RE: *Resignation as Cabinet Secretary of Energy & Environment*

Dear Governor Stitt:

It is with great pride and gratitude that I tender my official resignation from the post of Secretary of Energy & Environment for the State of Oklahoma effective September 3, 2022. I am incredibly humbled to have served the people of Oklahoma, and worked under your great leadership for nearly four years. I am leaving the post with a sense of accomplishment knowing that our environment is constantly improving, and that the energy innovation and production that happens in Oklahoma is making the world cleaner, more affordable, and more secure.

I am thankful to Oklahoma State University, Dr. Kayse Shrum, the Hamm Institute for American Energy, and Mr. Harold Hamm, for allowing me to continue serving the State while you transitioned to a great new Secretary. I am confident that you have found a great replacement. Please know that I love the State of Oklahoma, and will always stand ready to help in the drive to be a Top 10 State. We will continue to assist with the Hydrogen Hub from the Hamm Institute for American Energy, and show the rest of the world that there is no better state for energy innovation than here in Oklahoma.

With Gratitude,

A handwritten signature in black ink, appearing to read "Ken Wagner".

Kenneth E. Wagner
Secretary of Energy & Environment
