

CYBER NOTE: Oklahoma Cybersecurity Alliance Launches COVID-19 Website

INFORMATION: The Oklahoma Office of Management & Enterprise Services, Oklahoma Cybersecurity Alliance (OCA), along with its cybersecurity partners, are currently working to provide Oklahomans with helpful information to address cybersecurity concerns surrounding the COVID-19 situation. Cyber threat actors are taking advantage of uncertainty surrounding the virus by using malware, phishing campaigns, fraudulent websites, and other malicious actions to cause harm. These threats are designed to steal information or compromise information systems.

To provide current resources on these issues, OCA has created a COVID-19 Cybersecurity Information website. This website includes information such as intelligence on COVID-19 malware, security tips for organizations, security tips for personnel working from home, and more. OCA is working diligently to update this page as resources become available.

The website may be accessed at the following

link: https://cybersecurity.ok.gov/content/cybersecurity_covid

CONTACT: This information is shared for situational awareness. If you are looking for a specific type of cybersecurity resource that is not listed on the website, please contact okisac@omes.ok.gov. Additionally, if you would like to report cyber incidents, either relating to COVID-19 or otherwise, please contact the Oklahoma Information Fusion Center at fusion@osbi.ok.gov or (405) 842-8534. Reports of any suspicious cyber activity may also be submitted to Oklahoma CyberCommand at cybercommand@omes.ok.gov.

FEEDBACK: Please take a moment to complete this brief survey and help evaluate the quality, value, and relevance of our products. Your response will help us serve you more effectively and efficiently in the future. Thank you for your assistance. Click the link below to take the survey. If the link does not work, copy and paste it into your browser.
