Number of buildings:				
Auditors should count all buildings that are part of the facility, whether inmates are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.				
Number of inmate housing units:				
Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.		5

Audit Findings

Audit Narrative (including Audit Methodology)

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Jeff McLaughlin. We coordinated the dates for the onsite audits at the facility. During these conversations we outlined an overall audit schedule and notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit posting to the Agency PREA Coordinator on March 27, 2020, he then forwarded the posting to the facility. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour, and during the inmate and staff interviews. I did not receive any letters from inmates, nor staff.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The Agency PREA Coordinator had previously provided me a flash drive containing all Oklahoma Department of Corrections Policies and Procedures related to the Prison Rape Elimination Act. The facility PREA Compliance Manager provided me with a flash drive containing all facility level Policies and Procedures, as well as documentation that all Department and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted Project Safe who provides both SANE services and victim advocacy. They knew of no issues at the facility.

I had previously contacted Kathy Bell the Statewide SANE Coordinator. I verified that all SANE examinations in the State of Oklahoma are provided at no cost to the victim. I also confirmed that when a Sexual Assault Examination takes place a victim advocate is dispatched with the nurse, and provides victim advocacy during the examination, interviews and for any follow-up advocacy. Ms. Bell knew of no issues at the audited facility, nor at any other Oklahoma Department of Corrections Facility.

Agency level interviews:

I have conducted the agency level interviews throughout my scheduled two weeks of PREA Auditing for the Oklahoma Department of Corrections, this period was from 05/11/2020 through 5/22/2020. Due to the Covid 19 pandemic several interviews were conducted via telephone, other personnel who were allowed to travel were interviewed onsite at a facility. These interviews included the Director, Investigative Staff, Administrative Personnel and the PREA Coordinator. During these interviews I verified that there have been no changes in any agency process since the last audits conducted in October 2019.

Onsite Audit Phase

Site Review:

The audit was conducted during the Covid 19 Pandemic and the facility was on lockdown. The Agency, Facility, and Auditor took all necessary precautions outlined by the Oklahoma Department of Corrections. These precautions included temperature check prior to entering the facility, questionnaire, universal masking for all staff, inmates and visitors. During the facility tour social distancing was practiced. The staff and inmate interviews were conducted with the participants seated at minimum of 6 feet apart, and both wearing masks.

The Agency PREA Coordinator and I met with Warden Aboutanaa Elhabti and Deputy Warden/PREA Compliance Manager Matt McDonald on May 17, 2020 at approximately 8:00 a.m. to conduct a briefing and facility tour. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review. During the tour I had the opportunity to view all areas of the facility. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While on the housing units I observed the related PREA information, Audit Posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed log books on the housing units.

The inmate interviews began immediately following the facility tour. They were conducted in various offices throughout the facility, these offices provided privacy during the interviews. The inmates were randomly selected from inmates on the housing units. During this process I interviewed inmates in the following categories:

Interview Type	Number
Random Inmate Interviews	24
Youthful Inmates	0
Inmates with a Physical Disability	2
Inmates who are Blind, Deaf, or Hard of	
Hearing	2
Inmates who are Limited English Proficient	0
Inmates with a Cognitive Disability	2

Intersex	
Inmates in Segregated Housing for High Risk of	0
Sexual Victimization	
Inmates who Reported Sexual Abuse	1
Inmates who Reported Sexual Victimization	
During Risk Screening	4
Total Inmate Interviews	43

During the interview process several targeted categories of inmates were not being housed at the facility. I conducted the interviews with all inmates in the same manner, a preamble to the interview was related to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked

those additional questions. During the interviews I utilized a copy of the initial PREA information received by inmates, and Screening form to visually stimulate the inmate's recollection of their initial intake process.

The staff interviews were conducted in a conference room in the administration area. These interviews were conducted on all shifts, facility was currently working two shifts. During the process I interviewed staff in the following categories:

Interview Type	Number
Random Staff Interviews	13
Intermediate or Higher-Level Staff Conducting	
Unannounced Rounds and Intake Staff	2

Total Staff Interviews	

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff was asked questions related to the Random Staff Interviews, and if they were in a targeted category, they were then asked questions pertaining to that area. During the interviews I utilized a copy of the training they received and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff's recollection on the daily practices at the facility.

The onsite documentation review was conducted during all days of the audit process. The onsite documentation was reviewed at the source, all files, and facility documents were retrieved by me. The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit, and Post Audit Phases, with the applicable standard to each.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

During the staff interviews I found that the staff took ownership not only of the immediate areas they worked in, but the facility overall. This staff attitude helps in creating the respectful culture at the facility. This was further confirmed by the interviewed inmates who related that they are treated with respect by the staff.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Prisons and Jails.

Facility Characteristics

The Mabel Bassett Correctional Center, formerly Central Oklahoma Correctional Facility, was built in 1998 by Dominion Management Services and operated by Correctional Services Corporation (CSC) as a private prison. The Oklahoma Department of Corrections purchased and moved into the facility in May of 2003. Mabel Bassett Correctional Center sits on 113.6 acres (91.6 outside and 22 acres inside) in McLoud, Oklahoma. This is the largest female facility to house offenders in the State of Oklahoma.

Mabel Bassett Correctional Center houses female Death Row, Maximum, Medium, and Minimum-security offenders in three multiple occupancy cell housing units and one open bay/dorm housing unit. The Mabel Bassett Assessment and Reception Center opened in January 2008 and is the receiving point for female offenders entering the Department of Corrections system from county jails in Oklahoma's 77 counties.

The facility grounds are best described as a compound style facility, with the housing units, administrative buildings, education buildings, chapel, kitchen and other support buildings on the perimeter, and scattered throughout a main open area. Access to the facility is controlled by main control, which is located at the main entry in the administrative building. The facility has a perimeter fence with all inmate accessed buildings being located within the perimeter, the only exception to this is the warehouse/maintenance building which is located outside the compound. This building is accessed by approved inmates only, they are under supervision by the maintenance staff.

The housing units are constructed in several different ways. The three main housing units for the medium and maximum-security inmates, as well as the reception center, are constructed the same. These housing units are controlled and viewed by an officer in a raised/enclosed control room, from this control room the three blocks which make up a housing unit can be observed. The case managers have offices on the housing units, which allows access by the inmates at all times if necessary. At the time of the audit the facility was housing inmates in both cells and in bunks in the main area of the blocks. The toilets are located in the cells, and can only be viewed by walking to the cell door and looking directly into the window. The inmates sleeping in bunks in the main area utilize the toilet in an unoccupied cell.

The minimum housing unit is constructed in the same manner with a main control room, which has a view into all of the blocks, these blocks do not have cells. All inmates are housed in bunks, and utilize a common area for showering and toileting. The case manager's offices in this area are located outside of the blocks.

The Segregated Housing Unit has 18 total cells, with one being used to house a female death row inmate. The shower in this area has a curtain which allows privacy, all toilets are located within the cells.

The juveniles at the facility are housed in a completely separate building, this housing unit is a dormitory style housing unit. At the time of the onsite audit the facility was not housing any juvenile offenders.

The facility offers the following programs to the inmates:

PROGRAMS

EDUCATION

The education program is based on a five-tier system. Based upon individual needs determined through diagnostic testing and sentence information, inmates are placed in an appropriate tier. The tiers include literacy, adult basic education, general equivalency diploma, college and reintegration educational programs.

SUBSTANCE ABUSE TREATMENT

Many inmates need substance abuse treatment. MBCC Substance Abuse Treatment teaches inmates ways to avoid drug and alcohol use, while also helping them develop cognitive, social, emotional, and coping skills needed to avoid using.

OKLAHOMA CORRECTIONAL INDUSTRIES (OCI)

Inmates along with a salaried supervisor operate the customer service center. This center is responsible for taking statewide OCI catalog orders and answering customer inquiries. OCI employs 12 inmates.

CAREERTECH

MBCC inmates can get technical training through a CareerTech Skills Center, which trains them for workforce entry after release. CareerTech also helps inmates find skill-related employment after release.

SPECIALIZED UNITS

A 24-7 Infirmary provides medical care for those requiring intensive monitoring and treatment. A medical unit houses inmates whose conditions need routine monitoring and ongoing medical care. A mental health unit treats inmates with serious mental illnesses that prevent them from living in general population.

Other units include the Delayed Sentencing Program for 18 to 22-year-olds meeting requirements set forth in statute, and the Youthful Offenders Program for individuals 18 and younger adjudicated as adults.

GUARDIAN ANGELS

The Guardian Angels Program provides senior citizens, handicapped individuals, and other citizens of the state a well-trained canine companion, allows inmates to give back to the citizens, and gives shelter dogs a second chance at a happy and fulfilling life. Volunteers with Harrah Church, who call themselves The Bassett Hounds, help provide food, treats and toys. More than 200 dogs have graduated the program.

COMESTOLOGY SCHOOL

The cosmetology school opened with 20 inmate students. The school is funded through the R.I.S.E. program (Re-entry Investment/Student Education), a non-profit organization providing state licensed cosmetology master instructors teaching cosmetology skills to incarcerated women. Program founder and executive director Christie Luther Downing provides year-long training, which includes testing, license, and job placement prior to release.

GREENWAVE CONCEPTS

Greenwave Concepts, LLC, a private enterprise, partners with the ODOC, to operate a telemarketing center at MBCC. Greenwave utilizes inmate workers to market electricity sales.

THE LAST MILE

The Last Mile began with 18 inmates committing to the year-long program which is made available through a grant from the Chan Zuckerberg Initiative. Students learn several programming languages to gain technology skills in web and program design. This re-entry program at MBCC is the first in the state.

During my tour of the facility I found that all housing units have reminders posted at the entrances informing male staff to announce their presence upon entry. The information on the Prison Rape Elimination Act, and

reporting avenues are located throughout all of the buildings at the facility, all of this information is also available to the inmates in their issued handbook.

I found that administrative staff, as well as general staff moves throughout the compound frequently, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

During the onsite audit I was impressed with the overall culture of the facility, and the professional as well as respectful treatment of the inmates. I strongly believe that this culture helps to maintain the safe environment at the facility, and has built a confidence in the inmates to report any issues directly to staff. This was corroborated during my interviews with the inmates during the onsite audit.

harassment and further outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency wide PREA Coordinator. During the interview he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the Oklahoma Department of Corrections. Prior to becoming the Agency PREA Coordinator, he was an Inspector General Investigator, as a prior investigator he brings a level of knowledge of the investigative process for PREA incidents, and has the experience of working on these investigations. The PREA Coordinator works directly with the PREA Manager, the PREA Manager is a second agency level position. This position is also dedicated to the implementation of the PREA Standards throughout the OKDOC. During the second audit cycle audits of the OKDOC facilities, every Warden and PREA Compliance Manager stated that the PREA Coordinator and the PREA Manager are always available to answer questions and provide advice on the implementation of the PREA policies.

The agency has also designated a PREA Compliance Manager at each of their facilities. During the interview the PREA Compliance Manager they related that they have enough time to implement the PREA Standards at the facility. During the onsite audit I found that the PREA Compliance Manager is making routine tours of the facility to ensure overall operational safety, which includes sexual safety.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

I reviewed these contracts in their entirety, the contracts specify that the contractor has to adhere to specific Oklahoma Department of Corrections policies, one being OP-030601 the Oklahoma Prison Rape Elimination Act Policy.		
I further confirmed during interviews that the facilities are monitored for compliance through direct assignment of staff at each facility. All contracted facilities were audited during the first auditing cycle, and will be audited during this auditing cycle.		
After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed, and they have the ability to collapse other posts if need be.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and inmate interviews as well as reviewing the logs generated by the housing unit officers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

	\boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The facility is an all-female facility. It does not conduct any cross gender pat searches, nor does it restrict any inmates from having any out of cell opportunities. The facility is an open yard where the inmates are not restricted from any opportunities, pat searches are conducted but on a random basis. This was confirmed during both the staff and inmate interviews.

The above policies outline procedures and practices that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The policies further dictate that staff of the opposite gender announces their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The bathrooms in the housing units are constructed to provide privacy while performing bodily functions and showering. This is accomplished in several different ways. In the three main housing units the toilets are located in the cells offset from the window in the door, the showers are located on both tiers, these showers all have curtains. The shower curtains have either a clear portion on the bottom or are cut to allow officers to view the feet of the inmate. The inmates who are housed in the dayroom areas of these units utilize an empty cell to perform bodily functions, the door has been replaced with a curtain. The open dormitory housing unit has separate bathroom areas on each pod, these toilets are blocked from view with a partition, and the showers have curtains. The housing in the medical area has a separate private shower with a curtain, and the toilets are offset in the rooms for privacy. The unit utilized to house the juvenile offenders has a bathroom with a door on it, the shower has a curtain for additional privacy.

All bathrooms located throughout the facility have operational doors for privacy while performing bodily functions although the doors do not lock for security purposes.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. I further confirmed with staff that if an inmate was being processed into the facility they would be coming from another correctional facility. If the inmate had identified as transgender or intersex at that facility, this information would be known prior to arrival.

The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

Auditor Overall Compliance Determination

The agency has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above directives as well as the Limited English Proficiency (LEP) Plan. This plan outlines procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and inmate interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency has a list of approved interpreters within the agency who are available when needed. This interpretation includes verbal as well as sign language.

The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.

During the inmate interviews I interviewed inmates with Cognitive Disabilities and hard of hearing. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies, and ensured that the inmates understood the reporting avenues.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed the Oklahoma Department of Corrections Applicant Questionnaire and Background Investigation Form. This form specifically asks the applicant about these activities. During the interviews with staff, and Human Resources I verified that the form is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff interviews I verified they were asked these questions.

During the documentation review, and review of personnel files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.

The agency has also implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per Department policy. During the review of personnel files, I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency utilized the Rap Back System through the Oklahoma Law Enforcement Telecommunications System. The Rap Back System notifies the agency if any changes occur in any Staff, Volunteer, or Contractors Criminal History, this system runs constantly and negates the five-year Criminal History Check.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The agency has made no substantial expansion to this facility nor is any planned. During the interviews I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.
The facility has not installed cameras since the last PREA Audit. During the interviews I confirmed that if any camera installation takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.
The Agency utilizes Attachment A and B of OP-150101 for any proposed new construction or new renovation. Both forms direct that the agency's ability to protect inmates from sexual abuse must be taken into consideration. This new construction or renovations must be approved by the Regional Director and Chief of Operations.
After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

utilizing a team approach, where the administration, medical and mental health will be notified. The investigation is further conducted by the investigators in the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are highly trained in evidence collection and identification. I reviewed the training materials utilized, and interviewed investigators from this division. I found that they follow the evidence protocols outlined in the policy, and are well versed in evidence identification and collection.

The facility would utilize a SANE and Victim Advocate from Project Safe. The facility has a Memorandum of Understanding with Project Safe. I contacted the supervisor and confirmed that they provide the services outlined in the MOU.

I also confirmed with the Oklahoma Statewide SANE Coordinator that when a SANE Examination takes place a victim advocate is also present to offer support to the victim. She explained that anyone, including incarcerated individuals can be brought to a hospital, the hospital would then contact the SANE Nurse and victim advocate, who would both respond. These services are offered free of charge, and an individual MOU is not needed for the process.

The protocols outlined in the policies are developmentally appropriate for youth, and exceed nationally accepted standards.

The aforementioned victim advocates are available to the victim during the forensic medical examination process, the investigatory interviews and they provide emotional support, crisis intervention, information, and referrals.

It should be noted that the facility has not had any allegations of Sexual Abuse where these services were utilized within the last 12 months.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The agency ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. This was confirmed through review of polices which outline the procedures for investigating sexual abuse and sexual harassment. I further verified all allegations are investigated during investigator interviews, staff interviews, and review of the agency investigative reports.

The agency investigates all allegations. I verified that the investigative procedure is published on the agency's website.

The agency has policies in place that govern the investigative process. This was confirmed during policy review and investigator interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The agency provides yearly training to all employees on the areas enumerated in this standard. I reviewed the training curriculum and materials, I found that they address all areas. I further confirmed the training during the staff interviews and the review of training records. The employees receive the initial training and annual updates. It was confirmed during staff interviews that they also receive updates during roll calls.

All employees receive training on interacting with males, females, transgender, and youthful inmates. This was confirmed during review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature, this was verified during the review of the sample signature logs.

All staff at the facility is provided with a laminated card that outlines the required response to a PREA incident. Several of the interviewed staff showed me their cards during the interview process.

The training provided by the agency is created yearly by the PREA Coordinator. At the beginning of each year he meets with all training officers and provides them with the yearly training and explains any changes to the training. The PREA Coordinator is constantly improving on the training materials, and during our many discussions we talk about how to better train staff on the prevention of sexual abuse, and what additional training is most beneficial. He has incorporated this into the staff training, providing the most up to date information to the OKDOC staff.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

EVIDENCE OF COMPLIANCE:

The agency has trained all volunteers and contractors who have contact with inmates on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. I also confirmed this practice with the agency Chaplin's, who are designated the volunteer coordinators. The volunteers are trained at the agency level, and receive recertification training every two years. This training consists of a one-day training, this training includes the agencies zero tolerance policy and PREA. The facility has trained 640 volunteers and 12

contractors who currently have contact with inmates at the facility. No contractors nor volunteers were available during the audit due to the facility lockdown resulting from the Covid 19 pandemic.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility level, this was confirmed during review of the volunteer and contractor acknowledgment forms.

The agency is far exceeding the expectations of the standard. They are training the volunteers every two years and ensuring they are aware of the zero-tolerance policy and PREA. The contractors at the facility will attend training with the facility staff, during this training they are receiving the same information as the employees.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

EVIDENCE OF COMPLIANCE:
During the intake process inmates receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment, this information is located in the inmate handbook. This was confirmed

during the inmate and staff interviews, I further confirmed this by reviewing inmate files and ensuring

that the Zero Tolerance Acknowledgment for Offenders Forms were in the files and signed by the inmates.

The inmates receive an in-depth orientation at which time the facility provides training on the Prison Rape Elimination Act. This was confirmed during the staff interviews and the inmate interviews. This orientation takes place within seven days of arriving at the facility.

The facility provides inmate education in formats accessible to all inmates, this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish, they also have designated staff who can provide interpretation of other languages. The Case Mangers confirmed they would provide education to other individuals if needed.

The facility has all key information on the zero-tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the inmate and staff interviews.

I conducted several interviews with inmates who have been in custody at several OKDOC facilities. They confirmed that they received training and education at every facility they were transferred to. I further confirmed this by reviewing the inmate files, several inmates had the Zero Tolerance Acknowledgment for Offenders Forms from other facilities in their file.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

EVIDEN	CE OF COMPLIANCE:	
The agency is responsible for both the administrative and criminal investigations of all sexual abuse and sexual harassment incidents. These investigations are conducted by the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are trained in conducting criminal investigations. The training they have received includes the use of Miranda and Garrity warnings, techniques for interviewing sexual abuse victims, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. This was confirmed during the investigator interviews, investigation review, and policy review.		
	ncy documents all training attended by the investigators. This was confirmed during the swith the investigators, as well as review of the training records.	
	agency investigators are certified through the Oklahoma Council on Law Enforcement n and Training, and have received extensive training in criminal investigation. The	

investigators have also attended specific training courses on sexual abuse investigation.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

All full and part-time medical and mental health care practitioners have been trained on the following:

- How to detect and assess signs of sexual abuse and sexual harassment;
- How to preserve physical evidence of sexual abuse;
- How to respond effectively and professionally to victims of sexual abuse and sexual harassment; and
- How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

This was confirmed by reviewing the training materials utilized by the Oklahoma Department of Corrections, and during the review of the PREA Training for Medical & Mental Health Course Rosters at the facility. I also confirmed this training with the medical and mental health staff during interviews. The medical staff at the facility does not conduct sexual assault examinations.

The medical and mental health care practitioners also receive the training mandated for employees under § 115.31 or for contractors and volunteers under § 115.32, depending upon the practitioner's status at the agency. This was confirmed during the review of training rosters at the facility. I also confirmed this training with the medical and mental health staff during interviews.

The facility is providing this training on a yearly basis to all medical and mental health care practitioners. This practice far exceeds the requirement of the standard. They have also created a Medical PREA binder with all training materials, policy, and a flow chart to utilize during incidents. This is utilized by staff as a refresher and also as a quick reference during an incident.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

NCE OF COMPLIANCE:

The facility is the reception point for all female offenders entering into Oklahoma DOC custody. These inmates are screened upon entry into the facility and held separate from the general population until the classification period is complete. The inmates will then be assigned to one of the four female facilities operated by the agency. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identify all areas of victimization and abusiveness enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments.

If an inmate transfers into the facility from one of the other Oklahoma DOC female facilities they are screened again. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identify all areas of victimization and abusiveness enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if an inmate is transferred to another facility, they would receive a screening again.

The screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the case managers, and they are taking into considerations all information available to them at the time

of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess an inmate's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews. Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is only available to case managers, medical if needed, and administration. The screening information is stored in the inmate field files, which are kept in a locked filing cabinet inside the case manager's office.

The agency further screens all inmate through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews.

The inmates are constantly being reassessed by the Unit Managers and their assigned Case Managers. The Unit Managers and Case Managers are located on the housing units and are accessible to the inmates, or they will tour the housing unit to interact with the inmates. This gives the Unit Managers and Case Managers the opportunity to observe the inmates and ensure there is no change in their behavior or status. The Case Managers meet with each inmate on their caseload once a month, and make case notes in the Offender Management System. This was confirmed through interviews and watching the interaction between inmates and the Unit Managers and Case Managers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. I also confirmed that the inmate's own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates.

I confirmed during interviews with the Unit Managers and Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy.

Neither the agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during agency level interviews, as well as inmate interviews, several inmates interviewed at the facility identified as gay, and bisexual.

EVIDENCE OF COMPLIANCE:

The facility provides the inmates the information on reporting in the inmate handbook provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through the PREA reporting hotline at #73 on the phone, or to the Oklahoma State Bureau of Investigations, which is the agencies external reporting avenue. The instructions for the usage of these reporting avenues is extremely comprehensive and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the inmates. During the interviews with both staff and inmates I confirmed that they were aware of the reporting avenues and that they can remain anonymous.

The agencies website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of inmates. The policy allows the staff to report directly to the Inspector Generals through a telephone number or email. All interviewed staff was aware of these reporting avenues.

I found during the inmate interviews that the inmates who were interviewed felt that if something was happening, they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all inmates, the agency has provided so many different reporting avenues that an inmate should feel comfortable with one of them.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

Exceeds Standard (Substantially exceeds requirement of standards)
Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE:

Access to outside confidential support services is outlined in the agencies policies and procedures. The inmate would have the ability to utilize the services provided through Project Safe. These services are outlined in the inmate handbook, and would be provided to inmates involved in an incident. The services that the inmates would receive are the same as the level received in the community, this was confirmed with the supervisor at Project Safe.

Through interviews I further established that follow up mental health care would be provided by the facility for any inmate victim or abuser who was involved in an incident.

The PREA Compliance Manager would inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws. This was confirmed during interviews.

The facility has provided the contact information for Project Safe to inmates involved in incidents, it is unknown if they contacted the agency due to confidentiality. No inmates were transported for sexual assault examinations where these services were utilized.

The agency holds a MOU with the Project Safe for the services outlined in the standard.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The agency has established third party reporting methods in policy, these methods allow inmates to report for other inmates and outside individuals to report. The agencies website outlines the third party reporting avenues, this was confirmed through review of the agency website. The website has the following posted:

ODOC accepts and investigates reports regarding allegations or knowledge of sexual abuse of offenders from third parties (family, friends, clergy, vendors, contractors, or any other person having knowledge of an incident).

- 1. Send an email to preareport@doc.ok.gov
- 2. Call the PREA Reporting line at 1(855) 871-4139
- 3. Call the ODOC Fugitive Apprehension and Investigations at (405) 425-2571
- 4. Verbally report to a DOC facility administrator or staff member ODOC Facility Information

The facility has third party reporting avenues posted in areas in the facility where they can be viewed by visitors.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

	Exceeds Standard (Substantially exceeds requirement of standards)
\boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

EVIDENCE OF COMPLIANCE:

The agency policy states that any staff, volunteer, and contractors shall immediately report to their supervisors or higher authority:

- 1. Any knowledge, suspicion, or other information regarding an incident of sexual abuse, assault, or harassment that occurred in a facility/unit or other location, whether or not it is part of the agency;
- 2. Retaliation against inmates or staff who reported such incidents; and
- 3. Any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

The staff interviewed understood their responsibilities under this policy. During interviews with staff who reported an allegation I verified that they followed the policy.

The policy further states that staff are prohibited from revealing any information related to sexual abuse to anyone other than the extent necessary. All staff interviewed understood this requirement.

The agency would report to the Oklahoma Department of Human Services for any individual under the age of 18.

During the interviews of medical and mental health staff I confirmed their duty to report, they understood their obligations to report an incident to security staff.

As an agency all allegations are being reported to security and administration for immediate action. This was confirmed during staff interviews and review of the investigations from the audited facility and other facilities.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The agency has policy in place that address staff discipline for a violation of any provision of their Prison Rape Elimination Act policy, as well as any other policy that governs staff conduct. I confirmed the utilization of the discipline through review of the agency investigations, and staff interviews.

The audited facility has had one staff member who resigned prior to the incident being reported. At the completion of the investigation the investigators filed criminal charges on the former staff member. They also had one staff member who was disciplined after an incident at a different Oklahoma DOC facility.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLAINCE

The medical personnel ensure that victims of sexual assault receive prompt and appropriate medical intervention. The nature and scope are determined by medical and mental health practitioners according to their professional judgment.

The facility has 24-hour medical coverage and will respond immediately to a PREA incident if needed. This was confirmed during staff interviews.

The policy further states that prophylactic treatment and testing is offered to the patient, as well as follow up care for sexually transmitted or other communicable diseases. An evaluation by a mental health provider is completed for crisis intervention counseling and long term follow up plans.

The above services are offered at no financial cost to the inmate. These policies and procedures were confirmed with the medical and mental health staff during interviews.

EVIDENCE OF COMPLIANCE:

The medical personnel ensure that victims of sexual assault receive prompt and appropriate medical follow up treatment. The nature and scope are determined by medical and mental health practitioners according to their professional judgment.

The facility has 24-hour medical coverage and the medical staff will be involved in the PREA incident from the beginning. The medical staff confirmed they would see any inmate who returns from a sexual assault examination. All prescriptions would be confirmed with a facility medical provider and filled. This was confirmed during staff interviews and investigation review.

The policy further states that prophylactic treatment and testing is offered to the patient, as well as follow up care for sexually transmitted or other communicable diseases. An evaluation by a mental health provider is completed for crisis intervention counseling and long term follow up plans.

The above services are offered at no financial cost to the inmate. These policies and procedures were confirmed with the medical and mental health staff during interviews.

The report includes a comparison of the current year's data and corrective actions with those from prior years and provides an assessment of the agency's progress in addressing sexual abuse.

The agency's report is approved by the agency head and made readily available to the public through the agency website at doc.ok.gov.

The agency has redacted any material from the reports that would present a clear and specific threat to the safety and security of its facilities.

The PREA Coordinator and PREA Manager continuously evaluate the data collected from every facility to better prevent sexual abuse and sexual harassment within the facilities and contracted facilities of the OKDOC. During my tenure as a PREA Auditor I found the OKDOC PREA Coordinator and PREA Manager one of the most dedicated to the prevention of sexual abuse and sexual harassment. They utilize the identified trends in the creation of yearly training to better prevent sexual abuse and sexual harassment.

During staff interviews I confirmed that if a trend was identified while reviewing the data a corrective action plan would be developed for that facility and immediately be put into place.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.
