- Breathable liner with Aegis® antimicrobial treatment
- Oil and slip resistant rubber outsole for superior traction in outdoor work conditions
- NTOA member tested and approved
- Free optional fit inserts included

The Propper Series 100® 8" Waterproof Boot delivers mission-ready performance with AR 670-1 compliant design for military professionals and demanding work environments. Engineered with waterproof cattle hide leather and rugged 1000D Cordura® nylon, these boots feature a NATO speed lace system for quick deployment and removable fit inserts. The triple density rubber foundation and specialized arch design withstand fast-roping demands while premium memory foam insoles ensure all-day comfortable wear for operators facing the most demanding environments.
