Description of any video or electronic monitoring technology (including any relevant information about where cameras are placed, where the control room is, retention of video, etc.): Lawton Correctional Facility has a total of 355 cameras throughout the facility to assist with monitoring activities of inmates and staff and for aiding in control of movement into and out of the facility entry/area access points. Views were observed during tour to ensure no direct line of sight into the bathroom/shower areas was visible. Cameras are installed in locations with the intent of keeping inmates and staff safe from sexual assault and for other security and safety concerns. Within the Administration Building is the camera room that allows investigative staff to monitor all cameras, review camera video footage and monitor offender phone calls. Video is retained on the system for 25-30 days before the system records over it.

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-on-site audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The PREA audit of the Lawton Correctional Facility was conducted on March 19 – 21, 2018 by Mr. David Haasenritter (lead) and Ms. Theresa Grenier. Approximately three weeks prior to the audit, the auditor received the Pre-Audit Questionnaire and additional documents through a secure thumb drive. A thorough review of the report and the documentation provided was conducted. Notes were recorded as they related to corresponding standards. The documents and questionnaire were well organized and highlighted. Documents included examples from 2015, 2016, and 2017. A request was sent to the GEO PREA Coordinator and facility compliance manager for additional information and copies of documentation that should be prepared and available upon auditor's arrival at facility. The lead auditor requested inmate and staff rosters to be provided the night before the audit. The night before the audit the facility provided a roster of all inmates housed at the institution; lists of inmates for specific categories to be interviewed; and a list of all staff by duty position and shifts that were used to identify inmates and staff to be interviewed (random and specific category).

Prior to the audit, the lead auditor contacted Just Detention International (JDI) about any information previously submitted by inmates at the Lawton Correctional Facility; researched the Lawton Correctional Facility on the internet; reviewed the seven inmate letters received; and reviewed the GEO website prior to the audit. The GEO website is one of the easiest to find PREA information of all agencies this auditor has audited. GEO PREA page is very informative and has general PREA information on: agency zero tolerance policy; how for staff, inmates, and third parties to report PREA allegations; information on investigations; and where questions and inquiries can be forwarded to the PREA Coordinator (phone number, email, and mailing address). It also has several links to include: PREA standards; GEO basic and investigative PREA policies; GEO facility PREA audit reports; and GEO's current annual PREA Report.

The auditors worked from 8:15 am – 11:45 pm on day one; 7:30 am – 7 pm on day two; and 8:15 am – 6:30 pm on day three. Following the entrance meeting with staff, the auditors conducted a site review of the facility on March 19, 2018 and went back to certain areas in the institution on March 20 – 21, 2018. During the site review random informal interviews were conducted with staff and inmates which were not counted toward formal interview requirements. Questions posed were related to training received, awareness of responsibilities, procedures and responsibilities for reporting sexual abuse, sexual harassment, and/or retaliation, services available, and overall knowledge of PREA standards. Adequate PREA posters and announcement of the PREA audit in both English and Spanish were placed throughout the facility and posted on bulletin boards in living units. Area logs were reviewed at various posts to observe that rounds are being conducted and documented. The audit team visited all areas of the facility during the audit. Observations were made of security staff presence, camera views and placements, line-of-sight, physical plant condition and barriers, general sanitation, inmate
movement procedures and general institution operations. Additionally, the auditors tested the inmate phone system for reporting allegations and for emotional support services.

Following the initial site review, the auditor began the formal interviews, review of investigations, checking of cameras, and random checks of personnel, medical, and training records. The auditors conducted 57 staff interviews (18 random, 31 specialized, 3 volunteers, and 5 contractors). Additionally, the GEO PREA Coordinator and Agency head representative were interviewed by this auditor. Staff interviews were based on the requirements from auditor handbook. Some staff were selected for interviews based on the pre-audit document review; and others were selected based on the lists of employees provided on-site. Security line and supervisory staff were selected from all shifts. Interview rooms were provided to ensure privacy and confidentiality. Staff interviewed was well versed in their responsibilities in reporting sexual abuse, sexual harassment, and staff negligence; first responder duties; and evidence preservation. How to conduct a proper pat search of transgender inmates was weak (5 of 15 knew proper procedures for conducting a pat search of a transgender inmate; four stated they did not receive training); and only six of 16 could define transgender inmate. Staff who conduct PREA screens were very knowledgeable of the process and definitions, one of the few facilities that this auditor has audited. GEO has continued to build a culture of zero tolerance.

The number of interviews required for inmates was calculated based on the auditor handbook formulas. The auditors used inmate rosters provided by the facility the night before the audit. Specialized interview inmates were selected first, and then random inmates from each housing unit were then selected based on race and arrival date in order to ensure all races and inmates from various time periods were selected. Each housing unit had at least one inmate interviewed. A total of 56 inmates were formally interviewed: 29 random interviews and 27 specialized interviews: LGB (7); TI (7), inmates who disclosed sexual victimization during screening (7); who reported sexual abuse while confined (5), and handicap (1)). The auditor also interviewed five inmates who wrote letters to the auditor prior to the audit. Of the five letters, one was not a PREA issue; two were questions about the screening process; one was reference staff harassment, and one was a housing issue based on his screen. All issues were discussed with the inmate and in one case the auditor requested; and the facility took appropriate action when the inmate declared to the auditor that he was transgender. Following the audit, the auditor received a copy of his new risk screening form, Transgender Care Committee Summary; and Search/Pronoun/Shower Preference Form. Staff were organized and kept the inmates moving without them being held for long periods of time waiting to be interviewed. Inmates were respectful. All selected were interviewed, none refused. Majority of the inmates interviewed acknowledged receiving PREA training and written materials (posters, pamphlets, and inmate's handbooks) in a language they understand outlining the agencies zero tolerance policies towards sexual abuse; knew the reporting procedures; and reported staff of the opposite gender announced when entering a housing area. 27 of 28 inmates who were asked stated they felt safe from being sexually assaulted at the institution, three stated they believed inmates manipulated the system using PREA to get what they wanted, in some cases new roommates; and the LGBTI inmates overall were positive about the facility and how they were treated. Some inmates stated during interviews that PREA reporting is misused. It is used to remove staff from the area and when an inmate is in debt to another inmate. The auditors found the inmates aware and knowledgeable of PREA.

Auditors reviewed the PREA Allegation Spreadsheet from 2016, 2017, and 2018. There were 36 PREA cases in the last 12 months. Prior to the audit, the facility provided the auditor one PREA case from 2016, and 2017. During the on-site and interim report writing period the auditor requested and reviewed 21 specific cases (2016, 2017, 2018). Of the 21 cases reviewed by the auditor: two staff-on-inmate sexual abuse substantiated; one staff-on-inmate sexual abuse (voyeurism) unsubstantiated; two staff-on-inmate sexual abuse unfounded; one staff-on-inmate sexual harassment unfounded; two
inmate-on-inmate sexual harassment unsubstantiated; one inmate-on-inmate sexual abuse substantiated; seven inmate-on-inmate sexual abuse unsubstantiated; and four were still under investigation.

When the on-site audit was completed (37.5 hours), the auditor conducted an exit meeting at 6 p.m. on 21 March. While the auditor could not give the institution a final finding, the auditor did provide a preliminary status of his findings. The auditor thanked GEO and Lawton Correctional Facility staff for their hard work and commitment to the Prison Rape Elimination Act.

Following the interim report, the facility went into Corrective Action. The Lawton Correctional Facility completed all Corrective Action Plans and was found to meet or exceed all applicable PREA standards on September 19, 2018. Specific Corrective Action Plans are addressed in the appropriate standard.

**Facility Characteristics**

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Lawton Correctional Facility was constructed in July 1998. The original construction provided an administration building, support building and six separate two floor housing units. Each unit is divided into five pods. Each set of two housing units incorporates a gymnasium, classrooms, and offices for unit management functions making each pair of buildings semiautonomous. The support building encompasses health services, segregation, mail, library (general and law), vocational tech, industries, food service, programs, supply, laundry, offender property, and intake services.

In August 2006, an additional two housing units were developed to increase the capacity by 608 beds to a total population of 2526. These housing units have two floors and house up to 304 inmates each. The design includes a medical unit, programs classrooms, and unit management services as well. House 7 in the new addition is designated as the protective custody unit for the facility. The new addition is completely fenced off from the main compound. In August 2015, a 156-bed housing unit was built. This unit houses 78 max custody offenders and 78 medium custody offenders (segregation overflow offenders).

All staff/visitors are processed into Lawton Correctional Facility in the Administration Building. All persons are checked to prevent introduction of contraband. Upon entering, a person must have any items brought in processed through an x-ray machine. Each person is then required to pass through a walk-through metal detector, followed by clearing a B.O.S.S. (Body Orifice Security Scanner) chair, hand-held Garret Detector and pat-down search. Entrance is then split into two sally ports; one for staff and the other for visitors. Lawton Correctional Facility is surrounded by two perimeter fences. Within the two fences is microwave detection unit for perimeter security to detect any movement between the inner and outer perimeter fence.

Central Control is in the Administration Building and controls all movement into the facility of staff and visitors and serves as the central communications station for the entire prison while providing general
services and specific functions for all facilities. Operating on a 24-hour basis, Central Control staff are responsible for monitoring all electronic detection systems, monitoring fire and life safety alarms and observing, operating gates, identification/verification of all persons moving in and out of the facility and contacting outside agencies such as ambulance services and the police department in the event of an emergency.

Within the Administration Building is the camera room that allows investigative staff to monitor all cameras, review camera video footage and monitor offender phone calls. Video is retained on the system for 25-30 days before the system records over it. The Mail room is in the Support Building and employs one supervisor and 3 staff and process all incoming and outgoing mail and packages for Lawton Correctional Facility.

Lawton Correctional Facility security staff are divided between three eight-hour shifts: 6:00 a.m. – 2:00 p.m., 2:00 p.m. – 10:00 p.m. and 10:00 p.m. – 6:00 a.m. and one shift of support officers that work 8:00 a.m. to 4:00 p.m. with support services (transport, laundry, programs).

The medical unit is open 24-hours a day, seven days a week with GEO Group contracting with Correct Care Solutions for this audit. A Health Services Administrator oversees the operations of health care services is designated as the Health Authority.

GEO's mission is to develop innovative public-private partnerships with government agencies around the globe that deliver high quality, cost-efficient correctional, detention, community reentry, and electronic monitoring services while providing industry leading rehabilitation and community reintegration programs to the men and women entrusted to GEO's care.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO has very good written policies mandating zero tolerance towards all forms of sexual abuse and sexual harassment that outlines the agency’s approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The main PREA policies are GEO Policy 5.1.2, Sexual Abuse Behavior Prevention and Intervention Program (PREA); GEO Policy 5.1.2-A, Sexual Abuse Behavior Prevention and Intervention Program (PREA for Adult Prison, Jail, and Adult Community Confinement Facilities); and GEO Policy 5.1.2-E, Investigating Allegations of Sexually Abusive Behavior (PREA). Other agency policies supplement these main PREA policies. Lawton Correctional Facility Policy 030601 is the facility supplement to implement PREA. Immediate reporting of any above known behavior or action is required by all written related directives reviewed by auditor. The facility Sexual Abuse Coordinated Response Plan outlines the steps for facility staff to respond to allegations. These policies collectively establish the agency’s zero-tolerance approach to preventing, detecting, and responding to sexual abuse and sexual harassment. It is clear to the auditor that the Prison Rape Elimination Act is part of the GEO fabric.

Ms. Phobia Moreland is GEO agency-wide PREA Coordinator. She is very knowledgeable of PREA standards and is one of the top PREA Coordinators I have met. Ms. Moreland has the authority to develop, implement, and oversee PREA compliance. She oversees 108 total facilities (57 Corrections Facilities; 40 Reentry Services Facilities, 3 lockups; and eight (8) Youth Services Facilities. She is very active in coordinating PREA, consistently sending updates to facilities, especially as FAQs are posted on the PREA website. She conducts training and meetings to keep unit PREA Compliance Managers up to date on any changes and best practices. She is consistently looking for ways to improve GEO’s PREA program. The GEO organization chart demonstrates Ms. Moreland is in a position of authority. The auditor has observed her develop, implement and oversee compliance during this and other audits the auditor conducted. She indirectly supervises 108 compliance managers (Prisons and Jails, Community Corrections, Lockups, and Juveniles) through three regional corrections coordinators, one
community corrections coordinator, and one juvenile coordinator. She often goes directly to the compliance managers to coordinate changes, provide updates, conduct training, and on-site during audits. Ms. Moreland was present during the audit, assisting both the facility and the auditor during the audit.

Ms. Brittany Holmstrom is the Lawton Correctional Facility PREA Compliance Manager. She works for the Warden. She also has access to the GEO PREA Coordinator, which she does contact as questions and issues arise. She was very knowledgeable of PREA standards and was actively involved in PREA activities. She claimed to have enough time to perform her PREA duties. She coordinates and conducts training, provides information at staff calls, contacts the GEO PREA Coordinator for clarification and guidance. Review of Lawton Correctional Facility organizational chart and interviews demonstrated she had the authority to coordinate the facility’s efforts to comply with PREA. She is a very good PREA compliance manager.

The interviews of the PREA Coordinator, Warden, and PREA Compliance Manager demonstrated PREA is part of the GEO and facility fabric; as leaders they were very knowledgeable of and believed in PREA; and they set the tone for the facility.

Standard 115.12: Contracting with other entities for the confinement of inmates

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity’s obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) □ Yes □ No □ NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates OR the response to 115.12(a)-1 is "NO"). □ Yes □ No □ NA

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO is a private provider and does not contract with other agencies for the confinement of inmates. GEO Policy 5.1.2-A Sexually Abusive Behavior Prevention and Intervention Program (PREA for Adult Prison and Jail and Adult Community Confinement Facilities) states GEO shall adhere to all contracts with other entities for the confinement of individuals that require its obligation to adapt and comply with the PREA standards.

The Oklahoma Department of Corrections and Auditing and Compliance Unit does annual audits of the facility to ensure compliance with the contract to include compliance with PREA. The auditors reviewed the 2016 and 2017 annual audits included some PREA areas to ensure compliance with PREA.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO ensures each institution it operates develops, documents, and makes its best efforts to comply on a regular basis with the staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse by monitoring and reviewing the staffing plans. GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 establishes procedures to develop and monitor staffing plans uses the criteria found in standard 115.13 (a) to include generally accepted correctional practices; any judicial findings of inadequacy; any findings of inadequacy from Federal investigative agencies; any findings of inadequacy from internal or external oversight bodies; all components of the institution’s physical plant (including “blind-spots” or areas where staff or inmates may be isolated); composition of the inmate population; number and placement of supervisory staff; institution programs occurring on a particular shift; any applicable State or local laws, regulations, or standards; prevalence of substantiated and unsubstantiated incidents of sexual abuse; and other relevant factors to develop and review the staffing plan. GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 addresses an annual review of the staffing plan to include video monitoring; and procedures for intermediate and higher-level unannounced rounds.
The auditor reviewed the Lawton Correctional Facility staffing plan; and 2016, 2017, and 2018 annual review. The staffing plan is reviewed annually by the facility, GEO Corrections Division, and PREA Coordinator. The plan follows generally accepted correctional practices. All components of the facility's physical plant to include cameras are considered, and the staffing plan review was thorough. Lawton Correctional Facility Policy had 355 cameras. The signature of the PREA Coordinator on the Annual Review confirmed that this was done in consultation with her. The 2017 review included a recommendation from the facility to replace existing analog cameras with higher resolution cameras for better visibility of all areas of the facility and additional cameras to be placed in the gym. Additional cameras were placed in the 2018 budget request. Interviews of the PREA Coordinator, Warden, and PREA Compliance Manager confirm that the Lawton Correctional Facility does annual reviews of the staffing plan to ensure adequate staffing levels and technology is used to protect inmates against sexual abuse.

By policy the facility documents all deviations to the plan and it is reported to GEO. Per the Pre-audit questionnaire and interview of the Warden, PREA Compliance Manager, and security staff, and review of manning sheets, there were no deviations from the plan. The facility uses overtime to fill all its positions in the plan.

Throughout the site review, the auditor saw evidence that intermediate and higher-level supervisors conduct and document unannounced rounds on all shifts to deter and identify staff sexual abuse and sexual harassment. PREA unannounced rounds are documented in housing unit logs, and duty officer report. The duty officer report documents checking for: PREA signs/posters; did opposite gender staff announce their presence when entering housing units; and questioning of both staff and inmates on PREA information. Examples of those documents were provided prior to the audit, and the auditors reviewed logs and duty officer reports on site from January and February 2018. Staff and inmate interviews further confirmed the unannounced rounds by supervisors. The staff conducting unannounced rounds who were interviewed were very knowledgeable of the procedures and what should be checked, observed, and asked about during their PREA unannounced rounds. The interviewed staff stated the PREA checks was a more defined process than the normal unannounced rounds they used to conduct.

Oklahoma Department of Corrections does not contract with GEO and the Lawton Correctional Facility to house youthful offenders; therefore, this standard is not applicable. GEO policy 5.1.2.A does cover all parts of the standards for GEO facilities that do confine juveniles to include: requires that youthful offenders be housed separately from adult inmates; avoid placing youthful offenders in isolation to keep them separated from adults and will not deny large muscle exercise and any legally required special education services, except under exigent circumstances.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Based on review of GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601, review of GEO training material, interview of staff and inmates, and observation it was determined the facility limits cross-gender viewing and searches. Lawton Correctional Facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches, and staff is prohibited and does not search transgender or intersex inmates to determine inmates’ genital status. There was a facility log book example showing documentation of PREA announcement of opposite gender entering living units. Review of training curriculum on Cross-Gender Viewing and Searches addressed the training requirements of this standard. Strip searches logs show male staff conducted searches of male inmates. Lawton Correctional Facility has not had any incident of cross-gender strip searches or visual body cavity searches during this review period.

Standards 115.15 b and part of c does not apply as Lawton Correctional Facility Policy is a male only facility.

Based on review of GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601, review of training material, and interview of staff and inmates; inmates are able to shower, perform bodily functions, and change clothes without non-medical staff observing their genitalia or buttocks, except in exigent circumstances or when such viewing is incidental to routine cell checks (115.15(d)). 35 of 39 inmates interviewed stated they could shower and change clothes without being observed by opposite gender staff. Observation during the audit identified inmates were not able to perform bodily functions in specific housing units identified below by staffing in the housing area or through viewing of the camera. All the cameras were reviewed to see if there were any that were able to view inmates in the shower or on the toilet. All cells that had cameras had the toilet area blacked out. There were two
cameras, based on the angle that had a direct view of the back of the shower in two pods. Other pods did not have the same issue. The cameras on these areas were positioned at different angles. Additionally, one set of cameras did not view the showers at all.

Standard 115.15(d) The facility shall implement policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks.

(1). Finding: Cameras in H1C, H2C, and H4C can see inmate groin/buttocks in shower. It was noted that the camera location was different than other ceiling camera locations.

CAP. Either move the cameras, block out portion of the camera, or disconnect the feed to the control room where opposite gender observation could occur. Once corrective action has been decided, provide pictures and memorandum for the auditor. Auditor has current screen shot. The camera angle was changed to where inmate groin/buttocks could not be seen when they were in the shower. The audit team was provided pictures of the new view. The modifications were done professionally and was not rushed to simply meet a standard. Lawton Correctional Facility Policy was found to be compliant with the standard on May 31, 2018.

(2). Finding: H1 - H6 B & D: staff walking up the stairs can see inmate groin/buttocks area in the showers. Staff has already fixed one housing area by blocking view between stairs. This was observed by auditor and noted during interviews of staff and inmates.

CAP. Duplicate all housing units applicable and send auditor pictures. The facility duplicated blocking the view between the stairs in each of the areas and provided the auditors pictures of the modifications they had made following the audit like the one area done during the audit. The modifications were done professionally and was not rushed to simply meet a standard. Lawton Correctional Facility Policy was found to be compliant with the standard on May 31, 2018.

(3). Finding: H7 & H8: staff on second floor can see inmate groin/buttocks area in the showers. This was observed by auditor and noted during interviews of staff and inmates.

CAP. Modify shower areas identified during the tour to ensure male inmates’ buttocks, or genitalia area cannot be observed when taking a shower. Take pictures and send to auditors for review. The facility made modifications to where staff on the second floor could not see the inmate’s groin/buttocks while taking a shower. The modifications were done professionally and was not rushed to simply meet a standard. Lawton Correctional Facility Policy was found to be compliant with the standard on May 31, 2018.

Based on review of GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601, review of training material, interview of staff and inmates, review of logs, and observation it was determined female staff do announce their presence when entering a male inmate housing unit. Post Orders for housing areas require opposite gender officers announce their presence at the beginning of each shift and any time the status quo of the gender-supervision of a housing area changes from exclusively same gender to mixed or opposite gender supervision. Officers are directed to ensure the announcement is made for other opposite gender staff entering the housing unit. All staff interviewed said opposite gender staff announce when entering the housing unit. 38 of 40 inmates said female staff announce when they come into the housing unit, two said not always. Above each housing unit door “Opposite Gender Announcement” is stenciled in red. During the site review the auditors noticed
female nursing staff did not announce when going into the medical housing unit/infirmary. Female nurses were questioned, and they stated they did not announce, did not know was required in that area.

**Standard 115.15(d)** Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an inmate housing unit.

(1). Finding: Female medical staff do not announce when entering medical cell area. It was observed and confirmed during staff and inmate interviews. Female medical staff do announce when go into other inmate housing areas. All other areas staff announces, staff and inmate interviews demonstrate they announce.

**CAP.** Provide training for medical staff and put sign up on the door. Start process. Document training and send to auditor training provided and sign in rosters, along with picture of sign on door. Will conduct interview of staff approximately 60 days after process begins. The auditor observed female nurses while on the last two days of the on-site audit. Sign was stenciled on the door “Opposite Gender Announcement” is stenciled in red. Training was conducted, documented (May 31 – June 14, 2018) and was provided to the auditor. The auditor conducted interviews of two nurses on September 9, 2018. The interviews confirmed the process that was implemented prior to the end of the on-site audit. The sign to announce, training documents, auditor observation and staff interviews demonstrated the facility implemented the CAP and came into compliance with this standard.

Review of training records and lesson plans demonstrated staff had been trained on how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. 2016 and 2017 PREA training have emphasized proper search techniques. Staff could not correctly define transgender and intersex inmates, or properly describe or perform a proper pat search procedure of a transgender inmate.

**Standard 115.15(f)** The agency shall train security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

(1). Finding: Five of fifteen staff interviewed could not describe or demonstrate a proper pat search of a transgender inmate; four stated they did not receive training. Staff to include some of those interviewed in specialty interviews did not know definition of transgender (only six of 16 could define transgender inmate). Transgender interviews did identify a few staff did use palms when pat searching their area.

**CAP.** Retrain staff. Provide proof of training. Contact auditor when completed, and the auditor will interview some staff. Staff was retrained between May and July. The auditor was provided the training to review. The auditor reviewed 40 examples of staff acknowledging understanding the transgender training from May and June and sign-in rosters from July. The auditor conducted interviews of nine staff on the 4th and 14th of September and found the staff knowledgeable of the definition of transgender and the proper way of conducting a pat search of a transgender inmate.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 ensure inmates with disabilities and who are limited English proficient have access to PREA information and programs. Lawton Correctional Facility Policy 030601 states “Every inmate will receive a written copy of the facility orientation material in formats or through methods to ensure effective communication. Inmates, whose primary language is not English, will normally be provided a copy or translation of the orientation materials in their own language. If an inmate with disabilities (including, for example, inmate who are visual/hearing impaired, or those who have intellectual psychiatric, or speech disabilities) have an equal opportunity to participate in or benefit from all aspects of the facility’s efforts to prevent, detect, or response to sexual abuse and sexual harassment. The inmate will be assisted in understanding the material.”
GEO and Lawton Correctional Facility Policy has taken appropriate steps to ensure that inmates who are limited English proficient or disabled have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Eight (6) staff were identified as being able to read, write, and speak Spanish, one staff member was interviewed to verify abilities. GEO and the facility have a contract for translation services with Language Line Solutions. There were no limited English-speaking inmates during the audit. PREA handouts and inmate handbooks are in English and Spanish. English and Spanish PREA posters are posted throughout the institution for inmates, staff, and visitors to see. The PREA Reporting Hotline is in both English and Spanish. Staff and inmates interviewed stated inmates are not used as interpreters when addressing sexual abuse and sexual harassment allegations. Based on staff and inmate interviews no inmate interpreters had been used.

Informational and educational materials for inmates with physical and mental disabilities are provided in ways that will enable the inmate to understand the GEO zero tolerance policy and related material and be able to make a claim of sexual abuse or sexual harassment, if necessary. Interviewed one handicap inmate in a wheelchair, who felt his handicap did not prevent him from getting same PREA information and services as non-handicap inmates. For inmates who are hearing impaired, the facility has a Teletype (TTY) machine available for inmates who are hearing impaired, and the regular phones have volume control. Provisions can be made for inmates who may be visually impaired, though those with limited vision are assisted by some of the posters and handouts having been printed in larger print. For inmates with a mental disability, staff will spend time to ensure they understand the PREA basics of definitions and reporting.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 outlines policy and procedures to ensure staff and contractors are not hired or promoted who has engaged in sexual abuse in a prison, jail, lockup, community confinement institution, juvenile institution, or other institution; been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion; or if the victim did not consent or was unable to consent or refuse; or been civilly or administratively adjudicated to have engaged in sexual activity facilitated by force, overt or implied threats of force, or coercion. GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 also requires the institution to consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates. Prior to and during the audit, the auditor reviewed 24 staff records and two contractor records. Through review of staff and contractor records and staff interviews it was determined Lawton Correctional Facility staff and contractors are not hired or promoted if they have engaged in sexual abuse in a prison, jail, lockup, community confinement institution, juvenile institution, or other institution; been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not
consent or was unable to consent or refuse; or been civilly or administratively adjudicated to have engaged in sexual activity facilitated by force, overt or implied threats of force, or coercion. The documents and interviews also demonstrated GEO and the facility considers incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 requires background checks for staff, and to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Prior to the audit, the auditor reviewed two background checks of new employees each from 2016, 2017, and 2018. During the audit, 18 additional background checks and employee application packets and background check spreadsheet that demonstrated background checks were done prior to employment were reviewed, and none had a background check more than five years old. Interviews of Human Resource staff and employees, and review of application packets also demonstrated contact with prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Background checks include checks through ACCURATE Inc.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 requires criminal background records check before enlisting the services of any contractor who may have contact with inmates. The auditor reviewed two contractor background checks during the audit. Interviews of Human Resource staff and contractors, and review of contractor packets demonstrated background checks were conducted.

GEO policy 5.1.2-A and Lawton Correctional Facility Policy 030601 establishes the procedures to conduct criminal background records checks at least every five years of current employees and contractors who may have contact with inmates. Prior to the audit the auditor reviewed two employee records with background checks every five years; and during the audit, the auditor reviewed 20 background checks conducted on employees (18) and contractors (2). All had a background check every five years. Interviews of Human Resource staff demonstrated the process of conducting background checks every five years were in place.

GEO policy 5.1.2-A and Lawton Correctional Facility Policy 030601 states, shall ask all applicants and employees who may have contact with inmates directly about previous sexual misconduct as described in PREA standard 115.17 (a) in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees; and imposes upon employees a continuing affirmative duty to disclose any such misconduct. Any individual promoted must complete a PREA Disclosure and Authorization and successfully complete a new background check. All employees in are required to complete a PREA Disclosure annually. The PREA Disclosure must be completed as part of the employee’s annual performance evaluation. Prior to the audit, the auditor received four promotion packets; and two annual review demonstrating they addressed previous sexual misconduct as described in PREA standard 115.17 (a) in written applications or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. During the audit 18 additional employees’ files that demonstrated employees who may have contact with inmates directly are asked about previous sexual misconduct as described in PREA standard 115.17 (a) in written applications and written self-evaluations conducted as part of reviews of current employees; and imposes upon employees a continuing affirmative duty to disclose any such misconduct were reviewed. On-site one promotion packet was reviewed and demonstrated the staff member had completed a PREA Disclosure and Authorization and new background check.
GEO Policy 5.1.2-A states that material omissions regarding sexual misconduct, or the provision of materially false information, shall be grounds for termination.

GEO Policy 5.1.2-A states that GEO will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. Per interview of Human Resource Staff, Lawton Correctional Facility would provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's
conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Through review of GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601; and interviews of the Agency Head representative, PREA Coordinator, PREA Compliance Manager; and Warden it was determined that the GEO considers the effect of the design, acquisition, expansion, or modification upon the agency’s ability to protect inmates from sexual abuse.

During the review of the staffing plan, the video monitoring system is also reviewed to ensure coverage enhances the ability to protect inmates from sexual abuse. Lawton Correctional Facility had an upgrade to its video technology system, added 68 cameras; and added a 166-bed segregation unit in 2015. During the upgrade in video technology, increase in cameras and design of the new housing unit; GEO considered the effect of the design, upon the agency’s and facility ability to protect inmates from sexual abuse.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-E Investigating Allegations of Sexually Abusive Behavior (PREA) and Lawton Correctional Facility Policy 030601 outline evidence protocols for administrative proceedings and criminal prosecutions; requirements for forensic medical exams; and when requested by the victim, a victim advocate to accompany and support the victim through the forensic examination, investigatory interviews, emotional support, crisis intervention, information, and referrals. The uniform evidence protocol maximizes the potential for usable physical evidence for administrative and criminal prosecutions. The protocols were reviewed and found to be in line with DoJ's National Protocol for Sexual Assault Medical Forensic Examinations. Staff interviewed were very knowledgeable of the evidence protocols and could explain the protocol for obtaining useable evidence when an inmate alleges sexual abuse. Alleged victim and assailant will be separated. Both parties will be monitored to ensure physical evidence is not destroyed. Participants and witnesses will be separated. It requires offering a forensic medical examination to potential sexual assault victims for up to 120 hours after the alleged incident. The auditor interviewed two of the Lawton Correctional Facility investigators, who had a good understanding of the investigative procedures and responsibilities and evidence protocols.

Lawton Correctional Facility makes available to the victim a victim advocate from a rape crisis center MOU with Lawton Correctional Facility and New Direction to provide services that includes: victim advocate services and support through medical exam process and investigator interviews, provide confidential emotional support services, crisis intervention, information, and referrals. Interview with New Direction demonstrated New Direction provides good support to and has a good relationship with the facility.

GEO Policy 5.1.2-E requires all victims of sexual abuse are provided access to forensic medical examinations whether on-site or at an outside facility, without financial cost, where evidentiary or medically appropriate, by Sexual Assault Nurse Examiners (SANEs) where possible. The facility...
through an agreement with Comanche County Health Care Corporation offers all victims of sexual abuse access to forensic medical examinations at Comanche County Memorial Hospital without financial cost. A Sexual Assault Nurse Examiners (SANEs) performs the forensic exam. The auditor reviewed documents from two forensic exams performed in 2017. There were none in 2018. Review of documentation demonstrated the two forensic exams were performed by SANE and victim advocate was present during the forensic exam at Comanche County Memorial Hospital from 2017. Neither inmate was still confined at the facility during the audit.

As requested by the victim, a victim advocate accompanies and supports the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals. By Lawton Correctional Facility policy there was an issue with a victim being allowed to have a victim advocate during interviews by the investigator.

Standard 115.21(e) As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

(1). Finding: Lawton Correctional Facility Policy 030601 states “With the investigative agent's consent, a victim support person or case manager is permitted to sit in on any victim interviews if requested by the victim.” GEO Policy 5.1.2-E does not require the investigator’s consent and meets the standard.

CAP: Update Lawton Correctional Facility Policy 030601 to ensure if requested by the victim a victim advocate is made available to accompany and support the victim through the investigatory interviews without the investigators consent. Get approval from the Oklahoma DOC with the policy change. Lawton Correctional Facility updated the policy, and the Oklahoma DOC reviewed and approved the change on June 12, 2018.

To the extent GEO Group itself is not responsible for investigating allegations of sexual abuse, GEO Group requests that the investigating agency follow the requirements listed above. Oklahoma DOC-OIG or Lawton Police Department conduct all criminal investigations and keep the facility informed of the progress and outcome of the investigations.

Standard 115.21(f) To the extent the agency itself is not responsible for investigating allegations of sexual abuse, the agency shall request that the investigating agency follow the requirements of paragraphs (a) through (e) of this section.

(1). Finding: Lawton Correctional Facility had not requested the Lawton Police Department to comply with PREA standard 115.21.

CAP: Provide a request to the Lawton Police Department to comply with PREA standard 115.21. Provide a copy of the request and any document if Lawton Police Department agrees to comply. Lawton Correctional Facility provided the auditor a copy of the request, during the CAP it was pending signature of the Lawton Police Department. The Oklahoma DOC-OIG was already in compliance.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-E and Lawton Correctional Facility Policy 030601 requires an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment, that all allegations of sexual abuse or sexual harassment are referred for investigation by the appropriate authority. Criminal investigations are conducted by either the Lawton Police Department or the Oklahoma DOC OIG or Office of Fugitive Apprehension and Investigation. Facility investigator conducts administrative investigations. Based on review of the investigative paperwork, PREA Allegation tracking log, and interview of staff and inmates; an administrative or criminal investigation is conducted for all allegations of sexual abuse and sexual harassment. GEO’s Investigative policy is available on the GEO Web site.

Auditors reviewed the PREA Allegation Spreadsheet from 2016, 2017, and 2018. There were 36 PREA cases in the last 12 months. Prior to the audit, the facility provided the auditor one PREA case from 2016, and 2017. During the on-site and interim report writing period the auditor requested and reviewed 21 specific cases (2016, 2017, 2018). Of the 21 cases reviewed by the auditor: two staff-on-inmate sexual abuse substantiated; one staff-on-inmate sexual abuse (voyeurism) unsubstantiated; two staff-on-inmate sexual abuse unfounded; one staff-on-inmate sexual harassment unsubstantiated; two inmate-on-inmate sexual harassment unsubstantiated; one inmate-on-inmate sexual abuse substantiated; seven inmate-on-inmate sexual abuse unsubstantiated; and four were still under investigation.

Lawton Correctional Facility Policy 030601 and Oklahoma DOC OP 040117 describes the responsibilities of the Oklahoma DOC OIG or Office of Fugitive Apprehension and Investigation in the investigation. The interviews of the two Lawton Correctional Facility investigators demonstrated they were very knowledgeable of the process.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 addresses PREA staff training requirements. Lawton Correctional Facility staff receive PREA training annually through scheduled training and roll call. The PREA training curriculum was reviewed and verified that the training provided to employees is very comprehensive. Review of the lesson plan and slides demonstrated the training covered: zero-tolerance Policy for sexual abuse and sexual harassment; how to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; inmates' right to be free from sexual abuse and sexual harassment; the right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment; the dynamics of sexual abuse and sexual harassment in confinement; the common reactions of sexual abuse and sexual harassment victims; how to detect and respond to signs of threatened and actual sexual abuse; how to avoid inappropriate relationships with inmates; how to communicate effectively and professionally with inmates, including lesbian, gay, bisexual, transgender, intersex, or gender-nonconforming inmates; and how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities. The PREA Coordinator modifies GEO wide PREA training curriculum annually highlighting areas identified as areas needing emphasis. 2016 and 2017 PREA training emphasizes inmate searches. Employees sign an acknowledgement form that they have received and understood the PREA training they received during pre-service training. Staff interviewed were well versed in the GEO zero tolerance policy; their responsibilities in reporting sexual abuse, sexual harassment, and staff negligence; first responder duties; and evidence preservation. Prior to the audit, the auditor reviewed documentation of three staff acknowledging they understood the PREA training. The auditor randomly selected 18 staff training records, 18 had documentation that they understood the PREA training. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 requires that all inmates receive PREA information upon arrival; PREA education within 30 days of intake; and the information be provided in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The auditor reviewed inmate handbooks, posters and PREA comprehensive education documents. Prior to audit received an example of two inmates who received information and handbook, acknowledge receiving it, three days later getting orientation and PREA training and acknowledged getting notice of zero tolerance, how to report, rights and treatment and PREA video. During the audit, the auditor reviewed 47 inmate records who were interviewed: 45 had documentation demonstrating they received the required PREA information upon arrival; and 44 received the PREA education within 30 days. During inmate interviews, 36 of 40 inmates said they received the PREA Information and PREA Education. Intake staff interviewed described how they document providing inmates PREA information.

Zero-Tolerance Policy posters and PREA posters (English and Spanish) are placed throughout facility in locations accessible and visible to inmates, staff, and the public. Inmate handbooks (English and Spanish) are provided to inmates upon arrival. Both are in formats accessible to all inmates to ensure that key information is continuously and readily available or visible to inmates. The Lawton Correctional Facility Policy inmate handbook (English and Spanish) has a lot of good information. The Inmate
Handbook PREA section covered zero tolerance, reporting, definitions, how to report, outside reporting including address and phone numbers, and how to go call for emotional support. GEO poster (English and Spanish) covered how to report, zero tolerance, and rights after reporting. Reviewed GEO Sexual Assault Prevention Document (English and Spanish) which include defining PREA; GEO Zero Tolerance policy; common reactions; reporting; telephone process and address for outside emotional support services; investigation information; what to do if abused; and how to avoid sexual abuse in confinement. The GEO fliers include ways to report, GEO zero tolerance policy, and what actions will occur upon reporting a PREA allegation.

The inmates interviewed were able to articulate the zero-tolerance policy; their right to be free from sexual abuse and sexual harassment; and their right to be free from retaliation for making a report.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 requires the facility investigator receives specialized training in addition to the general education provided to all employees. GEO PREA Coordinator attended the Moss Group’s “Train the Trainers Specialized Training: Investigating Sexual Abuse in Corrections Setting” sponsored by the PREA Resource Center. She then tailored the program for GEO investigators and is the instructor for all GEO investigator training. The auditor reviewed the specialized training for investigators, and it covered all requirements of the standard to include: techniques for interviewing sexual abuse victims; proper use of Miranda and Garrity warnings; sexual abuse evidence collection in confinement settings; and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. The auditor reviewed three training records which documented both annual PREA training and PREA investigator training. The facility maintains documentation that the investigators has received both the general and investigative PREA training. The lesson plans, slides and sign in sheets were reviewed and interview of the investigators demonstrated good understanding of how to conduct a sexual abuse investigation in a confinement setting and coordinating with outside agencies for criminal investigations. Auditor Overall Compliance Determination

- ☒ Exceeds Standard (Substantially exceeds requirement of standards)

- ☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

- ☐ Does Not Meet Standard (Requires Corrective Action)
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO ensures that all full and part-time medical and mental health care practitioners who work regularly in its facilities have received appropriate PREA training. GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 outlines the training required for medical and mental health practitioners to include how to detect and assess signs of sexual abuse and harassment, how to preserve physical evidence, how to respond effectively and professionally to victims of sexual abuse and sexual harassment and how to report allegations of sexual abuse and harassment. Prior to the audit, the auditor reviewed the Correct Care Solutions specialized Medical and Mental Health training, GEO annual training, and six medical staff training records documenting the required training. On-site the auditor requested five randomly selected medical and mental staff training records, all had documentation demonstrating they understood the annual PREA training and had received the medical PREA training. Training is done on-line and in a classroom setting. Interviews of medical and mental health staff demonstrated they understood: how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment. Each staff member interviewed described their role through each step of the process following an allegation of sexual abuse through follow-up services. The interviews conducted was one of the better medical and mental health interviews this auditor has conducted. Medical/mental health documentation reviewed by the auditor prior to and during the audit demonstrated the medical and mental health staff have implemented the training into their practice. Medical staff does not conduct forensic medical examinations; it is conducted at Comanche County Memorial Hospital.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 requires facilities to: conduct a screening for risks of sexual victimization and abusiveness within 24 hours of arrival; a follow-up screening for risks of sexual victimization and abusiveness within a set time period, not to exceed 30 days from the inmate’s arrival at the facility; and reassesses inmate’s risk level again when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness. Lawton Correctional Facility uses the GEO PREA screening tool, which is an objective screening instrument in determining if the inmate is at risk for victimization or abusiveness. The screen includes the following criteria to assess offenders for risk of sexual victimization: (1) Whether the offender has a mental, physical, or developmental disability; (2) The age of the offender; (3) The physical build of the offender; (4) Whether the offender has previously been incarcerated; (5) Whether the offender’s criminal history is exclusively nonviolent; (6) Whether the offender has prior convictions for sex offenses against an adult or child; (7) Whether the offender is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; (8) Whether the offender has previously experienced sexual victimization; (9) The offender’s own perception of vulnerability; and (10) Whether the offender is detained solely for civil immigration purposes. The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to The GEO Group, in assessing offenders for risk of being sexually abusive.

The auditor reviewed six examples of inmate screening forms (initial screen and follow-up screen) prior to the audit, all screens were done IAW timeline requirements and had documentation demonstrating was referred to mental health based on the screen identified they had previously been sexually victimized or sexually abused someone. All inmates are assessed during intake screening for their risks of being sexually abused by other inmates or sexually abusive towards other inmates. The auditor randomly selected 47 inmates and reviewed their screens during the on-site and report writing period. Of the 47 initial screening forms reviewed: 47 were screened within 24 hours of arrival. Of the 47 follow-on screening forms: 44 were screened within 30 days. An inmate’s risk level is also reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information.
that bears on the inmate’s risk of sexual victimization or abusiveness. The auditor reviewed three reassessment screens. During inmate interviews, 33 of 34 inmates who arrived within the last 12 months remembered receiving the initial PREA screen, 20 of 23 remembers the follow-on PREA screen.

The auditor had five staff who conduct the screens perform the screen of the auditor to demonstrate the process of filling out the screening form. The process was done very professionally and demonstrated their knowledge of the process and importance of the screen. These staff performed the best screen of the auditor of all audits. Some information is provided through asking the inmate questions, others through review of inmate records. All the criteria referenced in the standard are on the form; and the GEO policy states that inmates will not be disciplined for refusing to answer or for not disclosing complete information in response to, questions asked pursuant to paragraphs (d)(1), (d) (7), (d) (8), or(d) (9) of the standard. Staff and inmate interviews confirmed they are not disciplined for not answering questions on the screen. Staff who perform the screens make their own assessment of whether the inmate is gender non-conforming; majority of the screeners interviewed did know the definition of gender nonconforming. Inmates are not disciplined for refusing to answer questions during the risk screening interview.

The Lawton Correctional Facility implements appropriate controls on the dissemination within Lawton Correctional Facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the offender’s detriment by staff or other offenders. Only the Unit Manager, Case Manager, Chief of Classification, and Executive Assistant have access to the screening tool.

One of a very few facilities I have audited to get this standard without CAP.

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 outlines the use of the screening form to include: using the information from the risk screening to determine housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive; and making individualized determinations about how to ensure the safety of each inmate. GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 states the agency shall consider on a case-by-case basis whether to assign a transgender or intersex inmate to an institution for male or female inmates, housing and programming assignments, based on the inmate's health and safety, inmate's own views with respect to his or her own safety, and whether the placement would present management or security problems; reviewing twice a year placement and programming assignments for each transgender or intersex inmate to review any threats to safety experienced by the inmate; allowing transgender and intersex inmates the opportunity to shower separately from other inmates; and not placing lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated institution, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates.
Prior to audit reviewed one transgender screening form, Transgender Care Committee Summary; and Statement of Search/Shower/Pronouns Preference Form. During the audit reviewed seven transgender inmates Transgender Care Committee Summary; Statement of Search/Shower/Pronouns Preference Form; and PREA Risk Assessment. Interviewed 14 GBT inmates, who acknowledged they were treated with respect; and were not housed in a dedicated housing unit. Review of housing unit assignments of all LGBTI inmates documented they are not placed in a designated housing unit. In 2017 Lawton Correctional Facility started reassessing transgender inmates twice a year. Four of the transgender inmates were reassessed every six months, the other three transgender inmates were not due for a reassessment. Of those reassessed, all were asked their preference and considered their safety.

Through a review of screening forms, housing and program decisions, inmate and staff interviews, it was determined Lawton Correctional Facility uses the screening information to determine housing, bed, work, education, and program assignment with the goal of keeping inmates at high risk of being sexually victimized separate from those at high risk of being sexually abusive. The decisions are made on a case-by-case basis using information from the screen, assigned PREA classification, and good correctional judgment. The process is clearly defined in the policies and implemented in the use of PREA and classification forms. The Oklahoma DOC decides whether a transgender inmate is housed at a male or female facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 states inmates at high risks for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers; if placed in segregated housing involuntarily they shall have access to programs, privileges, education, and work opportunities to the extent possible; that the facility shall document any access to programs, privileges, education; or work opportunities that were restricted, duration of restriction and why; and that every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population. Interviews of the Warden, PREA Compliance Manager; and segregation staff verified inmates at high risk of sexual victimization would not be placed in involuntary segregation unless other measures have been assessed. Other measures included moving housing areas or facilities. It was confirmed through Pre-Audit Questionnaire; investigative paperwork; and during interviews with the Warden, staff who supervise segregated inmates, and inmates; that no inmates at high risk for sexual victimization had been placed in involuntary segregated housing during the past 12 months prior to the audit.

GEO documents any review of alternatives using a form that addresses possible alternatives reviewed prior to placing inmates at high risks for sexual victimization shall not be placed in involuntary segregated housing. Prior to audit reviewed example of an inmate who was sexually assaulted had requested protective custody. Prior to placing in protective custody, available alternative forms used to document other alternatives that were reviewed.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030501 requires inmates are provided ways to report to include through an office that is not part of the agency, and through a third party. Lawton Correctional Facility inmate handbook, PREA handouts, and posters throughout the facility provide specific internal and external ways for inmates to report sexual abuse, sexual harassment and retaliation by other inmates or staff for reporting sexual abuse and sexual harassment. Inmates can report a PREA allegation: verbally or in writing to staff; calling the Oklahoma DOC PREA reporting hotline to the Office of Fugitive Apprehension and Investigations; calling New Direction, GEO Regional Director, and through a third party; and file a grievance. Interviews of inmates and staff and review of
investigations verified inmates knew of and used multiple internal and external ways to report incidents of abuse or harassment, and retaliation. During the inmate interviews 40 of the 40 inmates knew at least two ways to report PREA. Auditors tested the PREA reporting hotline while on site from the inmate phone system twice and the facility received notice of the report. Staff accepts reports made verbally, in writing, anonymously, and from third parties, and are promptly documented any verbal reports. Interview of New Direction confirmed they would also take a report to include anonymously.

GEO Employees reporting Sexual Abuse or Sexual Harassment may report such information to the Chief of Security or facility management privately if requested. They may also report Sexual Abuse or Sexual Harassment directly to the GEO Employee Hotline, which is an independent, professional service, available 24 hours per day, 7 days a week on the Internet at www.reportlineweb.com/geogroup or at the toll-free phone number (866) 568-5425. Employees may also contact the Corporate PREA Director directly at (561) 999-5827.

Third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, are permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of inmates. The grievance response to the inmate is “Due to the nature of your grievance, it has been forwarded for investigation, you will receive notification of the outcome of the investigation, and the informal grievance is closed.” There were no PREA allegations files as a grievance or emergency grievance during the audit period.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 states inmates shall be provided access to outside victim advocates for emotional support services related to sexual abuse by giving inmates mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations; and the facilities shall enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible.

Lawton Correctional Facility has a MOU with New Direction for outside confidential support services. The inmates can call or write to New Direction. Prior to audit, the auditor reviewed the MOU with New Direction. On-site the auditor observed the posters with the information for New Direction both English and Spanish. The auditor on first day of the on-site audit called through the inmate phone system and the call would not go through to New Direction. The GEO PREA Coordinator and facility PREA Compliance immediately contacted New Direction to determine what was the problem. The facility did not know New Direction had recently shut off the system from the inmate phone system because inmates from other facilities had abused the system. New Direction turned the system back on for Lawton Correctional Facility and trained staff to take calls from the Lawton Correctional Facility. The next day the auditor used the inmate phone system and contacted New Direction and was provided emotional support services. The auditor contacted New Direction one more time on site from the inmate phone system and again was provided emotional support services. The auditor also contacted and interviewed New Direction staff and Director using his phone. New Direction staff and Director was very knowledgeable about PREA and providing victim advocacy services. They provide Spanish speaking staff and victim advocates. The New Direction Director has toured the facility and stated they had provided victim advocates for forensic exams twice at the hospital. The call can be made with a common pin rather than a personal pin for confidentiality and to ensure facility staff does not track who is calling New Direction. The auditor recommended once a quarter someone test the inmate phone numbers for PREA.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 outlines procedures to respond to an allegation of sexual abuse for both security and non-security staff. There is a GEO Incident Checklists to be used when responding to sexual abuse or sexual harassment. Staff have a PREA First Responder card they carry that describes the steps a first responder would take. The PREA First Responder card helps the employee with their duties and responsibilities in regard to PREA. The PREA training curriculum covers the first responder duties. Random interviews with security and non-security staff confirmed both security and non-security staff were very knowledgeable what to do upon learning an inmate was sexually abused to include separating the alleged victim and abuser; how to preserve the crime scene; and what actions inmates should not take in order not to destroy physical evidence. Based on staff and inmate interviews, and review of policy and investigations; the first security staff member to respond to an allegation that an inmate was sexually abused shall: separate the alleged victim and abuser; preserve and protect any crime scene until appropriate steps can be taken to collect any evidence; if the abuse occurred within a time period that still allows for the
collection of physical evidence, request that the alleged victim and alleged abuser not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.

A review of all incidents reported indicate the protocols are followed in accordance with the policy and First Responder training. Four of the five inmates who reported sexual abuse said staff responded immediately and took appropriate action.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO policy 5.1.2-A and Lawton Correctional Facility Policy 030601 require a staff member be designated to monitor for retaliation against staff or inmates who reported or had been sexually abused or harassed; provided multiple protection measures for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations; monitoring the conduct and
treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and conducting periodic status checks through interviews at least every seven days. Monitoring will occur for at least 90 days following the report of the allegation and may go beyond the 90 days if the monitoring indicates a continuing need.

There is a monitoring log form that is used to monitor inmates from retaliation. Interviews of the Warden, PREA Compliance Manager, and inmates demonstrated monitoring of inmates was being conducted. Lawton Correctional Facility uses multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

Review of monitoring logs identified the following issues:

Standard 115.67c For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation. Items the agency should monitor include any inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

1. Finding: 12 of 20 monitoring cases reviewed was not conducted for at least 90 days (does not include those unfounded or transferred, those were counted as meeting standard). Interviews and documentation disclosed during periodic status checks inmates were not asked or records not checked for any inmate disciplinary reports, housing, or program changes, nor did the monitors know for 90 days, they believed for as long as paperwork marked or about 12 weeks (84 days). Inmates were simply asked is everything ok. One case had no monitoring being conducted. Six of 20 monitoring cases reviewed started late. Note some documents were not signed by inmate and others included signing documents for dates after inmate departed facility.

CAP: Eliminate process of putting dates on forms before the meetings occur and signing all the paperwork upfront. Train monitors (and person assigning and preparing paperwork) that monitoring is for 90 days and can be extended when warranted. Provide the auditor copy of training and roster. After at least 90 days provide all monitoring forms following the audit to the auditor. Auditor will determine if longer time period is needed and conduct interviews. The facility designated two new personnel to do monitoring and the auditor was provided documentation of their training on proper monitoring. The auditor reviewed monitoring logs of seven cases during the CAP. On September 4th the auditor conducted interviews of the two monitors who were very knowledgeable of their monitoring responsibilities which was also evident in the monitoring documentation. Lawton Correctional Facility monitoring process was found to be compliant with the standard on September 4, 2018.

Standard 115.67d. In the case of inmates, such monitoring shall also include periodic status checks.

Findings. By policy done weekly and by standard and policy upon receiving accusation. Six of 20 were not done weekly.
Proposed CAP: Train monitors conduct weekly. Provide the auditor copy of training and roster. After at least 90 days provide all monitoring forms following the audit to the auditor. Auditor will determine if a longer time period is needed and conduct interviews. The facility designated two new personnel to do monitoring and the auditor was provided documentation of their training on proper monitoring. The auditor reviewed monitoring logs of seven cases during the CAP. On September 4th the auditor conducted interviews of the two monitors who were very knowledgeable of their monitoring responsibilities which was also evident in the monitoring documentation. Lawton Correctional Facility monitoring process was found to be compliant with the standard on September 4, 2018.

If any other individual who cooperates with an investigation expresses a fear of retaliation, The Lawton Correctional Facility takes appropriate measures to protect that individual against retaliation.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 states involuntary segregated housing for inmates who have alleged to have suffered sexual abuse may be used only after an assessment of all available housing alternatives has shown there are no other means of protecting the inmate; and use of protective custody to protect alleged victim is only used as a last resort for a very short time. If placed in segregated housing involuntarily they shall have access to programs, privileges, education, and work opportunities to the extent possible; and that the institution shall document any access to programs, privileges, education, or work opportunities that was restricted and that every 30 days, the institution shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population. There were no inmates who have alleged to have
suffered sexual abuse in protective custody during the on-site audit. Interviews of the Warden, PREA Compliance Manager, segregation supervisor and inmates, there was no instance of using segregation housing to protect inmates who had alleged to have been sexually abused in the last 12 months. The auditor also reviewed other Available Alternatives Assessment forms completed on the alleged victim; none of those reviewed resulted in an involuntary segregation placement but rather general population or other protective measures were used.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Auditors reviewed the PREA Allegation Spreadsheet from 2016, 2017, and 2018. There were 36 PREA cases in the last 12 months. Prior to the audit, the facility provided the auditor one PREA case from 2016, and 2017. During the on-site and interim report writing period the auditor requested and reviewed 21 specific cases (2016, 2017, 2018). Of the 21 cases reviewed by the auditor: two staff-on-inmate sexual abuse substantiated; one staff-on-inmate sexual abuse (voyeurism) unsubstantiated; two staff-on-inmate sexual abuse unfounded; one staff-on-inmate sexual harassment unfounded; two inmate-on-inmate sexual harassment unsubstantiated; one inmate-on-inmate sexual abuse substantiated; seven inmate-on-inmate sexual abuse unsubstantiated; and four were still under investigation.

Based on review of GEO Policy 5.1.2-E, Lawton Correctional Facility Policy 030601, Oklahoma DOC OP 040117, investigation tracking logs, and investigative cases; all PREA allegations are reviewed by the Department of Corrections OIG office who reviews the case and decides if it will go criminal or if the facility will investigate it. When the facility conducts the investigations, the investigation is done promptly, thoroughly, and objectively.

Based on review of GEO Policy 5.1.2-E, Lawton Correctional Facility Policy 030601, Oklahoma DOC OP 040117, investigation tracking logs, and investigative training records; sexual abuse allegations are investigated by investigators who have received special training in sexual abuse investigations.

The investigators stated that they collect the appropriate direct and circumstantial evidence, reviews the video tapes, interviews the alleged victim, suspected perpetrators, and witnesses. They also review prior complaints and reports of sexual abuse involving the suspected perpetrator. All investigations are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. The Investigator also stated that the credibility of the victim, suspect, or witness is always assessed on an individual basis. Polygraphs are not used in PREA investigations.

When conducting administrative investigations, the Investigator always makes a determination whether staff actions or failures to act contributed to the abuse. The auditors reviewed 21 investigation reports.
and found them to include a description of the incident, the evidence collected, and summaries of interviews.

Lawton Correctional Facility administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

An inmate who alleges sexual abuse shall not be required to submit to a polygraph examination as a condition for proceeding with the investigation. The credibility of an alleged victim, assailant, or witness shall be assessed on an individual basis and not on the status as an offender or staff member. Information regarding staff action or inaction that may have contributed to the alleged abuse shall be included in the investigative report.

Investigations are not ended because the victim or the abuser is no longer under the custody of the agency. This would also be the case if the alleged abuser was a staff member and resigned from the facility; the investigation would go on until its conclusion. The GEO Group retains all written reports for as long as the alleged abuser is incarcerated or employed by The GEO Group, plus five years.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

GEO Policy 5.1.2-A and Lawton Correctional Facility Policy 030601 identifies the minimum members of the review team, and covers the process for sexual abuse incident reviews to include a form the review team uses that addresses whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the institution; whether physical barriers in the area may enable abuse; the adequacy of staffing levels in that area during different shifts; and whether monitoring technology should be deployed or augmented to supplement supervision by staff. The auditor reviewed 18 incident reviews minutes that were randomly chosen from within the last 36 months. Thirteen of 15 reviews occurred within 30 days of the conclusion of the investigation; three did not require an incident review. The review team includes the Warden, Assistant Warden, Chief of Security, PREA Compliance Manager, Security Captain, Investigator, Health Service Administrator, and Mental Health; and receives input from line supervisors, investigators, and medical or mental health practitioners. The incident review was thorough in determining causes and better policies and practices to better prevent, detect, or respond to sexual abuse. The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at Lawton Correctional Facility; and they examine the area in Lawton Correctional Facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; assess the adequacy of staffing levels in that area during different shifts; assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. GEO has an excellent PREA after action review form that addresses all elements of the standard. The PREA Coordinator may be and has been consulted as part of the incident reviews. Incident review team members were interviewed and were very knowledgeable of the process.

GEO Policy 5.1.2-A requires the collection of uniform data that provides the minimum data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice. The agency collects accurate uniform data for every allegation of sexual abuse at facilities under its control using a standardized instrument. GEO collects accurate uniform data for every allegation of sexual abuse at facilities under its control using standardized instruments. GEO facilities provide monthly reports and PREA surveys to GEO headquarters. A monthly PREA Incident Tracking log is used to collect and provide the GEO PREA Coordinator data on sexual abuse and harassment incidents. Per conversation with GEO staff the data is aggregated. Upon request from DoJ, GEO provides the data. The auditor reviewed GEO PREA portal, Lawton Correctional Facility monthly PREA tracking log, GEO 2016 and 2017 annual PREA report, and the Oklahoma Annual 2016 PREA reports all of which included Lawton Correctional Facility data. Lawton Correctional Facility collects uniform data to be used by GEO and Oklahoma DOC. GEO does not contract its inmates to other facilities (115. 87 (e)).

GEO Policy 5.1.2-A requires GEO to review the data collected to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies; and to identify problem areas and take corrective actions. It is then provided to the agency contracted with, who produces an annual report with comparisons from previous years and corrective actions and posted on that agency website. The GEO annual report is very comprehensive in scope, provides data, an assessment of its PREA program and areas of focus, and includes the agency’s progress in meeting the PREA Standards. The GEO home page has a PREA link to its PREA page that lists its PREA related policies, reporting information, and the 2017 GEO PREA annual report. The auditor previously reviewed the GEO 2013, 2014, 2015, and 2016 PREA annual reports.

GEO Annual Report continues to be one of the better ones this auditor has reviewed. Reviewed GEO 2017 Annual Report which is posted on the GEO website. The GEO website PREA tab is easy to find and is very informative. The GEO 2017 Annual PREA Report included a description of key operational changes in 2017, 2017 PREA audits and certifications, definitions, total 2016 and 2017
allegations and substantiated cases, 2017 PREA allegations by facility; comparison and analysis of the 2016 and 2017 data, and 2017 program enhancements.

The auditor reviewed Oklahoma DOC 2016 Annual Report. The Lawton Correctional Facility data was listed in the report, and the report is on the Oklahoma DOC website.

GEO did complete a PREA audit of all the correctional facilities within the first cycle as required by the standard. The first cycle of PREA audits were conducted between August 2014 and September 2017. All GEO facilities have received a PREA audit since August 20, 2013. The agency is tracking with one-third of their facilities each year in the current second cycle. The final reports for each of these audits are published to the GEO public website. The auditor was provided full access to observe all areas of the facility and access to any staff member or inmate as requested. A private setting was provided for interviews and the facility was very accommodating with escorting inmates to and from the interview area in an organized and appropriate manner. Facility staff members were pleasant and forthcoming with information during formal and informal interviews and made themselves available timely. Audit notifications posted throughout the facility provided opportunity for inmates to send confidential letters to the auditor prior to the audit, although none were received. All documents and access to documents requested by auditor was made readily available for review.
