Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Marshall County Sheriff's Office contacted the auditor requesting a PREA audit of the detention center. Sheriff Danny Cryer signed a contract for service on July 16, 2018. Tentative dates for an on-site visit were scheduled for September 5&6, 2018. The Auditor furnished a notice of the audit to the compliance officer and requested her to post in several locations six weeks prior to on-site visits. She was asked to fill out the PRE-Audit Questionnaire Adult Prisons & Jails and return. After a review of the questionnaire, a PREA Compliance audit instrument checklist of policies/procedures and other documents with needed information prior to and during the site-visit portion of the audit, was sent to the facility and returned with the information requested.

On arrival at the Marshall County Detention Center on September 5, 2018, I met with Sheriff Danny Cryer, PREA Compliance Manager, Jail Administrator Henry Walker and the PREA Compliance Officer. The PREA Compliance Officer conducted a complete tour of the facility. The auditor was allowed to see all areas, including housing, kitchen and recreation area, noting locations of cameras and monitoring stations. During the tour the auditor talked with staff and inmates in the different areas. Formal interviews were conducted with staff to include Sheriff Danny Cryer, Jail Administrator Henry Walker, the Compliance officer and detention staff.

Staff interviewed were aware of their responsibilities under PREA and had received information either at in-service or annual Detention Officer training conducted by Sheriff Danny Cryer, who is a certified instructor, uses PREA resource center lesson plans. Sheriff Danny Cryer, when he was undersheriff, was also the PREA coordinator and instructor. Cryer, through this training and policy, has created a real culture of PREA throughout the facility.

On September 6, 2018 random inmates were selected for interview. Interviews were held in the Attorney visiting area of the jail, providing the most privacy for inmate responses. Inmates were selected from the DOC dorm A19, Female dorms A121 & 122 and Men's dorm A136B & A151B. All inmates were knowledgeable of PREA, stating that they had received information at Intake, through posters, inmate handbook and video.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Marshall County Detention Center is a county jail built in 2018, located in Madill, Oklahoma, the county seat of Marshall County. The facility has a capacity of 110 inmates. The facility, on the second day of the audit, had an inmate count of 44. The inmate population included male and female inmates, White, Black, American Indian, Hispanic, and Pacific Islanders. There were no juveniles housed in the facility. There are multiple dorms...DOC dorm, trustee dorm, 2 male, 2 female dorms, and 6 pods. There are fourteen employees assigned to the jail including the Jail Administrator. Three employees are on duty on each shift, staffing Intake/Booking, Floor Walker, and Monitoring Tower. The employees switch positions every two hours throughout the shift. All employees are trained in each of the three job duties, including PREA Standards for each area of responsibility. There is a recreation area with basketball goal contained inside the jail with video cameras, and food service is provided through inmate trustees.

Summary of Audit Findings

*The summary should include the number of standards exceeded, number of standards met, and number of standards not met, **along with a list of each of the standards in each category**. This discussion must also include corrective action recommendations where the facility does not meet the standard. The Marshall County Detention Center staffing plan is discussed at monthly meetings, along with other issues. There is a formal review annually by Sheriff Danny Cryer, Compliance Manager Henry Winkler, Jail administrator and the Compliance Officer. These meetings ensure that staffing meets Oklahoma State Jail Standards and the needs of the facility population. There are a sufficient number of cameras located throughout the facility, providing video monitoring to protect inmates from abuse. In the past twelve months there have been no deviations in staffing plan.

Marshall County Detention Center policy provides for Intermediate and/or higher level supervisory staff to make unannounced rounds to deter staff sexual abuse and mistreatment. Some rounds are conducted directly from the Jail Administrator's office, located in close proximity to the control room, not giving enough time for on-duty staff to announce. At other times the Sheriff, Undersheriff or compliance officer will enter through back doors to the facility directly into the hallways for unannounced rounds. Rounds are entered on the "daily site checks log sheets."

- ☐ **Exceeds Standard** (*Substantially exceeds requirement of standards*)
- ☒ **Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- ☐ **Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Marshall County Detention Center, by policy, prohibits cross gender strip searches, visual body cavity search, without court order or when conducted by a medical professional. Cross gender pat down searches of female inmates, absent exigent circumstances, are prohibited by policy. Any of these circumstances are documented by policy. There have been no documented instances of either in the last twelve months.

Staff is trained to announce prior to entering housing for inmates of the opposite sex. Inmates are able to shower and perform bodily functions out of view of staff of the opposite sex. By facility policy staff shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate genital status. In the past twelve months there have been no transgender inmates at the facility.

Sheriff Danny Cryer's training is specific on how to conduct cross-gender pat down searches and searches of cross-gender and intersex inmates in a respectful manner. This is included in both annual and in-service training.

In reviewing staff work schedules, interviews of both inmates and staff revealed there was always an adequate number of female staff on duty to search female inmates. The inmates were able to shower dress and perform other bodily functions outside the view opposite gender staff. And opposite gender staff always announce prior to entering the housing unit.
