

Dish Chemical Pro D Detergent

- Pro-D is a liquid chlorinated mechanical dishwash Industrial dish detergent with a high concentration of cleaning components.
- It is balanced, chlorine-fortified formulation in ready-to-wash liquid form.
- Gives each dish a balanced chemical attack on soil.
- Because it's chlorinated, PRO-D provides control of food stains and protein soils, good rinsability and eliminates odor problems.
- It is especially versatile as it works well in high or low temperature ware-washing applications.
- Sold in 5-gallon containers.
