### LTC Vaccination Status Survey

July 14, 2021

### LTC Vaccination Status Survey

The Oklahoma State Department of Health is conducting a public health survey regarding vaccination status for residents and staff in Long-Term Care facilities.

The first phase of this survey was completed in April of this year and we appreciate everyone who responded. We are asking if you would complete the survey again as this is vital vaccination information for our state. Please complete the survey by July 21<sup>st</sup>. It is important we receive your survey by then so mark your calendar if necessary.

Please be aware you will need the following information available prior to entering the survey:

- Total number of residents and staff
- Number of residents and staff who have been vaccinated
- Barriers/hurdles you may have encountered during vaccinating residents/staff

If you received this notification but are not the appropriate individual to complete the survey please forward to your administrator and/or designated personnel responsible for the above information.

If you have any questions, or need assistance with the survey, contact the QIES Help Desk at: [QIESHelpDesk@health.ok.gov](mailto:QIESHelpDesk@health.ok.gov) or call 405-426-8160.
