What is RX for Oklahoma?

RX for Oklahoma helps Oklahomans access prescription assistance programs provided by pharmaceutical manufacturing companies.

Free and discounted medication assistance has proven to be a much needed service for Oklahomans since the inception of RX for Oklahoma on December 1, 2005. RX for Oklahoma provides better healthcare, improved medication compliance and fewer medical complications for those who qualify.

Who Qualifies?

Oklahoma residents, regardless of age, who are uninsured or underinsured are encouraged to apply. Medicare Part D and Medicaid beneficiaries with unique circumstances may qualify.

How Does the Program Work?

Call RX for Oklahoma at 1-877-RX4-OKLA (1-877-794-6552) or go to one of the regional processing centers designated for your residential county.

RX for Oklahoma staff will take your information including name, age, address and income as well as prescription(s) needed and dosage(s). This information is then entered into a special database that generates the appropriate paperwork for the pharmaceutical companies for which you are eligible.

RX for Oklahoma staff will assist you with the completion of the applications and required documentation for submission. The entire process takes approximately one month to complete, so only long-term medications will qualify.

What Drugs Are Available?

Call RX for Oklahoma to find out if your medication is available. The lists of drugs change regularly as companies add new drugs to their assistance programs.

What information Does RX for Oklahoma Need?

When applying, please have the following information readily available:

- Age
- Residential address
- Gross annual household income
- Complete list of medications you are taking
- Physician information
- Insurance coverage (if applicable)

Expedite your call by letting our staff know in which region of Oklahoma you live. If you are unsure, staff can help you determine your region.
