Greetings from the QIES Help Desk,

We are pleased to announce that the new SNF QRP Report Category and SNF Review and Correct Report are now available in CASPER.

The SNF Review and Correct Report displays facility-level results for the assessment-based quality measures used to calculate compliance with the QRP reporting requirements. MDS 3.0 data are used to calculate the quality measures.

For questions regarding SNF-QRP and the new report, contact QIES Help Desk at (405) 271-5278. Also, save the date for our August 10, 2017, Quality Measure Training that will include information on these topics. Registration is open and located at [mds.health.ok.gov](http://mds.health.ok.gov). Registration is limited to the first 200, so register early! Click [here](#) to register for the August 10, 2017 workshop.
