Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

PREA America LLC was hired 02-24-2017 to audit Bridgeway for PREA Compliance by Bridgeway CEO Rod Tavanello. Notices were posted by 09-20, 2017. The Pre-Audit Questionnaire and supporting documentation were provided by 10-16-2017. Emails and phone calls were exchanged to prepare for the on-site audit itinerary.

The audit was conducted, as scheduled, on 11-08-2017. Bridgeway PREA Coordinator David Hill and Vice President/Chief Operating Officer Tom Rogers met with the audit team initially and provided rosters of staff and residents, and facilitated a tour. Helen Cassity, of Human Resources, and Laci Harris, Employment/Case Manager Support, were also attentive and helpful during the day, despite being very busy assisting staff and residents. President/Chief Executive Officer Rod Tavanello and Director of DOC Operations/Senior Case Manager Stacey Wilson arrived later in the day.

Seven random staff plus five specialized staff were interviewed. Most specialized staff also supervise residents at times as part of their duties. They also assume numerous specialized staff responsibilities as needed, so some were interviewed regarding several specialized staff roles. Staff seem to understand their duties regarding the care and supervision of residents and have a general understanding of PREA.

Attempts were made to interview residents screened to have disabilities, limited English proficiency, or prior sexual abuse, as well as residents from all living areas. Also, efforts were made to include interviews with LGBTI residents and residents from diverse racial and ethnic backgrounds. Very few were identified that may possibly fit these “targeted” categories. Twenty residents were randomly selected and interviewed. The residents report that PREA training is done as a group, with a chance to ask questions provided both as a group and later in private. Numerous residents spontaneously explained to the auditor that sexual abuse and harassment does not happen at Bridgeway. They further explained that all residents are safe and treated like “humans.” Several explained that reporting sexual abuse at Bridgeway would be expected and appreciated, and not treated like snitching. Most residents described staff as trustworthy and fair and have a positive impression of Bridgeway and the services they receive. Residents were familiar with PREA requirements and reported no issues regarding searches or supervision.

An exit conference was held at the end of the on-site audit by the audit team and attended by President/Chief Executive Officer Rod Tavanello, PREA Coordinator David Hill, and Vice President/Chief Operating Officer Tom Rogers. General impressions regarding how PREA is working at the facility were shared. Despite not having sexual abuse or harassment allegations, the Bridgeway administrators want the staff to remain ready and vigilant, because it is something that may happen. They are redoing/updated some of the first responder training, as well as the training for screenings and reassessments, as part of their ongoing efforts to cover all parts of PREA on a regular basis. A few remaining documents were requested for review by the audit team.

Remaining verifications were received December 1, 2017, and the auditor told Mr. Hill the documentation review had been completed with compliance documented on each of the PREA Standards.
Partial list of documentation reviewed: Pre-Audit Questionnaire; Resident Count Information Sheets (Daily Offender Accountability); Postings: “Are You in Jeopardy?”, “Speak Up”, “Zero Tolerance”, Poster regarding Inspector General and reporting, “Break the Silence on Men’s Violence”, and Bridgeway Reporting Notice; BHWH PREA Screening Tool (completed for all residents, with reassessments); PREA Facility Response to Sexual Assault; 2017 PREA Staffing Plan Review; Statement of Mission; Memorandum of Understanding with Dearing House; Letter from Kay County Detention Center; Facility PREA Tracking Data; Bridgeway, Inc., Organization Chart; CARF Certification; Bridgeway Halfway House PREA Policy and Guidelines; Sexual Misconduct & Harassment Handout for Staff; ODOC Offenders’s Guide to Sexual Misconduct; Sexual Assault Report form; Request to Staff (Offender Grievance Process); ODOC Request for Health Services; Notification of Investigation Status form; PREA Zero Tolerance Acknowledgement for Offenders; PREA Staff Training Acknowledgement; PREA Volunteer/Contractor Training Acknowledgement; PREA Response Checklist; Protection Against Retaliation Form – Offenders; Protection Against Retaliation From – Staff; Sexual Abuse Incident Review Form; Incident Notification Checklist; Serious Incident Database Report; Incident/Staff Report Form; ODOC PREA Policy; random employee training and background checks; Building Schematics; Rosters of residents and staff; ODOC Contract; and other forms and documentation.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Bridgeway Halfway House consists of several re-purposed buildings located at 601, 610, 612 and 620 West Grand Avenue in Ponca City, Oklahoma. 620 is the administration building and not used for resident housing. The dorms are divided into rooms that can have multiple occupants. One weight room, along with an outside recreation and picnic area, serves all dorms. All staff work in all dorms. Also, there is one kitchen to serve all the residents, all of whom have the option of taking their food back to their rooms or eating in common areas. There are a couple of laundry areas. There are both an inside and an outside visitation area. All bathroom and shower facilities are outside resident rooms. Only one resident at a time is allowed to be in any of the toilet or shower rooms. Entrance to the dorm rooms and bathrooms are monitored by video cameras, as are the insides of mop, pantry, and utility rooms, which also have limited controlled access.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

Auditor Overall Compliance Determination
☑ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Documentation received during the pre-audit process, and observations made by the auditor during the on-site audit, verify that Bridgeway has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment. They have a written policy outlining how they will implement the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The Bridgeway Halfway House PREA Policy and Guidelines include definitions of prohibited behaviors regarding sexual abuse and sexual harassment, sanctions for those found to have participated in prohibited behaviors, and a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of residents. The zero tolerance policy is also repeated on handouts, on a card attached to the employee ID, in trainings, and on posters and notices throughout the facility. Bridgeway employs an upper-level, agency wide PREA coordinator, David Hill. Mr. Hill answers directly to the President/CEO, Rod Tavanello. He also answers to Director of DOC Operations Stacey Wilson and CFO/Vice President Tom Rogers. It appears he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards.

Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bridgeway develops and documents a staffing plan that provides for adequate levels of staffing and video monitoring to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, they consider the physical layout of the facility, the composition of the resident population, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, and any other relevant factors. Staff and resident interviews indicate no deviations from the staffing plan, and no concern about inadequate supervision. Deviations would have to be documented and justified. Whenever necessary, but no less frequently than once each year, Bridgeway assesses, determines, and documents whether staffing plan adjustments are needed. PREA Policy and Guidelines, page 4, states, "There shall be at a minimum of 1 employee for every 60 offenders between the hours of 8 a.m. and 9 p.m., and one employee for every 100 offenders between the hours of 9 p.m. and 8 a.m., present to meet DOC contractual requirements, as well as to ensure facility control, security and offender safety." This policy goes on to specify that at no time shall a staff leave if a replacement has not arrived that will keep them in compliance, and that violations must be immediately documented and addressed.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)
☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative
Bridgeway policy forbids body cavity searches. Cross-gender searches are forbidden. According to documentation provided to the audit team, and interviews with both staff and residents, no violations or exceptions are known to have occurred in the past year. Exceptions must be documented. Policies and procedures have been implemented and verified that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (this includes viewing via video camera). These policies (page 5 in PREA policy) and procedures require staff of the opposite gender to announce their presence when entering a resident housing unit. Policy prohibits staff from searching or physically examining a transgender or inter-sex resident for the sole purpose of determining the resident's genital status. This is found on page 18 of Bridgeway's PREA Policy. Interviews with staff and residents verify these policies are understood and followed with no exceptions noted.

Bridgeway has established procedures to provide disabled residents equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. They have established procedures to provide residents with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Agency policy prohibits use of resident interpreters, resident readers, or other types of resident assistants, except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident’s safety, the performance of first-response duties under § 115.264, and/or the investigation of the resident allegations. The agency is required to document the limited circumstances in individual cases where resident interpreters, readers, or other types of resident assistants are used, although there have been no exceptions in the past year. In addition to ODOC resources available, Bridgeway has close ties to regional crisis intervention and law enforcement organizations, which can be utilized if a resident has need for language assistance other than English and Spanish, both of which are available in-house. Also, Bridgeway, Inc., operates a counseling center in the same complex as the halfway house, with experienced staff qualified to work with individuals with physical and mental health disabilities. Interviews indicate a long history of cooperation and coordination for provision and continuum of care, including with other agencies in the Ponca City area. In addition, interviews with residents and staff indicate a confidence that information will be shared appropriately. If a new resident arrives with a need or issue, it is communicated in the appropriate way to the appropriate staff. If an established resident has a change or is upset, this is also documented and communicated to the next shift and through the chain of command.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bridgeway's PREA policy (pages 11 and 12) prohibits hiring or promoting anyone who may have contact with residents, and prohibits enlisting the services of any contractor who may have contact with residents, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in any of this activity. Agency policy requires the
consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Policy requires that before it hires any new employees who may have contact with residents, it conducts criminal background record checks; and, consistent with federal, state, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Policy requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with residents. Policy requires that either criminal background record checks be conducted at least every five years for current employees and contractors who may have contact with residents; or, that a system is in place for otherwise capturing such information for current employees. In actual practice, however, these background checks are typically completed every 3 years. Policy clearly states that material omissions regarding such misconduct, or the provision of materially false information, will be grounds for termination. Policy also clearly states that all applicants and employees who may have contact with residents will be asked directly about previous misconduct described in paragraph (a) of this section, in written applications or interviews for hiring or promotions, and in any interviews or written self-evaluations conducted as part of reviews of current employees. All interviews with administrators involved in hiring confirm these policies are being followed. The agency also imposes upon employees a continuing affirmative duty to disclose any such misconduct. Policy also clearly states that unless prohibited by law, the agency will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. Several personnel files were randomly pulled, verifying current background checks have been performed.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bridgeway is not responsible for conducting administrative or criminal sexual abuse investigations (including resident-on-resident sexual abuse or staff sexual misconduct). ODOC and local law enforcement has responsibility for conducting administrative and criminal investigations at Bridgeway, and these agencies follow PREA and professional standards for investigating, as required by Bridgeway policy. All residents who experience sexual abuse have access to forensic medical examinations at an outside facility, without financial cost to the victim (p. 20, #6 in Bridgeway PREA Policy). Where possible, examinations are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). SANEs and advocates are available via the MOU with the Dearing House, but when SANEs or SAFEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SANEs or SAFEs. In the past 12 months, there have been no forensic medical exams conducted, because there were no allegations. The facility attempts to make a victim advocate from a rape crisis center available to the victim, either in person or by other means, and these efforts are documented. When a rape crisis center is not available to provide victim advocate services, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member. If requested by the victim, a victim advocate, qualified agency staff member, or qualified community-based organization staff member accompanies and supports the victim through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information, and referrals. In addition, on page 14 and 15, F(1), Bridgeway PREA Policy states, "Specialized training will be provided for employees who may respond, as part of their job duties, to reported incidents of sexual assault. This training may include, but is not limited to: crime scene management, elimination of contamination . . . . , evidence collection protocol and crisis intervention."

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*
Bridgeway ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment (including resident-on-resident sexual abuse and staff sexual misconduct). In the past 12 months there have been no allegations of sexual abuse or sexual harassment. The agency has a policy that requires that criminal allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations, which would include the ODOC and the Ponca City Police Department. Agency policy regarding the referral of allegations of sexual abuse or sexual harassment for criminal investigation is available to the public. The agency documents all referrals of allegations of sexual abuse or sexual harassment for criminal investigation.

Bridgeway and ODOC policies require that investigators are trained in conducting sexual abuse investigations in confinement settings. Bridgeway does not have any trained sexual abuse investigators at this time, but does not conduct its own investigations. Bridgeway policy mirrors ODOC policy, requiring that whichever agency that does investigations maintains documentation showing that investigators have completed the required training. According to this policy, and interviews with Bridgeway administration, the auditor is assured that in addition to the general training provided to all employees pursuant to § 115.231, the agency will ensure that, to the extent the agency itself conducts sexual abuse investigations, its investigators have received training in conducting such investigations in confinement settings. Specialized training includes techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. Director Rod Tavanello and PREA Coordinator David Hill are both former law enforcement detectives and are familiar with this process.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

As with the training of investigators mentioned above, Bridgeway also has a policy related to the training of medical and mental health practitioners. All medical and mental health care practitioners who may work with victims of sexual abuse are to be properly trained. Although medical and mental health care will probably be provided by the Dearing House, ODOC, or other providers, medical staff who conduct forensic exams are to be properly trained, and documentation of this training should be maintained by their employing agency. The training must include: how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and, how and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

Bridgeway has a policy (page 17 and 18 of Bridgeway PREA Policy) and practice that requires screening for risk of sexual abuse victimization or sexual abusiveness toward other residents within 72 hours of their intake. This risk assessment is conducted using an objective screening instrument, and policy also requires that the facility reassess each resident's risk of victimization or abusiveness within a set time period, not to exceed 30 days after the resident's arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening. The screening considers whether the resident has a mental, physical, or developmental disability; the age of the resident; the physical build of the resident; whether the resident has previously been incarcerated; whether the resident's criminal history is exclusively nonviolent; whether the resident has prior convictions for sex offenses against an adult or child; whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming; whether the resident has previously experienced sexual victimization; and the resident's own perception of vulnerability. Policy prohibits disciplining residents for refusing to answer (or for not disclosing complete information related to) questions regarding whether or not the resident has a mental, physical, or developmental disability; whether or not the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming; whether or not the resident has previously experienced sexual victimization; and, the resident's own perception of vulnerability. The auditor interviewed the staff conducting the screenings, as well as the Director and PREA coordinator to verify these policies are being followed, in addition to reviewing documentation. Also, the residents interviewed indicated they have been screened, and that they believe the information collected is being discreetly used to keep them safe. For example, they indicate good decisions are generally being made regarding room and work assignments.

Bridgeway uses information from the risk screening required by § 115.241 to inform housing, bed, work, education, and program assignments, with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive. Case managers and the PREA Coordinator do the screenings and make individualized determinations about how to ensure the safety of each resident, according to the information they gave to the auditor during interviews. Bridgeway makes housing and program assignments for transgender or inter-sex residents in the facility on a case-by-case basis. A transgender or intersex resident's own views with respect to their own safety is given serious consideration. All residents at Bridgeway shower separately and are forbidden to share bathrooms or showers. This provides a guarantee, whether or not it was intended, that a transgender resident would be able to shower separately, as required in policy. The agency does not place gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely based on such identification or status. Interviews indicate that very few residents have identified as LGBTI, and those that do only do so to some people. Staff indicate they treat such information with discretion, and with confidentiality, while treating all residents with equal dignity and respect.

Bridgeway has established procedures allowing for multiple internal ways for residents to report privately to agency officials about sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The agency provides at least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency. In addition to being able to report to the Director, PREA Coordinator, Case Manager, or staff, they can call the DOC PREA Hotline (855-871-4139) or report directly to the police by calling 911. Also, they can receive advocacy and assistance by calling the Dearing House at 580-762-5266. In addition, advocacy and counseling services are available at Dearing House, 311 South 13th St. Ponca City, Oklahoma 74601. Bridgeway also has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to document verbal reports either immediately or by the end of the shift. The agency has established procedures for staff to privately report sexual abuse and sexual harassment of residents. They can report privately through the PREA hotline, through DOC website, or by email. Staff and residents are informed of these procedures through training, refresher training, signs posted around the facility, handouts, and their employee orientation packet.

Bridgeway has an administrative procedure for dealing with resident grievances regarding sexual abuse. Agency policy or procedure allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. (See policy, pages 22 and 23.) The policy does not require a resident to use an informal grievance process, nor otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. Agency policy and
procedure requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. A decision on the merits of any grievance or portion of a grievance alleging sexual abuse must be made within 90 days of the filing of the grievance. In the past 12 months, there have been no grievances filed that alleged sexual abuse. The agency always notifies the resident in writing when the agency files for an extension, including notice of the date by which a decision will be made. Third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, may assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. If the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident's decision to decline. The agency also has a policy and established procedures for filing an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse. These require an initial response within 48 hours and a final agency decision within five days. Policy limits the ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith.

Apart from reporting to designated supervisors or officials and designated state or local service agencies, agency policy prohibits staff from revealing any information related to a sexual abuse report to anyone, other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are required to report sexual abuse, and to inform residents of the practitioner’s duty to report, and the limitations of confidentiality, at the initiation of services. If the alleged victim is under the age of 18 or considered a vulnerable adult under a State or local vulnerable persons statute, the agency will report the allegation to the designated State or local services agency under applicable mandatory reporting laws, which is the Oklahoma Department of Human Services. Staff and offenders interviewed were asked whether they had made any reports of sexual abuse or harassment or knew of any that had been made within the past year regarding Bridgeway. All indicated they knew of no reports and of no abuse. They also verified that they know
how to make reports and would be able to do so if the need arises. They believe that if a report is made, appropriate steps will be taken to protect.

When Bridgeway learns that a resident is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the resident (i.e., it takes some action to assess and implement appropriate protective measures without unreasonable delay). In the past 12 months, there have been no times the agency determined that a resident was subject to substantial risk of imminent sexual abuse. This information was verified by a reading of policy and interviews with residents and staff.

This discussion must also include corrective action recommendations where the facility does not meet the standard. Bridgeway policy requires that, upon receiving an allegation that a resident was sexually abused while confined at another facility, the head of the Bridgeway facility must notify the head of the other facility, or the appropriate office of the other agency or facility, where sexual abuse is alleged to have occurred. In the past 12 months, there have been no allegations the facility received that a resident was abused while confined at another facility. Policy also requires the facility head to provide such notification as soon as possible, but no later than 72 hours after receiving the allegation, and to document such notification within 72 hours of receiving the allegation. In addition, the agency policy requires that allegations received from other facilities/agencies are investigated in accordance with the PREA standards. This is found in Bridgeway's PREA Policy, page 23 and 24, as well as in the ODOC Operations Policy. In the past 12 months, there have been no allegations of sexual abuse the facility received from other facilities, so the auditor was not able to review such documentation and response.

Bridgeway has a first responder policy for allegations of sexual abuse. This policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report will be required to separate the alleged victim and abuser and to preserve and protect any crime scene until appropriate steps can be taken to collect any evidence. If the abuse occurred within a time period that still allows for the collection of physical evidence, the first responder is to request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing,
brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. If the abuse occurred within a time period that still allows for the collection of physical evidence, staff is to ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. In the past 12 months, there have been no allegations that a resident was sexually abused. Interviews indicate staff understand their first responder duties.

Bridgeway has a policy to protect all residents and staff who report sexual abuse or sexual harassment, or who cooperate with sexual abuse or sexual harassment investigations, from retaliation by other residents or staff. PREA Coordinator David Hill and Director Rod Tavanello monitor for retaliation themselves, and delegate staff member(s) to assist with monitoring for possible retaliation, on a case-by-case basis, to assure full compliance with this standard. Director of DOC Operations Stacey Wilson also states that she monitors from her perspective in the chain of command, and in reviewing and monitoring all reports. Policy and interviews indicate they monitor the conduct or treatment of residents or staff who reported sexual abuse, and of residents who were reported to have suffered sexual abuse, to see if there are any changes that may suggest possible retaliation by residents or staff. They indicate they will utilize shift supervisors, as well, in monitoring conduct and treatment for 90 days, or longer if indicated, and to act promptly to remedy any retaliation. No incidents of retaliation in the past 12 months are known. They use multiple protection measures, such as housing changes or transfers for resident victims or abusers, removal of alleged staff or resident abusers from contact with victims, and emotional support services for residents or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations. They monitor resident disciplinary reports, housing, and program changes, as well as negative performance reviews and reassignments of staff. Monitoring includes periodic status checks.

Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bridgeway and ODOC have written policy related to criminal and administrative agency investigations. Substantiated allegations of conduct that appear to be criminal are referred for prosecution. There were no allegations of sexual abuse or harassment in the past 12 months. Policy requires the agency to retain all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. Investigations are to be done promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Investigators who have received special training in sexual abuse investigations must be used. Investigators will gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; will interview alleged victims, suspected perpetrators, and witnesses; and will review prior complaints and reports of sexual abuse involving the suspected perpetrator. When the quality of evidence appears to support criminal prosecution, the agency will conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. The credibility of an alleged victim, suspect, or witness will be assessed on an individual basis and will not be determined by the person's status as resident or staff. No polygraph examination or other truth-telling device is required as a condition for proceeding with the investigation of such an allegation. Administrative investigations will include an effort to determine whether staff actions or failures to act contributed to the abuse; and will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Criminal investigations will be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence, where feasible. All written reports are retained for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. The departure of the alleged abuser or victim from the employment or control of the facility or agency will not provide a basis for terminating an investigation.

The agency has a policy requiring that any resident who makes an allegation that he suffered sexual abuse in an agency facility is informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation by the agency. In the past 12 months there have been no criminal and/or administrative investigations of alleged resident sexual abuse; therefore, no notifications have occurred this past year. According to policy and interviews with PREA Coordinator David Hill, if an outside entity conducts such investigations, the agency requests the relevant information from the investigative entity in order to inform the resident of the outcome of the investigation. Also, following a resident's allegation that a staff member has committed sexual abuse against the resident, the agency/facility subsequently informs the resident (unless the agency has determined that the allegation is unfounded), whenever the staff member is no longer posted within the residence, the staff member is no longer employed at the facility, the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility, or, the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. Following a resident's allegation that he has been sexually abused by another resident in an agency (ODOC) facility, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility or the agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. By policy, and contractual agreement with ODOC, all notifications to residents described under this standard are documented.

Bridgeway policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Agency policy requires that any contractor or volunteer who engages in sexual abuse be prohibited from contact with residents. No contractors or volunteers have been reported to law enforcement agencies and relevant licensing bodies for engaging in sexual abuse of residents, since there have been no allegations. Bridgeway takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer, but the director and PREA coordinator indicate that any violation will probably result in the volunteer being dismissed.

Instructions for Overall Compliance Determination Narrative
Residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process, following an administrative finding that the resident engaged in resident-on-resident sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, the resident’s disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. The disciplinary process considers whether a resident’s mental disabilities or mental illness contributed to his behavior when determining what type of sanction, if any, should be imposed. There have been no allegations of sexual abuse or harassment by residents in the past 12 months. Bridgeway offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse. The facility considers whether to require the offending resident to participate in such interventions as a condition of access to programming or other benefits, but since Bridgeway is a halfway house not set up to provide such interventions, the offender will likely go back to ODOC for assistance. Bridgeway disciplines residents for sexual conduct with staff only upon finding that the staff member did not consent to such contact. Disciplinary action is prohibited regarding a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. Bridgeway prohibits all sexual activity between residents, but deems such activity to constitute sexual abuse only if it determines that the activity is coerced.

Bridgeway resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgment. Medical and mental health staff maintain secondary materials documenting the timeliness of emergency medical treatment and crisis intervention services that were provided the appropriate response by non-health staff, in the event health staff are not present at the time the incident is reported, and the provision of appropriate and timely information and services concerning sexually transmitted infection prophylaxis. Treatment services are provided to every victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
Bridgeway offers medical and mental health evaluation and, as appropriate, treatment, to all residents who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. Since they do not house female residents, portions of the standards dealing with female residents are not applicable. Resident victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate, and treatment services are provided to the victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Policy (page 12) Section C(1), states, "The agency (DOC) chief mental health officer insures each facility/district employs, or has access to the services of a mental health professional that has a scope of practice, training and/or experience in trauma counseling. Contract facilities will also ensure offender access to mental health services." In addition, the facility attempts to conduct a mental health evaluation of all known resident-on-resident abusers within 60 days of learning of such abuse history, and offers treatment when deemed appropriate by mental health practitioners. Even though services for residents who have been sexually abused while incarcerated appear to be rarely indicated at Bridgeway, staff and administrators interviewed offered no doubts or hesitations regarding their beliefs that ongoing medical and mental health care services are in place and will be provided to those who need it.

Interviews with the Director and PREA Coordinator verify that the review team will consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse. Bridgeway has streamlined the system for instituting policy changes. Also, the review team will consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility. They will examine the area in the facility where the incident allegedly occurred, to assess whether physical barriers in the area may enable abuse. The sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors, investigators, and medical or mental health practitioners. These roles are dictated in written policy (see page 30), and the team meets monthly to assure ongoing coverage of these responsibilities.
