COMMUNITY SENTENCING

A $ents-able
Alternative to Incarceration

FY 2013 Annual Report
The statutory purposes of the Oklahoma Community Sentencing Act are to:

1. Protect the public;
2. Establish a statewide Community Sentencing system;
3. Adequately supervise felony offenders punished under a court-ordered community sentence;
4. Provide a continuum of sanctions to the court for eligible felony offenders sentenced to a community sentence within the community sentencing system;
5. Increase the availability of punishment and treatment options to eligible felony offenders;
6. Improve the criminal justice system within this State through public/private partnerships, reciprocal and interlocal governmental agreements, and interagency cooperation and collaboration; and
7. Operate effectively within the allocation of state and local resources for the criminal justice system.

Introduction

By Becky Lawmaster

The Oklahoma Community Sentencing Act was implemented in pilot councils in March 2000. As of June 30, 2013, the community sentencing system had been operational on a statewide basis for 13 full years. At the conclusion of FY 2013 29 funded councils, encompassing 46 counties, were participating.

Community Sentencing is a “cents-able” community punishment and a proven investment in public safety.
The Oklahoma Community Sentencing Act provides for each county to establish a community sentencing system, however, active participation and the request for funding remain optional. During FY 2013 funding was provided for 29 sentencing systems. Of those, 19 were single county and 10 were multi-county systems. The 29 sentencing systems, or planning councils, encompass 46 of the state’s 77 counties. Figure 1 depicts participating counties.
