CLIA Requirement Updates

On October 23rd, 2020, the Oklahoma State Department of Health provided [notification on the Rapid Point of Care \(POC\) Antigen Testing devices](#) and reminded facilities they are to follow the CLIA Requirements if they administer the Point-of-Care test.

CMS provided additional [CLIA information on December 11th](#) and indicated any entity with a COVID POC testing device (including BinaxNOW) may begin using the device once they have applied for their CLIA certificate. It is not required for you to wait for the application to be processed prior to using the POC testing device.

Facilities may locate the CLIA application [here](#).

If you have any questions related to CLIA Certificate of Waiver please contact our CLIA team at: medicalfacilities@health.ok.gov or call (405) 426-8470.

Have MDS, Quality Measure, or CMP questions? Call our new number at: 405.426.8160 or email us at MDShelp@health.ok.gov

Long Term Care Questions? We have a new phone number!

Call us at 405.426.8200
