

Propper Series 100® 6" Chelsea Comp Toe Boot

SKU: F4535

- Polishable full-grain leather
- ASTM F2413-11 composite safety toe that meets or exceeds I/C 75 impact and compression resistance
- EH Electrical Hazard protection
- Premium memory foam insole for all-day comfort
- Polyester stretch elastic gore for easy on and off
- Breathable liner wicks moisture, regulates temperature, and features Aegis® odor prevention
- Oil- and slip-resistant rubber outsole with arch design resists ladder, rope wear
- Open cell air mesh foam provides full foot air circulation for maximum comfort

When long shifts demand both protection and comfort, the Series 100® 6" Chelsea Comp Toe Boot delivers reliable performance you can depend on. Its ASTM F2413-11 rated composite safety toe meets I/C 75 impact and compression resistance standards, while electrical hazard protection keeps you safe on the job. Built from polishable full-grain leather with a slip-resistant rubber outsole, this boot combines durability with sure footing across demanding work environments. The elastic gore design allows quick on-and-off transitions, and a premium memory foam insole provides all-day comfort through extended wear. Engineered with true US sizing and breathable materials treated with Aegis® to prevent odor, it's built for professionals who need dependable footwear that performs shift after shift.
