Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

On September 13, 2017, PREA America LLC was retained to conduct audits of Catalyst Behavioral Services facilities after communication with Catalyst PREA Coordinator Renee Vandevoir and Catalyst Corporate Compliance/Program Development Administrator Mary Jo Sullivan. Audit Notices went up by September 25th. Some pre-audit documentation was provided to the audit team on October 30th, and continued to be provided during the on-site audit, and during the 30-day period after the on-site audit.

The on-site audit of the Catalyst Enid facility was conducted as scheduled on November 7, 2017. PREA America Auditor Will Weir and Project Manager Tom Kovach arrived at the facility and met with Chief of Security Jeremy Caffey and toured the facility. Facility Administrator Terry Campbell, Administrative Manager Sandy Unruh, Security Lieutenant Shannon Donlay, and Case Manager Supervisor Rina Dowell also met with the audit team. Catalyst agency PREA Coordinator Renee Vandevoir and agency Director Mike Fleetwood arrived later in the morning from Oklahoma City.

The audit team was provided with current staff and resident rosters. Random selections of residents and staff were made, and interviews conducted. It turns out that all staff present were interviewed. This included staff who often work other shifts. A total of 11 staff were interviewed: 7 random plus 4 specialized. Specialized staff often have multiple specialized duties, in addition to having responsibilities to supervise residents. 16 diverse residents were interviewed from throughout the facility. The facility did not identify any current residents as scoring at high or substantial risk for victimization, LGBTI, disabled, limited English proficient, or as prior victims while incarcerated, so no residents were identified for targeted interviews.

An exit conference was conducted at the conclusion of the on-site audit. The conference was attended by the audit team and CBS PREA Coordinator Renee Vandevoir and CBS Director Mike Fleetwood. Also attending were Facility Chief of Security Jeremy Caffey, Facility Administrator Terry Campbell, and Facility Case Manager Supervisor Rina Dowell. The current state of the audit process was discussed, and a list of additional needed verification documentation was developed. The audit team complemented the agency for the numerous strengths they have to work with going forward. Generally speaking, the information received regarding residents, and from residents, indicated a strong practice in place by staff regarding appropriate cross-gender supervision. Searches are conducted with uniformity, consistency and respect, without many complaints. Residents also seem to retain their PREA education, even being aware of outside resources for sexual abuse victims. Staff were described as “strict, for good reason” and “cool.” The facility was described as “safe” and “everyone gets along.”

On November 27, additional documentation was provided and evaluated, and decisions were made about which standards would be on the Corrective Action Plan (CAP). See “Summary of Corrective Action” on page 7. By February 27, 2018, all action items required to show compliance of the remaining PREA standards had been received and verified by the auditor.
Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The one-story facility is located in a former nursing home, with the entrance on Van Buren, one of the busiest streets in Enid. However, the back of the property fits seamlessly into a well-populated residential area of Enid, an established older neighborhood populated by workers and retirees. The building is shaped simply like an "H". Staff in each of the long hallways can see the entire length of that portion of the building. There are no single-occupancy rooms. All rooms have either two or three beds. The two long hallways are connected in the middle by the dining room, the kitchen, and offices. The control center, with video camera monitoring, is at the entrance to the building, and along the main hallway. There is a privacy-fenced area outside, between the two wings, where some cookouts and recreational activities can occur; but the perimeter of the building is not fenced, but instead has a grassy lawn matching the lawns of the houses in the rest of the neighborhood.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

Number of Standards Not Met: 0

At the completion of the Corrective Action Plan (CAP) the facility had demonstrated compliance with all PREA standards.
Summary of Corrective Action (if any)

§ 115.211 Zero tolerance of sexual abuse and sexual harassment; PREA coordinator.
As required by this standard, Catalyst needs to have a PREA Coordinator "with sufficient time and
authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all
of its community confinement facilities." The PREA Coordinator at the time of the on-site audit had been
promoted to other position(s), leaving her with insufficient time to administer policies and keep the
agency fully compliant with all the PREA standards.
**Resolution:** The Catalyst Corporate Compliance/Program Development Administrator, Mary Jo
Sullivan, took over the role of PREA Coordinator. Facility Chief of Security Jeremy Caffey took over
duties associated with the PREA Compliance Manager, although the PREA Community Confinement
Standards do not require a PREA Compliance Manager. Job descriptions for the PREA Coordinator
and Compliance Manager were sent to the auditor and PREA Coordinator training and investigator
training verification was provided to the audit team.

§ 115.222 Policies to ensure referrals of allegations for investigations.
The agency had not provided the audit team verification that policies regarding the referral of
allegations of sexual abuse or sexual harassment for criminal investigation are publicly available.
**Resolution:** The facility posted a notice of the policies and updated their website with information
regarding how to receive the policies and other PREA information. The auditor was provided a picture
of the posting and a link to the website.

§ 115.265 Coordinated response.
The written institutional plans to coordinate actions taken in response to an incident of sexual abuse
among staff first responders, medical and mental health practitioners, investigators, and facility
leadership were contained, in parts, in several places in Catalyst policy, and in their MOU with the
YWCA. During the exit conference, administrators identified several items to clarify in their plans, and
wording that could be improved/updated. Also, they planned to present a revised Coordinated
Response Plan in staff training to assure the plan is fully understood and will coordinate responses, in
practice, when allegations arise.
**Resolution:** The updated PREA policy and Coordinated Response Plan was provided to the audit
team along with verification of the staff training that covered the changes and revisions.

§ 115.271 Criminal and administrative agency investigations.
During the Pre-Audit process, as well as at the on-site audit, there was an acknowledgement of a need
for increased understanding regarding investigations and the investigative follow up processes. CBS
administrators determined that some communication breakdown, internal to Catalyst, as well as a lack
of understanding of the Coordinated Response duties, and roles, might contribute to an issue, in the
event of an allegation. It was agreed to place this standard on the CAP so an adequate correction could
be developed through a deliberative process, and effectively implemented.
**Resolution:** Investigative training and Coordinated Response Plan training was completed. A “tickler
system” was implemented that will automatically request information regarding retaliation monitoring
addressing misconducts and room or job changes. This information will be provided by the PREA
Compliance Manager as well as a statement summarizing a personal conversation with the offender(s)
and/or staff being monitored. The PREA Coordinator will conduct interviews with those being monitored
monthly. As it turned out, there was an allegation reported and investigated during the CAP. The
investigation determined the allegation to be unfounded, but the tickler system was used effectively.
Although not required for unfounded allegations, the facility completed the tickler system to monitor for
retaliation and review, as if the case had been unsubstantiated, to test the system.
§ 115.287 Data collection.
Catalyst has not recently collected complete, accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions, including, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice.
Response: CBS compiled annual data and provided it to the audit team.

§ 115.288 Data review for corrective action.
Catalyst, as an agency, needed to complete an annual report which includes a comparison of the current year's data and corrective actions with those from prior years. The annual report should provide an assessment of the agency's progress in addressing sexual abuse.
Resolution: The 2017 Annual Report was compiled and provided.

§ 115.289 Data storage, publication, and destruction.
The standard states, in part, “The agency shall make all aggregated sexual abuse data, from facilities under its direct control and private facilities with which it contracts, readily available to the public at least annually through its website or, if it does not have one, through other means.”
Resolution: The agency posted information at the facility notifying the public regarding the availability of annual reports and established a link at Catalystok.org.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Catalyst Behavioral Services has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment in facilities it operates. They have a written policy outlining how they will implement the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment, which includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment, and which includes sanctions for those found to have participated in prohibited behaviors. The policy includes a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of residents. Interviews indicated the staff and residents of the Enid Halfway House know about, and agree with, the zero-tolerance policy. Residents are getting ready for discharge and say the facility is safer and better than previous facilities, with staff genuinely interested in assisting them: being supportive, not undermining, and not tolerating rule violations, distractions, or abuse.

**CAP:** As required by this standard, Catalyst needs to have a PREA Coordinator “with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its community confinement facilities.” The PREA Coordinator at the time of the on-site audit had been promoted to other position(s), leaving her with insufficient time to administer policies and keep the agency fully compliant with all the PREA standards.

**Resolution:** The Catalyst Corporate Compliance/Program Development Administrator, Mary Jo Sullivan, took over the role of PREA Coordinator. Facility Chief of Security Jeremy Caffey took over duties associated with PREA Compliance Manager, although the PREA Community Confinement Standards do not require a PREA Compliance Manager. Catalyst requires this position by policy. Job descriptions for the PREA Coordinator and Compliance Manager were sent to the auditor. PREA Coordinator training and investigator training verification was provided to the audit team.

Catalyst Behavioral Services - Enid uses the guidelines of their ODOC contract in the development of their staffing plan, which provides for adequate levels of staffing, and video monitoring to protect residents against sexual abuse. According to the PREA Coordinator, the facility has not deviated from the staffing plan, but employee walkouts and staff shortages have affected staffing levels. She, and the agency Quality Corporate Compliance/Program Development Director, Mary Jo Sullivan, verify that at least once every year, the facility reviews the staffing plan to see whether adjustments are needed in (1) the staffing plan, (2) prevailing staffing patterns, (3) the deployment of video monitoring systems and other monitoring technologies, and/or (4) the allocation of facility/agency resources to commit to the staffing plan to ensure compliance with the staffing plan. The onsite audit indicates the staffing plan is being followed. No staff or resident interviews indicated any incidents of staffing plan deviations, nor times when the facility was not adequately staffed, although they are looking to fill open positions. Catalyst Behavioral Services PREA Policy and Guidelines, Part III, A(8) states, "In the event that staff is no show, or leave their post; leaving offenders without the required supervision and according to the Catalyst Employee Handbook this violation would be identified as negligence in the performance of duty. Violation of Catalyst attendance requirements can and or will result in disciplinary action up to and including termination. (Catalyst Policy 3.01 Attendance and Tardiness/4.01 Prohibited Conduct)"

Auditor Overall Compliance Determination
☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

According to policy reviewed and interviews conducted, the facility does not conduct cross-gender searches of residents. This is an all-female facility with mostly female staff. Interviews indicate the facility does not restrict residents’ access to regularly available programming or other outside opportunities in order to comply with this provision. The facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (this includes viewing via video camera). Policies and procedures require staff of the opposite gender to announce their presence when entering a resident housing unit. Facility has a policy prohibiting staff from searching or physically examining a transgender or inter-sex resident for the sole purpose of determining the resident’s genital status. Interviews indicate there have been no known transgender or inter-sex residents in the past 12 months, but general training regarding these searches has been received.

The agency has established procedures to provide disabled residents equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Catalyst Behavioral Services has established procedures to provide residents with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Policy prohibits use of resident interpreters, resident readers, or other types of resident assistants, except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident’s safety, the performance of first-response duties under §115.264, or the investigation of the resident’s allegations. The on-site audit interviews confirmed that all residents can participate fully, with no exceptions found. Staff who were questioned about this policy agreed that residents would not be used as interpreters, and that appropriate interpreters can be located. Spanish interpreters are on staff, and other types of interpreters are available through ODOC, the YWCA, and other services that can be utilized when a need is identified. In addition, a few Catalyst staff have previous professional experience dealing with people with a variety of mental and emotional limitations and disabilities.

CBS policy prohibits hiring or promoting anyone who may have contact with residents, and prohibits enlisting the services of any contractor who may have contact with residents, who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section. Policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor who may have contact with residents. CBS policy requires that before it hires any new employees who may have contact with residents, it (a) conducts criminal background record checks, and (b) consistent with federal, state, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Agency policy requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with residents. It is required that criminal background record checks be conducted at least every five years for current employees and contractors who may have contact with residents. Agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. The CBS employee application packet includes questions about whether potential employees have ever been civilly or administratively adjudicated to have engaged in abuse or harassment in a confinement setting. Human Resources staff agree that, unless prohibited by law, the agency shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. The Audit Team reviewed the application for employment, checklists that are followed during the hiring process, policy, and background check documentation on several employees, as well as interviewing the Director and Human Resources, to verify these standards are followed.

Oklahoma Department of Corrections (ODOC), the Enid Police Department, and other agencies with jurisdiction are responsible for conducting criminal and administrative investigations. Catalyst Behavioral Services (CBS) has a Memorandum of Understanding with the Enid YWCA Rape Crisis Services, which has been verified. Interviewed staff generally understand the first responder protocols, which include protecting evidence. ODOC policy clearly states they will follow appropriate evidence protocol as per this standard. Interviews with staff and administrators verify that Catalyst will assist and cooperate, including in the process of offering forensic medical examinations without cost to the victim, documenting efforts to obtain SAFE/SANE, and making victim advocates available.

The agency ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment (including resident-on-resident sexual abuse or staff sexual misconduct). Misconduct reports are reviewed for possible PREA-related risk factors and added to risk screening process and review as appropriate. During interviews, numerous staff shared a deep commitment to PREA concepts. They mentioned a constant vigilance and awareness they try to have to keep residents safe, prevent abuse, help them be successful with their re-entry goals, and to notice possible warning signs and risk factors. The agency has a policy that requires that allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior. **CAP:** The agency had not provided the audit team verification that policies regarding the referral of allegations of sexual abuse or sexual harassment for criminal investigation are publicly available. **Resolution:** The facility posted a notice of the policies and updated their website with information regarding how to receive the policies and other PREA information. The auditor was provided a picture of the posting and a link to the website.

Instructions for Overall Compliance Determination Narrative

This discussion must also include corrective action recommendations where the facility does not meet the standard. CBS has an administrative procedure for dealing with resident grievances regarding sexual abuse. A resident is allowed to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. Residents are not required to use an informal grievance process, nor otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. A resident may submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint, and it will not be referred to the staff member who is the subject of the complaint. A decision on the merits of any grievance or portion of a grievance alleging sexual abuse must be made within 90 days. The agency always notifies a resident in writing when the agency files for an extension, including notice of the date by which a decision will be made. Agency policy and procedure permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and file such requests on behalf of residents. Policy requires that if a resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident’s decision to decline. CBS has a policy and established procedures for filing an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse. Policy for emergency grievances alleging substantial risk of imminent sexual abuse requires a final agency decision be issued within five days. Policy limits the ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith. Statements made during the audit interviews are consistent with these policies being followed.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The auditor confirmed that the agency has a policy requiring that, upon receiving an allegation that a resident was sexually abused while confined at another facility, the head of the facility must notify the head of the facility or appropriate office of the agency or facility where sexual abuse is alleged to have occurred. Agency policy requires the facility head to provide such notification as soon as possible, but no later than 72 hours after receiving the allegation. The facility documents that it has provided such notification within 72 hours of receiving the allegation. Facility policy requires that allegations received from other facilities and agencies are investigated in accordance with the PREA standards. Although no referrals covered in this standard were received during the past year, interviews verify this standard is known and in practice.

Catalyst has a first responder policy for allegations of sexual abuse. The policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report shall be required to: (1) Separate the alleged victim and abuser; (2) Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; (3) If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and/or (4) If the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. Staff interviews indicate they generally know and understand the basic first responder duties. Since sexual abuse allegations are rare, and therefore first responder duties are rarely called for. Although the facility demonstrated compliance with this standard without corrective action, administrators trained on these duties again as they trained regarding the updated Coordinated Response Plan required in 115.365, below.

**CAP:** During the exit conference, administrators identified several items to clarify in their plans, and wording that could be improved/updated. Also, they planned to present a revised Coordinated Response Plan in staff training to assure the plan is fully understood and will coordinate responses, in practice, when allegations arise.

CBS has a policy (CBS PREA Policy part VII(C)) to protect all residents and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or staff. The agency designates staff member(s) with monitoring for possible retaliation. The agency monitors the conduct or treatment of residents or staff who reported sexual abuse, and of residents who were reported to have suffered sexual abuse, to see if there are any changes that may suggest possible retaliation by residents or staff. The agency monitors the conduct or treatment for at least 90 days. The agency acts promptly to remedy any such retaliation. The agency continues such monitoring beyond 90 days, if the initial monitoring indicates a continuing need. According to policy and interviews, the Community Services Program Director and the HR Director are in charge of monitoring retaliation against staff, and the Chief of Security monitors retaliation regarding offenders. They will review housing changes or transfers for resident victims or abusers, removal of alleged resident abusers from contact with victims, and emotional support services for residents who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations. They also monitor any resident disciplinary reports, housing, or program changes. They review removal of alleged staff abusers from contact with victims, and emotional support services for staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

During the Pre-Audit process, as well as at the on-site audit, there was an acknowledgement of a need for increased understanding regarding investigations and the investigative follow up processes. CBS administrators determined that some communication breakdown, internal to Catalyst, as well as a lack of understanding of the Coordinated Response duties, and roles, might contribute to an issue, in the event of an allegation.

**CAP:** It was agreed to place this standard on the CAP so an adequate correction could be developed through a deliberative process, and effectively implemented.

**Resolution:** Investigative training and Coordinated Response Plan training was completed. A “tickler system” was implemented that will automatically request information regarding retaliation monitoring addressing misconducts and room or job changes. This information will be provided by the PREA Compliance Manager as well as a statement summarizing a personal conversation with the offender(s) and/or staff being monitored. The PREA Coordinator will conduct interviews with those being monitored monthly. As it turned out, there was an allegation reported and investigated during the CAP. The investigation determined the allegation to be unfounded, but the tickler system was used effectively. Although not required for unfounded allegations, the facility completed the tickler system to monitor for retaliation and review, as if the case had another finding, to test the system.

CBS residents are subject to disciplinary sanctions for sexual abuse only pursuant to a formal disciplinary process following an administrative finding, or a criminal finding of guilt, that a resident engaged in resident-on-resident sexual abuse. The facility offers some therapy, counseling, or other interventions, usually off-site, designed to address and correct the underlying reasons or motivations for abuse, but it focuses more on getting residents employed and ready to discharge back to the community. The facility refers the offender back to DOC for consideration of whether to require the offending resident to participate in such interventions as a condition of access to programming or other benefits. Policy indicates the agency disciplines residents for sexual conduct with staff only upon finding that the staff member did not consent to such contact. The agency prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct
occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. The agency prohibits all sexual activity between residents but deems such activity to constitute sexual abuse only if it determines that the activity is coerced. Sanctions are commensurate with the nature and circumstances of the abuse committed, the resident’s disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. The disciplinary process considers whether a resident’s mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.
