. The job site or work area is the area that is defined by you, the crew supervisor, for the work to be accomplished on any particular day. All supervisors will remain in the area with their inmates at all times.

2. PPWP supervisors will immediately report any reportable incident, (i.e. vehicle accident, inmate injury, or escape) to the facility/host facility and the nearest facility for assistance. Local law enforcement will be notified for any assistance.

3. Inmates may not solicit or receive gifts or anything of value, nor may they attempt to borrow money even at the insistence of you or fellow workers. This includes, but is not limited to hats, shoes, boots, or clothing.

4. Minimum security inmates may not have money in their possession at any time. Community corrections inmates may have their assigned debit card in their possession. Community Corrections inmates will not be in possession of cash.

5. PPWP supervisors may not solicit, receive, borrow, or give anything of the above listed items for or to your assigned inmates.

6. Inmates may not receive personal visits, use a telephone in any fashion for personal calls, use a computer for personal use to include sending or receiving e-mail, nor may they send or receive mail while away from the facility. The supervisor will not receive or send any mail for inmates assigned to their supervision.

7. Inmates may not enter into any business.

8. Inmates may not enter into any office unless they are accompanied and supervised by a crew supervisor.

9. Inmates may not enter into any residence at any time or under any circumstances. Inmates may not do this at the direction of a crew supervisor or owner of the residence.

10. Inmates may not consume or have in their possessions at any time intoxicating substance or illegal/prescribed drugs, with the exception of those prescriptions
designated as “keep on person.” Inmates may not be in possession of tobacco or tobacco-like products at any time.

11. Inmates may not take personal property to your work site. This includes, but is not limited to, radios, drinking cups or tumblers, hobby craft items, and photographs.

12. Inmates may not bring any property into the facility that was found or obtained at the work site.

13. Inmates may not bring back into the facility any animals, reptiles, or birds. This includes, but is not limited to, snakes, lizards, turtles, spiders, rabbits, cats, or dogs.

14. Inmates must comply with all rules established by work supervisors.

15. If you need to work inmates overtime, or your work schedule changes, it is your responsibility, as the crew supervisor to notify the facility immediately. This can be done in person or by telephone. The crew supervisor must make prior arrangements, if at all possible, at least two days in advance or one day in advance for emergency situations.

16. Each facility will maintain a roster of all crew supervisors’ names, contact persons, phone numbers, and the name and number of each inmate assigned to each crew.

17. Minimum security inmates may be unescorted but will be visually observed at least every half hour by staff or the civilian supervisor. Formal counts will be conducted every two hours and documented in a logbook.

18. PPWP inmates may only work on projects that are in the public domain and only on public property or right of ways. Some projects on private property, which will benefit the public (i.e., tornado or flood clean-up, etc.) may be allowed. All projects on private property will be requested by the public agency head in writing to the designated facility head for approval, prior to any work starting on the project. Any questions with regard to the propriety of a work assignment will be immediately referred to designated facility head.

19. If inmates assigned to your crew are sick, or otherwise unable to work, they must notify the supervising officer prior to their assigned checkout time for work so that the crew supervisor may be notified of the reason that the inmate is not reporting for work.

20. PPWP inmates may only operate equipment and machinery (e.g., tractors, backhoe, riding lawn mowers, weed eaters, chain saws, power tools, etc.) in the performance of their assigned work detail, provided that they have been trained to safely operate this equipment or machinery by a crew supervisor. All PPWP supervisors will read and acknowledge understanding of Attachment G-1 entitled “Use/Operation of Equipment and Machinery” before being assigned any PPWP inmates. Documentation of safety training will be kept on file and provided to the ODOC staff upon request.

21. Inmates may not at any time operate any vehicle that is street legal for the transportation of people or equipment. Prohibited vehicle operation includes, but not limited to, cars, pickups, vans, trucks, motorcycles, or watercraft.
22. Under no circumstances may an inmate be placed in authority over another inmate or group of inmates.

23. PPWP assignments are made so that inmates may work in the public sector. Inmate work performance will be monitored by the crew supervisor and satisfactory work performance reports will be required for each inmate to maintain PPWP status. Crew supervisors are required to submit monthly work evaluations on each inmate assigned to their crew. These evaluations are due by the fifth calendar day of each month.

24. It is the responsibility of the crew supervisor to report and submit an offense report for any rule violation that any inmate commits. Incident reports and offense reports will be submitted at the end of the workday in which a violation occurred.

25. Inmates who work away from the facility will be provided a sack lunch for the meal they will miss at the facility in accordance with OP-070202 entitled “Food Preparation, Service and Delivery.”

26. Supervisors must ensure proper tools/equipment are provided and for the daily accountability of tools and equipment.

27. Appropriate safety procedures are to be followed. Failure to use required safety equipment may be grounds for termination from the work crew.

28. Inmates are to be properly clothed for appropriateness of their job assignment (e.g., orange uniform, orange coat, or orange coveralls/insulated orange coveralls). All clothing must have “INMATE” stamped on the back. Inmates will not remove outer garments to work in t-shirts. Safety vests will be worn as required.

29. Supervisors will maintain confidentiality of inmate information.

VERIFICATION OF RECEIPT AND UNDERSTANDING OF GUIDELINES AND RULES FOR PRISONER PUBLIC WORKS PROGRAM SUPERVISORS

I have read and understand the guidelines of the Prisoner Public Works Program (PPWP) and agree to abide by them. I have received a copy of the guidelines and rules for PPWP supervisors and inmates. I have also been informed about the institution’s policies on confidentiality of information and agree to abide by them.
