Description of any video or electronic monitoring technology (including any relevant information about where cameras are placed, where the control room is, retention of video, etc.):
The facility has 7 bullet cameras, 12 dome camera, 1 rotating dome camera and 1 Pan Tilt Zoom camera placed throughout the facility. These cameras include PTZ cameras, and fixed cameras. The cameras provide adequate coverage of inmate housing areas, and inmate accessed areas. The cameras are viewed in the main control area. The cameras are monitored by the security staff who work in this area. During the onsite audit the monitors were examined, the views of the cameras do not show any areas that would cause an issue of cross gender viewing.

Audit Narrative

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Jeff McLaughlin. We coordinated the dates for the onsite audits at the facility. During these conversations we outlined an overall audit schedule and notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit posting to the Agency PREA Coordinator on September 10, 2018, he then forwarded the posting to the facility. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour, and during the inmate and staff interviews. I did not receive any letters from inmates, nor staff.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The Agency PREA Coordinator had previously provided me a flash drive containing all Oklahoma Department of Corrections Policies and Procedures related to the Prison Rape Elimination Act. The facility PREA Compliance Manager provided me with a flash drive containing all facility level Policies and Procedures, as well as documentation that all Department and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted the YWCA of Oklahoma City who provides victim advocacy. They knew of no issues at the facility.

I also contacted Kathy Bell the Statewide SANE Coordinator. I verified that all SANE examinations in the State of Oklahoma are provided at no cost to the victim. I also confirmed that when a Sexual Assault Examination takes place a victim advocate is dispatched with the nurse, and provides victim advocacy during the examination, interviews and for any follow-up advocacy. Ms. Bell knew of no issues at the audited facility, nor at any other Oklahoma Department of Corrections Facility.

Agency level interviews:

I had conducted the agency level interviews on October 16, 2017. At that time I met with the Agency PREA Coordinator at his office in Oklahoma City, a portion of his interview was conducted at this time. I also interviewed investigative staff, as well as Region I Director Millicent Newton-Emby as the Agency Head Designee. I also had the opportunity to meet with Director Joe M. Allbaugh, we discussed the overall
aspects of the PREA Audits, as well as the overall agency implementation of the Prison Rape Elimination Act.

On November 9, 2018 I conducted a second set of agency level interviews. These interviews were conducted to ensure that nothing has changed from the original interviews.

**Onsite Audit Phase**

**Site Review:**

The Agency PREA Coordinator and I met with Warden/PREA Compliance Manager Aboutanaa El Habti on November 7, 2018 at approximately 7:30 a.m. to conduct a briefing and facility tour. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review. During the tour I had the opportunity to view all areas of the facility, no areas were not toured. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While on the housing units I observed the related PREA information, Audit Posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed log books on the housing units. During the facility tour we toured the Oklahoma Department of Corrections Administration Building since inmate orderlies from the audited facility were assigned to this building.

The inmate interviews began immediately following the facility tour. They were conducted in a conference room located in the administrative building, this conference room provided privacy for the interviews. The inmates were randomly selected from inmates on the housing units. During this process I interviewed inmates in the following categories:

During the interview process several targeted categories of inmates were not being housed at the facility. I conducted the interviews with all inmates in the same manner, a preamble to the interview was related to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews I utilized a copy of the initial PREA information received by inmates, Inmate Handbook, and Screening form to visually stimulate the inmate’s recollection of their initial intake process.

Upon completion of the inmate interviews the staff interviews were conducted in the same conference room. The staff interviews were conducted on all three days of the audit. During the staff interviews I interviewed staff who work in the Oklahoma Department of Corrections Administration Building since inmate orderlies from the audited facility were assigned to this building. The facility was currently working three shifts, interviews were conducted on all shifts. During the process I interviewed staff in the following categories:

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff were asked questions related to the Random Staff Interviews, and if they were in a targeted category, they were then asked questions pertaining to that area. During the interviews I utilized a copy of the training they received and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff’s recollection on the daily practices at the facility.
The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit and Post Audit Phases, with the applicable standard to each.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion. We discussed the need to limit the amount of time any inmate is assigned as an orderly to a specific building or area. I found that some of the inmate orderlies were becoming comfortable in their positions, and locations in which they worked. In turn the staff were then becoming comfortable with the inmates. Several substantiated incidents of Staff and Inmate sexual contact have been investigated at the facility, after reviewing the investigations, and interviewing the inmate involved in one of the incidents, I felt that this was one of many contributing factors to the incident. I further discussed this with Region I Director Millicent Newton-Embry during her interview as the Agency Head Designee, as a possible agency wide policy to further deter sexual abuse and sexual harassment, and create an overall safer environment for both staff and Inmates.

During the facility tour I identified several issues that were immediately corrected. These included a door in the library and one in the closed records building that could be locked, these doors were completely removed. A Spanish PREA Poster was missing in the Library area, this corrections was made.

During the staff interviews I found that the staff took ownership not only of the immediate areas they worked in, but the facility overall. This staff attitude helps in creating the respectful culture at the facility.

**Post Audit:**

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Prisons and Jails.
Facility Characteristics

The Kate Barnard Correctional Center is located at 3300 Martin Luther King Blvd., Oklahoma City, OK 73111. The facility is located on the same property as the Oklahoma Department of Corrections Administration Building. The immediate area surrounding the facility would best be described as commercial, with some residential properties.

The Kate Barnard Correctional Center (KBCC) opened in June 1977, (previously known as the Kate Barnard Community Treatment Center) with a capacity of 96 designed to house first-time incarcerated non-violent male inmates serving a sentence of 5 years or less. The facility was a former motel located near the intersection of Highway 74 and Interstate 44 in Oklahoma City. In 1992, the facility was converted to a female facility with a capacity of 162. In 2012, due to major infrastructure issues, the inmates were relocated to the current location, which at that time was the Hillside Community Corrections Center.

Prior to the Hillside Community Corrections Center, the facility was the Mabel Bassett Correctional Center (MBCC). In 2002, Oklahoma Department of Corrections purchased the Central Oklahoma Correctional Facility, a privately operated facility, located in McLoud, Oklahoma, and in 2003 the Mabel Bassett Correctional Center relocated to this facility. In 2017, KBCC transitioned from a female community corrections center, to a female minimum-security facility with a 260 head capacity.

When the facility transitioned from Community Corrections to a Minimum Security many changes had to be made to the infrastructure, to accommodate a prison population. The basement of the Administration building was renovated for the laundry, canteen, property room and library. The first floor contains the main secure entrance into the facility, main control and administrative offices. The second floor contains department level administrative offices.

The inmates are housed in two identical housing units. These units have an officer’s control room in the center hallway, with four pods off of this hallway. The overall cell construction limits any cross gender viewing, all cells have doors. The toilets and showers are located in a separate area that is covered by a curtain, the toilets have stall doors, and the showers have a second curtain for privacy. Some of the cells that have toilets in them, these cells were the Restricted Housing Unit when the facility was Mabel Bassett, these toilets are blocked from view by the door construction. The case manager’s offices are located on the housing units, the inmates have access to them on a daily basis Monday thru Friday.

The inmates have the opportunity to receive programming and education at the facility, these needs are provided in the Education Building.

Inmates work as orderly’s throughout several locations within the facility, to include the medical, administration buildings, and several other locations. The inmates are supervised by the staff who are assigned to these areas.

The facility has an OCI program at the facility. This program offers working opportunities to inmates doing telemarketing for True Energy. The inmates are supervised by contractors who work directly with the inmates.

The Oklahoma Department of Corrections closed records are kept at this facility. Numerous inmates work in this area, preparing these records to be digitized. The inmates are under constant supervision by staff.

The inmate movement is monitored by staff who are either posted within the housing units, as well as posted throughout the facility. The Unit Managers and Case Managers have offices on the units, this allows the inmates access to them during business hours.
Cameras are located throughout the facility, with the main monitors in the security control.

During my tour of the facility I found that information on the Prison Rape Elimination Act, and reporting avenues are located throughout all of the buildings at the facility, all of this information is also available to the inmates in their issued handbook.

I found that administrative staff, as well as general staff move throughout the compound frequently, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

Auditor Overall Compliance Determination

☑️ Exceeds Standard *(Substantially exceeds requirement of standards)*

☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy dictates the agency’s mandated zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency’s approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency wide PREA Coordinator. During the interview he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the Oklahoma Department of Corrections. Prior to becoming the Agency PREA Coordinator he was an Inspector General Investigator, as a prior investigator he brings a level of knowledge of the investigative process for PREA incidents, and has the experience of working on these investigations. I reviewed the Department of Corrections Organizational Chart and found that the PREA Coordinator is in the upper-level of the administration.

The agency has also designated a PREA Compliance Manager at each of their facilities. The audited facility has a PREA Compliance Manager who oversees the facilities compliance. During the interview with the PREA Compliance Manager he related that he has enough time to implement the PREA Standards at the facility.

During the interviews at the facility I was informed that the Agency PREA Coordinator is always accessible to answer questions and provide advice on PREA related issues. I personally observed this during the onsite audit process when he was answering questions via email or phone that arose at other facilities. I was also advised that the Agency PREA Coordinator will spot check the facilities to ensure that they are consistent in the application of the agency policies that apply to PREA.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agencies overall commitment to sexual safety in their facilities, this commitment is shared by all staff from the Director down.

(N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) ☒ Yes ☐ No ☐ NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates OR the response to 115.12(a)-1 is "NO".) ☒ Yes ☐ No ☐ NA

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections has eleven contracts with agencies to house inmates. I reviewed these contracts in their entirety, the contracts specify that the contractor has to adhere to specific Oklahoma Department of Corrections policies, one being OP-030601 the Oklahoma Prison Rape Elimination Act Policy.

I further confirmed during interviews that the facilities are monitored for compliance through direct assignment of staff at each facility. All contracted facilities were audited during the first auditing cycle, and will be audited during this auditing cycle.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment. The facility also has the ability to collapse posts and limit inmate activity and movement when needed.

The staffing plan was completed and reviewed by the Warden on August 8, 2018. During the documentation review I found that the Agency PREA Coordinator did not have a signature line on the staffing plan. I discussed this with Agency PREA Coordinator on December 5, 2018, he related that he has previously reviewed the staffing plan, but since the facility used to be a Community Corrections Center there was no signature line for him on the document. This was immediately corrected and I received a confirmation email form the Agency PREA Coordinator that the staffing plan was in fact reviewed, and an dated December 5, 2018.

During the interviews with the administration at the facility I confirmed a daily review of the staffing at the facility. The administration meets on a regular basis, this includes the Warden, Chief of Security and the Unit Manager. During this meeting the overall facility operations are discussed to include staffing.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed, and they have the ability to collapse other posts if need be.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and inmate interviews as well as reviewing the logs generated by the housing unit officers.
After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*  
☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*  
☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.
The facility is an all-female facility. It does not conduct any cross gender pat searches, nor does it restrict any inmates from having any out of cell opportunities. The facility is an open yard where the inmates are not restricted from any opportunities, pat searches are conducted but on a random basis. This was confirmed during both the staff and inmate interviews.

The above policies outline procedures and practices that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The policies further dictates that staff of the opposite gender announce their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The bathrooms in the housing units are constructed to provide privacy while toileting and showering. They have either curtains or doors to provide this privacy.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. This was further confirmed during the interview with the inmate who identified as transgender. I further confirmed with staff that if an inmate was being processed into the facility they would be coming from another correctional facility. If the inmate had identified as transgender or intersex at that facility, this information would be known prior to arrival.

The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials. I further verified this training during staff interviews and interview with the inmate who identifies as transgender.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard (*Substantially exceeds requirement of standards*)

☒ Meets Standard (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

☐ Does Not Meet Standard (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above directives as well as the Limited English Proficiency (LEP) Plan. This plan outlines procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and inmate interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency has a list of approved interpreters within the agency who are available when needed. This interpretation includes verbal as well as sign language.

The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.
During the inmate interviews I interviewed inmates with Cognitive Disabilities, Physical Disabilities, and hearing impaired. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies, and ensured that the inmates understood the reporting avenues.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed the Oklahoma Department of Corrections Applicant Questionnaire and Background Investigation Form. This form specifically asks the applicant about these activities, and all provisions enumerated in this standard. During the interviews with staff, and Human Resources I verified that the form is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff, and contractor interviews I verified they were asked these questions.

During the documentation review, and review of personnel files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.

The agency has also implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per Department policy. During the review of personnel files I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency utilized the Rap Back System through the Oklahoma Law Enforcement Telecommunications System. The Rap Back System notifies the agency if any changes occur in any Staff, Volunteer or Contractors Criminal History, this system runs constantly and negates the five year Criminal History Check.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The agency has made no substantial expansion to this facility nor is any planned. During the interviews I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.

The facility has not installed any new cameras since the last PREA Audit.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE

The agency is responsible for both the administrative and criminal investigations of all sexual abuse and sexual harassment incidents. These investigations are initially responded to at the facility level utilizing a team approach, where the administration, medical and mental health will initially be notified. The investigation is further conducted by the investigators in the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are highly trained in evidence collection and identification. I reviewed the training materials utilized, and interviewed investigators from this division. I found that they follow the evidence protocols outlined in the policy, and are well versed in evidence identification and collection.

The facility would utilize a SANE and Victim Advocates from the YWCA of Oklahoma City. The facility has a Memorandum of Understanding with this agency.

I also confirmed with the Oklahoma Statewide SANE Coordinator that when a SANE Examination takes place a victim advocate is also present to offer support to the victim. She explained that anyone, including incarcerated individuals can be brought to a hospital, the hospital would then contact the SANE Nurse and victim advocate, who would both respond. These services are offered free of charge, and an individual MOU is not needed for the process.

The protocols outlined in the policies are developmentally appropriate for youth, and exceed nationally accepted standards.

The aforementioned victim advocates are available to the victim during the forensic medical examination process, the investigatory interviews and they provide emotional support, crisis intervention, information, and referrals.

It should be noted that the facility has not had any allegations of Sexual Abuse nor Sexual Harassment where these services were utilized within the last 12 months.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The agency investigates all allegations. I verified that the investigative procedure is published on the agencies website.

The agency has policies in place that govern the investigative process. This was confirmed during policy review and investigator interviews.

In the past twelve months the facility has received twelve allegations, nine resulting in an administrative investigation and three resulting in criminal investigations.

EVIDENCE OF COMPLIANCE

The agency provides training to all employees on the areas enumerated in this standard. I reviewed the training curriculum and materials, I found that they address all areas. I further confirmed the training during the staff interviews and the review of training records. The employees receive the initial training and annual updates. It was confirmed during staff interviews that they also receive updates during roll calls.

All employees receive training on both genders and youthful inmates. This was confirmed during review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature, this was verified during the review of the sample signature logs. During the audit I interviewed the training officer who trains the staff assigned to the Administration Building, I confirmed that all staff who work at that location receive the training.

All staff at the facility are provided with a laminated card that outlines the required response to a PREA incident. Several of the interviewed staff showed me their cards during the interview process.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency has trained all volunteers and contractors who have contact with inmates on their responsibilities under the agency’s sexual abuse and sexual harassment prevention, detection, and response policies and procedures. This was confirmed during the volunteer and contractor interviews at the facility. I also confirmed this practice with the facilities Chaplin, who is the volunteer coordinator. They are trained at the agency level, and receive recertification training every two years. The facility has trained 207 volunteers and contractors to date.

The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. This was confirmed during the contractor interview. I further confirmed this with the facility training officer who is training the contractors on site.
The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility level, this was confirmed during review of the volunteer and contractor acknowledgment forms.

EVIDENCE OF COMPLIANCE

During the intake process inmates receive information explaining the agency’s zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. This was confirmed during the inmate and staff interviews, this information is located in the inmate handbook. I further confirmed this by reviewing inmate files and ensuring that the Zero Tolerance Acknowledgment for Offenders Forms were in the files and signed by the inmates.

The inmates receive an in depth orientation at which time the facility provided training on the Prison Rape Elimination Act. This was confirmed during the staff interviews and the inmate interviews. This orientation takes place within seven days of arriving at the facility.

The facility provides inmate education in formats accessible to all inmates, this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish, they also have
designated staff who can provide interpretation of other languages. The Case Managers would provide education to other individuals if needed.

The facility has all key information on the zero tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the inmate and staff interviews.

The Inmate Orientation on PREA is conducted by the PREA Compliance Manager. During his interview he explained to me the process he utilizes to conduct the orientation. He will play the video, verbally explain the reporting avenues and ensure no one has any questions.

EVIDENCE OF COMPLIANCE

All inmates are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identifies all areas of victimization enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if an inmate is transferred to another facility they would receive a screening again.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the case managers, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.
The facility would reassess an inmate’s risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate’s risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools are only available to case managers, medical if needed, and administration.

The agency further screens all inmate through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews.

The inmates are constantly being reassessed by their assigned Case Managers. The Case Managers are located on the housing units and are accessible to the inmates, or the case managers will tour the housing unit to interact with the inmates. This gives the Case Managers the opportunity to observe the inmates and ensure there is no change in their behavior or status. This was confirmed through interviews and watching the interaction between inmates and the Case Managers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

**EVIDENCE OF COMPLIANCE**

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and inmate interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate’s health and safety, and whether the placement would present management or security problems. I also confirmed that the inmates own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates.

I confirmed during interviews with the Unit Manager and Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy. I further confirmed this by reviewing the field file for the inmate at the facility who is identified as transgender.

The agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during agency level interviews, as well as inmate interviews, several inmates at the facility interviewed identified as gay, and bisexual.
After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

EVIDENCE OF COMPLAINECE

The agency has a policy prohibiting the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made. This policy addresses all provisions in the standard, the language in the policy meets all aspects of the standard.

This facility has had no incident where they have segregated an inmate due to being at high risk of sexual victimization.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The facility provides the inmates the information on reporting in the inmate handbook provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through the PREA reporting hotline at #73 on the phone, or to the Oklahoma State Bureau of Investigations, which is the agency's external reporting avenue. The instructions for the usage of these reporting avenues is extremely comprehensive and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the inmates. During the interviews with both staff and inmates I confirmed that they were aware of the reporting avenues, and that they can remain anonymous.

The agencies website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of inmates. The policy allows the staff to report directly to the Inspector Generals through a telephone number or email.

I found during the inmate interviews that the inmates who were interviewed felt that if something was happening they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all inmates, the agency has provided so many different reporting avenues that an inmate should feel comfortable with one of them.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Standard 115.52: Exhaustion of administrative remedies

115.52 (a)

☐ If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) ☒ Yes ☐ No ☐ NA

☐ At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? EVIDENCE OF COMPLIANCE

All provisions of this standard are addressed in the agencies Inmate/Offender Grievance Process. I reviewed this policy in its entirety. I further questioned staff on this procedure, they understood the process if an inmate filed a grievance pertaining to sexual abuse.

The audited facility did not have any grievances filed within the last 12 months relating to sexual abuse. This was confirmed through interviews and a memo from the facility.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

Access to outside confidential support services is outlined in the agencies policies and procedures. The inmate would have the ability to utilize the services provided through the YWCA of Oklahoma City. The services that the inmates would receive are the same as the level received in the community.

Through interviews I further established that follow up mental health care would be provided by the facility for any inmate who was involved in an incident.

All of the information required under this standard and all provisions is provided to the inmates, this was verified through review of the documentation and interviews.

It should be noted that the facility has not had any allegations of Sexual Abuse nor Sexual Harassment where these services were utilized within the last 12 months.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency policy states that any staff, volunteer and contractors shall immediately report to their supervisors or higher authority:

1. Any knowledge, suspicion, or other information regarding an incident of sexual abuse, assault or harassment that occurred in a facility/unit or other location, whether or not it is part of the agency;

2. Retaliation against inmates or staff who reported such incidents; and

3. Any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

The staff interviewed understood their responsibilities under this policy. During interviews with staff who reported an allegation I verified that they followed the policy.

The policy further states that staff is prohibited from revealing any information related to sexual abuse to anyone other than the extent necessary. All staff interviewed understood this requirement.

The agency would report to the Oklahoma Department of Human Services for any individual under the age of 18.

During the interviews of medical and mental health staff I confirmed their duty to report, they understood their obligations to report an incident to security staff.

As an agency all allegations are being reported to security and administration for immediate action. This was confirmed during staff interviews and review of the investigations from the audited facility and other facilities.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLAINECE

Through policy the agency has established procedures and practices that meet all of the requirements of the standard and provision. These include notification by the facility head to the head of the facility where the allegation allegedly took place within 72 hours, as well as documentation of the information received and notification. The policy further states that if an allegation is received in such a manner the facility needs to notify the Office of Fugitive Apprehensions and Investigations for investigation. I confirmed these policies and practices through documentation review of forwarded investigations at other facilities, as well as through staff interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE

The agency policies outline the initial response by staff. These policies include all of the provisions of the standard. The staff interviewed understood their responsibilities if they were the first responder to an allegation.

The contractors interviewed related that if they were a first responder they would request that the victim not take any actions that could destroy physical evidence, and then notify security staff.

I verified compliance during the interview process, as well policy and investigation review. During the audit I interviewed several staff who were first responders to incidents, I confirmed their immediate actions they took when the incident was reported. I concluded that their response was appropriate and in all incidents they protected possible evidence, and made the inmate’s safety their first priority..

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.
Standard 115.65: Coordinated response

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE

The facility has adopted the Oklahoma Prison Rape Elimination Act Policy OP-030601 as the overall institutional plan to respond to sexual abuse incidents. This plan dictates the actions and coordination between first responders, supervisors, administration, medical, mental health and the Office of Fugitive Apprehensions and Investigations. I confirmed the institutional plan through review of the plan, as well as during staff interviews.

In the past twelve months the facility has received twelve allegations, nine resulting in an administrative investigation and three resulting in criminal investigations. ☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

EVIDENCE OF COMPLIANCE

The agency has established a policy that meets this provisions of this standard. The agency has identified the facility designated monitors to monitor the inmate or staff member for alleged retaliation.

The agency has established through past incidents that they utilize housing transfers, as well as facility transfers of perpetrators to protect the victim in an incident. This was confirmed during review of investigations at other facilities and through staff interviews.

As previously mentioned the Case Managers and Unit Managers are located on the housing units, they would be assigned to help monitor the inmate on a daily basis to ensure that no issues were occurring.

I reviewed completed Protection Against Retaliation forms that show the monitoring of the inmates. All staff interviewed understood their obligation under the policy. I also interviewed an inmate who was the victim of a sexual abuse with a staff member, she related that she has spoken with the Warden, and Mental Health on a regular basis since the incident.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

During the policy review I established that the agency has policies in place that address all provisions of this standard. More importantly during the review of agency investigations, and staff interviews I found they understand the provisions of the standard and are applying them throughout their investigations.

The Administrative Investigators have received training on how to conduct the investigations at the facility level. They work closely with the Office of Fugitive Apprehensions and Investigations during any investigation. The members of this unit are highly trained sworn law enforcement officers who will conduct both in depth administrative investigations as well as all criminal investigations. After reviewing investigations throughout the agency, I was impressed with the consistency of the overall investigation process.

During the review of the investigation reports at this facility as well as other facilities I found that all substantiated allegations that violated criminal law were sent for a prosecutorial decision.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

EVIDENCE OF COMPLIANCE

The agency has established policies that address all provision of this standard. The agency utilizes the Sexual Assault Report, which is a data collection instrument utilized to collect all sexual abuse data.

The data is also collected from all contracted facilities.

Compliance was confirmed through review of completed data collection instruments, and staff interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency has polices in place that address all provisions of the standard. The agency PREA Coordinator reviews all collected data from both the agencies facilities as well as the contracted facilities. A report titled review of collected data is generated.

During staff interviews I confirmed that if a trend was identified while reviewing the data a corrective action plan would be developed for that facility and immediately be put into place.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

All agency facilities and contracted facilities were audited once during the auditing cycle from August 20, 2013, and August 20, 2016.

The agency had formulated their Audit Schedule for the current audit cycle utilizing a Frequently Asked Question from the PREA Resource Center dated April 23, 2014. The question and answer are as follows:

What happens to an agency’s three-year audit timeline if an agency fails to have the required minimum of one-third of its facilities audited by August 19, 2014?

The standards require generally that an agency must have “at least one-third” of its facilities audited during each one-year period, which began on August 20, 2013; and that all facilities must be audited by the conclusion of each three-year period, which began on the same date. See 28 C.F.R. § 115.401(a) & (b). Compliance with the audit timeline is evaluated both on a year-to-year basis and at the conclusion of the three-year audit cycle. Failure to comply with the audit timeline during the initial year of an audit cycle does not preclude compliance during years two and three of an audit cycle. Similarly, failure to comply with the audit timeline during the first two years of an audit cycle does not preclude compliance during the final year of each audit cycle. It is important to note that, for purposes of complying with standard 115.401(a) (requiring audits of each facility during the three-year audit cycle), agencies must ensure that each facility is audited at least once by August 19, 2016, and during every three-year anniversary thereafter.

The agency had scheduled all audits for the current auditing cycle on the three year anniversary of the facilities original PREA Audit, this in turn caused the agency to have only one audit completed during the first year of the current audit cycle.

The PREA Coordinator participated in a conference call with officials from the State of Oklahoma, and the Department of Justice, during this conference call they discussed this issue, and the confusion that was caused by this Frequently Asked Question was rectified. The State of Oklahoma has issued a new Certification of Assurance, stating that all facilities will be audited prior to the end of the current audit cycle.

The agency has completed all necessary audits for the second audit year of the current cycle, and are on track to complete the remaining audits within the third audit year.

During the audit process I was able to receive copies of all relevant documentation, conduct private interviews with staff and inmates, tour the complete facility, and receive confidential correspondence from both inmates and staff.
After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

**Standard 115.403: Audit contents and findings**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.403 (f)

- The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years PRECEDING THIS AGENCY AUDIT. In the case of single facility agencies, the auditor shall ensure that the facility’s last audit report was published. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or in the case of single facility agencies that there has never been a Final Audit Report issued.) ☒ Yes ☐ No ☐ NA

**Auditor Overall Compliance Determination**

☐ Exceeds Standard (*Substantially exceeds requirement of standards*)

☒ Meets Standard (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

☐ Does Not Meet Standard (*Requires Corrective Action*)

**EVIDENCE OF COMPLIANCE**

The agency has published all final audit reports on their website, this was confirmed by navigating to the page on the website and reviewing all of the audit reports.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.
