Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

PREA America LLC was retained February 27, 2017, to conduct the 2017 PREA Audit of Oklahoma Halfway House (OHH). The Pre-Audit Questionnaire (PAQ) and related documentation was received 07-13-2017. OHH PREA Coordinator Kelli Ude and OHH PREA Compliance Manager Ryan Darling exchanged calls and emails with the audit team as the auditor came to understand the information provided and sought to clarify answers given on the PAQ, as well as planning the itinerary of the onsite audit. The onsite audit was conducted August 1, 2017. The audit team, consisting of PREA America PREA Auditor Will Weir and Project Manager Tom Kovach, started at 8 am with a meeting with Executive Director Ude and PCM Darling. A facility tour was conducted, paying special attention to the layout of the facility, posted notices, and the video monitoring system. Mr. Weir was provided a list of residents and 14 were randomly selected for interviews, making sure to include female residents among the number, as well as residents from each wing of the facility. The auditor also tried to select residents who appeared to be at high risk or who identified as LGBTI or are in another group PREA identifies as being at risk, such as being young, having a disability or having limited English proficiency. The auditor was also given a list of staff and 10 were randomly selected for interviews in addition to interviews with specialized staff and administrators. Interviews included staff from all shifts. Some of the 10 also qualify as specialized staff.

An exit conference was held at the end of the day attended by the audit team and Ms. Ude and Ms. Darling. The audit team expressed appreciation for the assistance from staff and administrators, not only on the day of the onsite audit, but during the pre-audit process, making the process flow smoothly and efficiently. OHH administrators express a desire to continue regular quality PREA training that keeps the staff informed and updated regarding any changes. They have training scheduled and have provided cards to staff that spell out first responder duties so staff that do not have to deal with these incidents very often will have reminders and multiple places they can look for the basic information they need. They plan on providing resident PREA education in smaller groups that facilitate more dialogue and questions/answers. In reviewing facility strengths, the audit team discussed the complete lack of complaints during resident interviews regarding searches and cross gender supervision. Most residents feel they can trust staff do be respectful, practice good boundaries, and do their jobs regarding their PREA duties.

Documentation reviewed includes: Pre-Audit Questionnaire; Facility Count / Bed Rosters and Census Reports; Staff Schedules and on call schedules; Staffing plans and reviews; Search Logs; U. A. Sample Log; Facility Schematics and camera diagrams; Coordinated Response; Staff and Resident PREA Training Acknowledgments; Memos; Mission Statement; Oklahoma PREA Law; Human Resource Policy and Procedure Manual (Personnel, Physical Plant Offender Housing, Supervision/Searches, Healthcare); PREA Handouts; PREA Training Materials; PREA Quiz; Organizational Chart; Risk Assessment (with procedures and protocols); YWCA MOU; Annual Report; Investigation and related documentation including monitoring for retaliations; random resident and staff files; Survey of Sexual Victimization, and other documents and forms.
Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Oklahoma Halfway House, Inc., is located at 517 SW 2nd in downtown Oklahoma City. It consists of 4 connected buildings so close to each other that it is also accurate to call them wings. Building 3 is in the middle, parallel between Buildings 1 and 4; and Building 2 is in the back, perpendicular to the other 3. On the other end of Buildings 2, 3, and 4, is the front entrance to the facility, administrative offices, and the Control Center. Building 3 houses female residents on end, securely divided from a small unit of male residents housed close to the Control Center on the opposite end of the building/wing from the females. Buildings 1, 3, and 4 all house males. Some rooms house 2 residents, while other rooms house a number of residents in dormitory style rooms with bunk beds. There are areas primarily for residents from the Federal Bureau of Prisons, and other areas primarily used for residents from the Oklahoma Department of Corrections. There is a walkway between Buildings 1 and 3 to the back of Building 3 where there is an outdoor park area, as well as the entrance into the visitation area, offices for case managers and other staff, meeting rooms and laundry area.

Summary of Audit Findings

- Does the written policy outline the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment? ☒ Yes ☐ No

**115.211 (b)**

- Has the agency employed or designated an agency-wide PREA Coordinator? ☒ Yes ☐ No

- ☐ Meets Standard (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- ☐ Does Not Meet Standard (*Requires Corrective Action*)

**Instructions for Overall Compliance Determination Narrative**
The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Oklahoma Halfway House (OHH) has a written policy mandating zero tolerance, outlining how it will implement the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment, including definitions of prohibited behaviors regarding sexual abuse and sexual harassment. This and most related policy is in Policy 11018. The policy includes sanctions for those found to have participated in prohibited behaviors and includes a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of residents. The agency employs an upper-level, agency-wide PREA Coordinator, and also a facility PREA Compliance Manager even though the agency only has one facility and is not required by PREA standards to have both a PREA Coordinator and Compliance Manager. These professionals have sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. PREA Coordinator Kelli Udi is the Executive Director of the agency. Case Manager Ryan Darling is the PREA Compliance Manager, answering directly to Director Ude. During the onsite audit, the auditor verified these policies are in place and available to staff and residents. Signs are posted around the facility. All staff and residents interviewed indicated an understanding of the zero-tolerance policy, as well as how to report. Typically, residents said they had the information presented to them at their previous facility, as well as during their admission, then again during their orientation within the first couple of days of their arrival at the facility. Staff interviews further verify this, as well as written documentation signed by each resident. Staff interviews, as well as policy memos, and various additional documentation, indicate the facility has been following this standard since 2012. Zero tolerance is mentioned during the employment process, stressed during their employment interview, as well as during various aspects of the hiring process, new employee orientation, and regular trainings.

(N/A if the agency does not contract with private agencies or other entities for the confinement of residents.) ☐ Yes ☐ No ☒ NA

115.212 (b)

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency does not contract out for the confinement of its residents. OHH accepts residents from the Federal Bureau of Prisons (BOP) as well as from the Oklahoma Department of Corrections (DOC). BOP and DOC will provide alternative placement for residents who need a higher level of security so OHH does not need to contract out for the confinement of its residents. BOP and DOC require PREA compliance.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard *(Requires Corrective Action)*

### Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Oklahoma Halfway House (OHH) develops and documents a staffing plan that provides for adequate levels of staffing and video monitoring to protect residents against sexual abuse. The average daily number of residents has been 140. The average daily number of residents on which the staffing plan was predicated was 160. The agency has not deviated from the staffing plan, except, due to a shortage of male staff, female staff work male areas. Interviews indicate that, during such exceptions, the female staff are witnessed/accompanied in some manner, as an extra precaution. At least once every year the facility reviews the staffing plan, considering all relevant factors, to see whether adjustments are needed in (1) the staffing plan; (2) prevailing staffing patterns; (3) the deployment of video monitoring systems and other monitoring technologies; or (4) the allocation of resources to commit to the staffing plan, to ensure compliance with the staffing plan. The staffing plan and review was provided to the audit team, with recent work schedules, as well as policy that guides the plan. Interviews with staff and residents conducted during the onsite audit also indicate the staffing plan is being followed. Deviations from the staffing plan are logged and justified.

**Auditor Overall Compliance Determination**

- ☒ Exceeds Standard (*Substantially exceeds requirement of standards*)
- ☐ Meets Standard (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- ☐ Does Not Meet Standard (*Requires Corrective Action*)

**Instructions for Overall Compliance Determination Narrative**
The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Exceeding this standard, OHH does not conduct cross-gender searches of any kind: they are forbidden in policy and practice and, according to resident and staff interviews, there are no exceptions. In the event of exigent circumstances, law enforcement would be called. The agency forbids its staff from performing strip searches and visual body cavity searches. Most policies related to cross-gender viewing and searches is found in Policy 7008. The facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks (this includes viewing via video camera). OHH has no cameras directed into resident rooms. Policies and procedures require staff of the opposite gender to announce their presence when entering a resident housing unit. In addition, exceeding standards, policy requires staff of either sex to announce themselves before entering resident bathrooms or where residents may be changing clothes. The facility has a policy prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. None of these searches have occurred. In addition to verifying these policies and procedures are being followed, interviews indicate that even same-sex pat-down searches are always conducted with a witness present. Residents interviewed indicated they are physically safe at OHH and have no complaints about their pat-down searches. They feel their privacy is respected, and staff always announce themselves appropriately.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has established procedures to provide disabled residents equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. OHH has established procedures to provide residents with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Policy prohibits use of resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident’s safety, the performance of first-response duties under §115.264, or the investigation of the resident’s allegations. See OHH Policy 6011. In the past 12 months, there have been no instances where resident interpreters, readers, or other types of resident assistants have been used, or that their use, or lack of use, affected safety, reporting, or investigation. The onsite audit interviews confirmed that all residents can participate fully, with no exceptions found. Staff who were questioned about this policy agreed that residents would not be used as interpreters and that appropriate interpreters can be readily located. Spanish interpreters are on staff and other types of interpreters are available through the BOP, DOC, the YWCA, and other services that can be utilized when a need is identified. An example of one of these “other services” is telelanguage.com, 888-983-5352, which supports over 200 languages 24/7/365. In addition, many OHH staff have experience dealing with people with a variety of limitations and disabilities.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
OHH policy (#3000) prohibits hiring or promoting anyone who may have contact with residents and prohibits enlisting the services of any contractor who may have contact with residents who: (1) Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); (2) Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or (3) Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section of the PREA Standards. Policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. OHH policy requires that before it hires any new employees who may have contact with residents, it (a) conducts criminal background record checks, and (b) consistent with federal, state, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Agency policy requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with residents. It is required that criminal background record checks be conducted at least every five years for current employees and contractors who may have contact with residents. Agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. OHH employee application includes questions about whether potential employees have ever been civilly or administratively adjudicated to have engaged in abuse or harassment in a confinement setting. Human Resources staff agree to provide information to future institutional employers as required, but via the OHH attorney. Auditor reviewed the application for employment, checklists that are followed during the hiring process, background check documentation on several employees, as well as interviewing the Director and Human Resources, to verify these standards are followed.

Residents receive information at time of intake about the zero-tolerance policy, how to report incidents or suspicions of sexual abuse or harassment, their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents. All new arrivals are treated as new admissions; there are no transfers as all new arrivals are new admissions. They get some basic initial information as they come in the facility, then get Orientation during the first 72 hours, and, according to interviews with case managers, it is also a topic for their first meeting(s) with their case managers, as well. Resident PREA education is available in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, otherwise disabled, and limited in their reading skills. The agency maintains documentation of resident participation in PREA education sessions. The agency ensures

Oklahoma Halfway House does not perform its own investigations. However, Executive Director Kelli Ude has taken the PREA Investigator Training and provided documentation of this training. Her role is explained in a July 2017 Memo, "Ms. Ude is an attorney and is familiar with many of the concerns and skills an investigator has and needs. Ms. Ude is also the point of contact for reporting these matters to contracting authorities. Though OHH will not conduct investigations, an appointed and trained investigator can facilitate the exchange of information and be in place in the unlikely event that [OHH needs] to conduct an investigation."

All three in-house mental health staff are contracted licensed therapists. They have all received all the training required by agency policy. OHH does not conduct in-house forensic medical exams. OHH residents are referred out to numerous agencies and providers around the Oklahoma City area for medical care, therapy, relapse prevention, and a variety of needs, including sexual abuse aftercare. They are assisted in locating and finding these providers, as well as with transportation to appointments.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

OHH has policies and procedures that requires screening upon admission for risk of sexual abuse victimization or sexual abusiveness toward other residents. Most of these policies are located in OHH Policy 11018, but some are covered in Policy 6009. The policy requires that residents be screened, within 72 hours of their intake, for risk of sexual victimization or risk of sexually abusing other residents. The policy requires that the facility reassess each resident’s risk of victimization or abusiveness within a set time period, not to exceed 30 days after the resident’s arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening. Exceeding standards, the screening for residents begins prior to the resident’s arrival. A memorandum summarizing this process explains,

"The Executive Director reviews each offender's referral to take any precautions or to make any changes in the facility or programming, prior to the [BOP] offender's arrival. Health concerns, security and accountability risks, as well as the offender’s criminal and misconduct history are considered. This process also determines which Case Manager would be best suited to address the resident's needs and provide oversight of their stay. The referral is made part of the resident's case file and is used in the initial screening once the resident arrives, along with several other documents. The referral, the
screening tool, the mental health history evaluation, the Presentence Investigation, the resident interview, and any other relevant source is used in determining bed placements, programming, components, and other determinations.

"The Case Manager Supervisor, the Case Manager, the Social Services Coordinator, and a representative from the United States Probation office meet weekly to go over all new cases and changes in any case that are of concern. During these meetings, changes are often made, such as bed or room assignments, as the Case Managers share information and trends or issues come to light. All cases are also re-screened within 30 days of arrival.

"State offenders arrive according to a published move sheet. The offender's file typically arrives within 72 hours of the offender's arrival. The file is consulted, which also contains prior screens, and is used in conjunction with OHH documents to determine the best way to house and program offenders. Unlike the federal cases, the state does not send any known sex offenders or those with violent crimes to OHH. All offenders receive a follow up screen within 30 days or if there are circumstances present that warrant additional screening.

"All screening tools are passed in person to the Executive Director where they are secured in the alarmed area of the facility. If a resident screens at risk of abusiveness or at risk of predation, the screens are again reviewed and discussed more frequently with the Case Manager in regards to appropriate programming, activities, and placements."

All residents have weekly or bi-weekly sessions with their case managers, where any of these issues are addressed, along with discharge and reintegration planning. These sessions include members of the administration when needed, and function as reassessment meetings where newly discovered risk factors are immediately utilized in programming and housing decisions, with the resident's input. The policy requires that a resident's risk level be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness. The policy prohibits disciplining residents for not disclosing complete information related to whether the resident has a mental, physical, or developmental disability; whether or not the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming; whether or not the resident has previously experienced sexual victimization; and, the resident's own perception of vulnerability.

OHH uses information from the risk screening required by § 115.241 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive. OHH makes individualized determinations about how to ensure the safety of each resident. OHH makes housing and program assignments for transgender or intersex residents in the facility on a case-by-case basis. Sensitive information obtained during screening is available on a need-to-know basis, and only to staff at or above the level of Case Manager. No decisions regarding housing, bed, work, education and program assignments are made without at least one of these fully informed case managers or administrators' approval. This was verified during interviews with staff and residents, as well as documentation reviewed regarding risk assessments, and bed and programming assignments, and referrals/requests for services regarding LGBTI residents.

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does
not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has established procedures allowing for multiple internal ways for residents to report privately to agency officials about: sexual abuse or sexual harassment; retaliation by other residents or staff for reporting sexual abuse and sexual harassment; and staff neglect or violation of responsibilities that may have contributed to such incidents. In addition to being encouraged to go to any staff member or administrator, verbally or in writing, they are given the address for the BOP PREA reporting office and the numbers for the Oklahoma PREA Hotline: 405-425-2493 or 1-855-871-4139. Also, the YWCA will assist with reporting if the caller gives consent, so residents are also provided the number to the YWCA (405-948-1770) along with other reporting lines. The standard requires agencies to provide at least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency. Exceeding this standard, OHH encourages residents to report to several entities that are not part of the agency, namely the police, YWCA, BOP and DOC. The numbers for these agencies are provided to each resident upon admission as well as being posted around the facility. OHH has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to act on reports immediately and to fully document verbal reports within 24 hours. The agency has established procedures for staff to privately report sexual abuse and sexual harassment of residents verbally and in writing. Staff are informed of these procedures. All residents interviewed know they can report, and all staff interviewed say they can take reports and know how to instruct and assist residents to make reports.

(N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

OHH has an administrative procedure for dealing with resident grievances regarding sexual abuse and allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless...
of when the incident is alleged to have occurred. Policy does not require a resident to use an informal grievance process, or otherwise to attempt to resolve with staff. A resident may submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The grievance will not be referred to the staff member who is the subject of the complaint. A decision on the merits of any grievance or portion of a grievance alleging sexual abuse is made within 90 days of the filing of the grievance. The agency always notifies a resident in writing when the agency files for an extension, including notice of the date by which a decision will be made. No extensions have been sought or needed in files reviewed by the auditor. The decision of the Executive Director regarding the agency’s response is final. Agency policy and procedure permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and file such requests on behalf of residents. Agency policy and procedure requires that if a resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident’s decision to decline. Agency has a policy and established procedures for filing an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse. Agency policy and procedure for emergency grievances alleging substantial risk of imminent sexual abuse requires an initial response within 48 hours. Agency policy and procedure for emergency grievances alleging substantial risk of imminent sexual abuse requires that a final agency decision be issued within 90 days. The agency has a written policy that limits its ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith. Since all allegations regarding sexual abuse or harassment came in through other channels than the grievance program, the auditor did not review any related grievances during the audit. Verification of compliance with this standard was accomplished through reviews of handouts and policy as well as through interviews conducted during the onsite audit.

OHH provides residents with access to outside victim advocates for emotional support services related to sexual abuse by: giving residents mailing addresses and toll-free telephone numbers for local, state, or national victim advocacy or rape crisis organizations; enabling reasonable communication between residents and these organizations in as confidential a manner as possible. The facility informs residents, prior to giving them access to outside support services, of the extent to which such communications will be monitored. The facility informs residents, prior to giving them access to outside support services, of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant federal, state, or local law. The agency or facility maintains memoranda of understanding (MOUs) or other agreements with community service providers that can provide residents with emotional support services related to sexual abuse. The agency or facility maintains copies of those agreements. The auditor reviewed and verified the Letter of Agreement OHH has with the Oklahoma City YWCA to offer full crisis and advocacy services. It states, "YWCA agrees to serve as a rape crisis resource center for OHH. Services include, but are not limited to; providing victims of sexual violence with emotional support, advocacy, resources, and crisis intervention, providing victims of sexual violence with a victim's advocate at the hospital, police station, and throughout the legal system for any reported sexual violence, providing the victim with a Sexual Assault Nurse Examiner (SANE) to conduct a free medico-legal forensic exam, and assisting with any additional emotional or medical care. All services are provided to victims of sexual violence as requested and at no cost. YWCA further agrees to keep confidential all information relating to any alleged sexual violence, unless a written release of confidential information is signed." This agreement, which has been in place for several years, was renewed 05-25-2017 and signed by OKC YWCA Executive Director Janet Peery.

Oklahoma Halfway House provides methods to receive third-party reports of resident sexual abuse or sexual harassment. The agency publicly distributes information on how to report resident sexual abuse or sexual harassment on behalf of residents. The onsite audit facility tour, as well as interviews with residents and staff, verified that staff and residents are instructed about third party reporting, they understand it, and the information is available publicly. The posted notices encourage reporting in numerous ways, including having others report on one's behalf. OHH residents are reminded on posters, as well as in trainings, that they, or someone else on their behalf, can even dial 911. OHH residents are getting ready for discharge and are allowed a great deal of access to telephones and outside support and assistance.

When OHH learns that a resident is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the resident (i.e., it takes some action to assess and implement appropriate protective measures, without unreasonable delay). Residents interviewed believe the staff will protect them, and the staff interviewed indicate a knowledge of their duty to immediately protect any resident who is at risk, and to report and document. There is always an administrator and case manager on call. Documents, reviews, and interviews conducted indicate that there were no incidents during the past 12 months when a resident was found to be at substantial risk of imminent sexual abuse.

OHH has a policy requiring that, upon receiving an allegation that a resident was sexually abused while confined at another facility, the head of OHH must notify the head of the facility where sexual abuse is alleged to have occurred. Policy requires OHH to provide such notification as soon as possible, but no later than 72 hours after receiving the allegation and documents this. OHH policy requires that allegations received from other facilities and agencies are investigated in accordance with the PREA standards. The documentation reviewed for this audit included one report received by OHH regarding an allegation of abuse at the resident’s prior facility. The OHH Director communicated the allegation to the head of the other facility as required, well within the time frame.

OHH has a first responder policy for allegations of sexual abuse. The policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report shall be required to: (1) Separate the alleged victim and abuser; (2) Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; (3) If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and/or (4) If the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. OHH is staffed by Program Aides who have all been trained as first responders. This training has been repeated recently. Staff interviews indicate they understand the basic first responder duties. Documentation regarding allegations indicate first responder duties are followed as needed. However, most allegations received during the period covered by this audit do not indicate full first responder protocols since the allegations usually did not include sexual abuse between people currently at the facility in a timeframe in which evidence could be collected.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*
The facility has developed a written institutional plan to coordinate actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, and facility leadership. This is reinforced in the agreement with the YWCA providing advocates and exams. Since law enforcement (Oklahoma City Police Department and the Oklahoma County District Attorney's Office), DOC, and BOP, and any other agencies with jurisdiction, do the administrative and criminal investigations, OHH staff and administration are in the role of responding. They document decisions about resident care and safety, and about personnel actions, facilitating the coordinated response, cooperating with authorities, and reporting back to residents and staff who have a need to know information about any ongoing investigations. OHH requests any investigative agency follow industry and PREA protocols in conducting their investigations.

Since outside entities conduct such investigations, the agency requests the relevant information from the investigative entity to inform the resident of the outcome of the investigation. Staff is subject to disciplinary sanctions, up to and including termination, for violating agency sexual abuse or sexual harassment policies. The disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member’s disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies (unless the activity was clearly not criminal) and to any relevant licensing bodies. Policy provided during the pre-audit process, as well as interviews conducted during the onsite audit, verify this information. Several reports during the past year alleged inappropriate behavior by staff. In all cases, except one which was found to be unfounded, the staff quit or was fired before the investigation was completed. However, the investigations were completed, and when allegations were substantiated, prosecution was recommended, and their files were updated so the perpetrators cannot work for other confinement facilities if those facilities follow PREA and contact OHH. In one case, a staff member who was not an alleged perpetrator was disciplined for not reporting an allegation more quickly.
