

Publication of Information in the Public Interest

Related to Case No. 2024-38

Ethic Rule 6.9 Confidentiality of Complaint or Investigation.

“Unless the Commission determines that a complaint or a formal investigation should be made public, all complaints and formal investigations, including documents and discussions in executive session, shall remain confidential and shall not be disclosed by a Commissioner, by the Commission or by its employees except to the extent necessary to facilitate or conduct a preliminary inquiry or a formal investigation. However, the Executive Director may confirm or deny the existence of a complaint or formal investigation alleging a violation of these Rules by any individual upon the written request of that individual. A settlement agreement executed under these Rules shall be public record. The Commission may make a complaint or formal investigation and any documents relating thereto public at any time it deems release of that information to be in the public interest.”

At the February 12, 2026 Ethics Commission Meeting, the Commission determined that release of the following information related to Case No. 2024-38 was in the public interest.

The Commission conducted an extended review of mileage reimbursements paid by Senator Shane Jett’s campaign committee during the calendar years 2022-2025. The original complaint alleged potential duplication between Senate reimbursements and campaign reimbursements. After reviewing the records ultimately provided, the Commission did not substantiate that allegation.

During the review, the Commission identified deficiencies in the level of detail contained in the campaign’s public reports regarding mileage reimbursements. Ethics Rules require expenditures to be reported with sufficient specificity to allow the public to evaluate the purpose and basis of the expense.

Over the course of the review, the Commission requested additional documentation and clarification regarding certain mileage entries, including the nature of specific events and activities for which reimbursement was claimed. Amendments and supplemental materials were submitted; however, the filings as amended did not result in clear, publicly accessible disclosure of the required details.

Under the Ethics Rules, compliance is measured not only by whether information is provided to the Commission, but whether it is reported in a manner that ensures meaningful public transparency. In this instance, that standard was not fully met.

In light of the time involved and the shared public interest in transparency regarding officeholder expenses, the Commission determined that releasing the mileage information provided during the investigation is the most appropriate way to ensure voters have access to the relevant documentation.

The Commission applies the Ethics Rules consistently and proportionately. Where allegations are not substantiated, that is stated clearly. Where reporting standards are not fully satisfied, the Commission acts to ensure transparency and compliance.

Enclosures

Oklahoma Ethics Commission
Attn: Margaret Kerr, General Counsel
Oklahoma State Capitol Bld.
2300 N. Lincoln Blvd., Room G-27
Oklahoma City, OK 73105

I have enclosed cancelled checks, receipts, spreadsheets, and mileage logs for the time period requested. Please let me know if I can answer any questions. My personal mobile is listed below.

I have made the requisite corrections in Guardian and brought all the subsequent reports up to date IAW guidelines provide by EOC personnel.

NOTE: The mileage log data exceeded the "Description" field's capacity of 135 characters, so I provided the screenshots with the complete data set IAW instructions provided by Director Boone.

Very respectfully,
Shane Jett
