Pelvic • Pap Test  
HPV test • Clinical Breast Exam

Qualifies for the following:  
Screening Mammogram

Qualifies for the following:  
Pelvic • Pap Test  
HPV test • Clinical Breast Exam  
Screening Mammogram

\* If signs/symptoms of cancer are noted, then providers can ask that approval be granted for diagnostic screenings, regardless of age or sterilization status. A diagnostic mammogram/ultrasound would take place rather than a screening mammogram or in the event that an abnormality is found during the screening mammogram.
