Provide a ***monitoring plan*** for the facility that includes:

- Infection surveillance,
- Competency-based training of Health Care Personnel (HCP)2,
- Adherence to recommended Infection Prevention and Control (IPC) practices, and
- Adherence to recommended personal protective equipment (PPE) practices;
- This assessment is *not* the CDC's Infection Prevention and Control Assessment Tool for Nursing Homes Preparing for COVID-19 but is a comprehensive infection control assessment that will be expanded for COVID-19 and adapted to the facility type. The assessment will have been performed or updated on or after the issuance of this plan, to account for the guidance and requirements in this plan, including the facility's visitation and outings policies.
