Oklahoma Kindergarten Immunization Survey

# SUMMARY REPORT

2025 / 2026

Each year, the Oklahoma State Department of Health (OSDH), State Department of Education, and schools throughout the state conduct a survey to assess vaccination coverage and exemption status of children enrolled in public and private kindergarten programs.

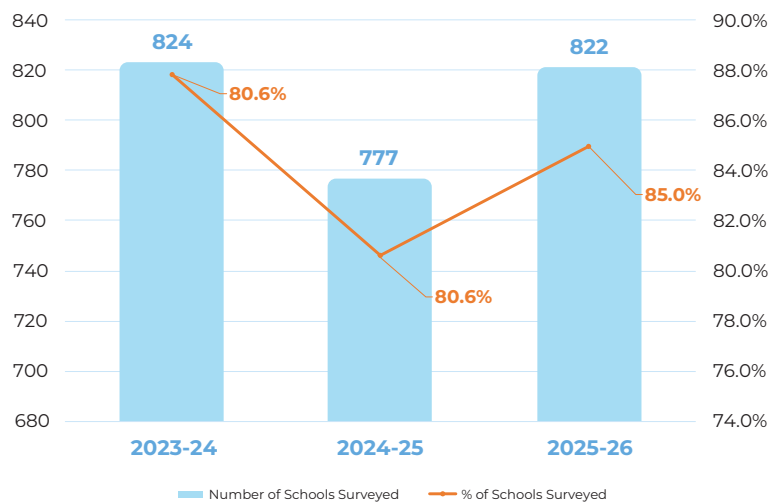

Participation of schools in this survey is essential to capture immunization rates among children. Analysis of this data drives public health policy and program activities to improve vaccination coverage in Oklahoma. The Centers for Disease Control and Prevention (CDC) includes survey results in the national kindergarten survey report.

We appreciate the time and effort of our education partners participating in the annual survey.

# PARTICIPATION & RESPONSE RATES

- 90% of public schools and 52% of private schools submitted responses and data.
- Responses represent 91% of students enrolled in public programs and 70% in private.

# VACCINATION & EXEMPTION RATES

- 91% of public school and 76% of private school kindergartners were found to be fully vaccinated.
- Immunization exemption rates were found to be 7.6% for public schools and 12.4% for private schools.
- The highest vaccination rates among kindergartners for 2025-2026 were for the Varicella and Hepatitis B vaccines. MMR (measles, mumps, rubella), and DTaP vaccines had the lowest coverage rates.
