Overview of the modifications to licensure requirements of professions and occupations by HB 1373 and potential changes to Title 310, Chapter 406 Licensed Genetics Counselors rules, followed by Council discussion – Rocky McElvany, Deputy Commissioner for Protective Health Services

Mr. McElvany discussed the 406 Licensed Genetics Counselors rules, and the language used. Mr. McElvany indicated they would begin to identify for the licensed counselors some of the items that fall under “moral turpitude” that would eliminate someone from obtaining a license and place them into the rules. He proposed that they would develop language that would replace the “moral turpitude” portion, would work with Erin Youngs, and would propose some language to review, and approve at the November meeting.

Overview of Telehealth in Oklahoma, presentation followed by Council discussion of the overview – Candace Shaw, Telehealth Consultant

Ms. Shaw gave a broad overview of telehealth in Oklahoma. Ms. Shaw shared information regarding SB 726 that went into effect in November of 2017, which expanded the definition of telemedicine, but excludes audio only or text based communications. Ms. Shaw continued her overview of Telehealth in Oklahoma by discussing reimbursement. She stated that telemedicine for Medicare is still restricted to rural or medically underserved areas, and has restrictions on services, location of patient, and to approve healthcare providers. Ms. Shaw briefly touched on technology, bandwidth, and the costs of getting started. Funding opportunities was also discussed, such as grants, subsidies, and leasing options.

Modeling and Implementation of Screen Time Counseling in the WIC Program in Oklahoma presentation followed by Council discussion of the presentation – Christina Windrix, RDN, LD, Director of Nutrition Services, WIC Service

Ms. Windrix gave an overview of Screen Time Counseling in the WIC Program. She discussed how screen time affects the health of children. Ms. Windrix stated that the impact of increased screen time is mostly through dietary behavior.
