STATE QUESTION

STATE QUESTION NO. 620

INITIATIVE PETITION NO. 339

This measure amends Article V, Section 26 of the Oklahoma Constitution. It sets the dates on which the regular session of the Legislature can be held. The Legislature must meet every year at noon on the first Monday in February. Its session must be finished by five p.m. on the last Friday in May every year.

In odd-numbered years, the regular session would also include one day in January. The Legislature would meet at noon on the first Tuesday after the first Monday in January. It would recess not later than five p.m. on that same day. On that one day the Legislature could only perform limited Constitutional duties. Those duties include publishing state election results and organizing itself. The regular session would resume at noon on the first Monday in February of that year.

STATE QUESTIONS

STATE QUESTION NO. 623

LEGISLATIVE REFERENDUM NO. 277

This measure amends Section 19 of Article II of the State Constitution. Presently, jury trials are allowed for civil cases involving \$100.00 or more and for criminal cases with fines of \$100.00 or more. This measure would raise the requirement to more than \$1,500.00 for both civil cases and criminal cases. Presently six person juries are allowed only in some civil cases involving less than \$2,500.00. This measure would require 12 person juries in civil trials involving more than \$10,000.00 and for all felony trials. Other trials would require six person juries. The parties could agree to smaller juries in any case. Presently, unanimous jury verdicts are required only in felony trials. This measure would require unanimous verdicts only in criminal cases with punishment exceeding six months in jail. Only 3/4 verdicts would be required in other cases.

STATE QUESTION NO. 624

LEGISLATIVE REFERENDUM NO. 278

This measure amends the State Constitution. It amends Section 24 of Article II. The section deals with the taking of private land for public use. The section requires that payment be made for such takings. It now requires that the amount of payment be set without taking into account any benefits to the land which might result from any public improvements. This measure would change the way the amount of the payment is set. The change defines just compensation. It would mean the value of the part of land taken and for injury to the part of land not taken. It would allow the consideration of benefits to the land from the public improvement in setting the amount of payment. The land owner would not be required to pay for benefits that were greater than the injury to the land not taken.
