Editor's Note: Numerous rules in this Chapter were added or revised by the Oklahoma State Department of Health in 2007. However, after these rules, as identified below, had been promulgated in the Oklahoma Register and published in the 2007 OAC Supplement, the Department discovered that an earlier draft of the rules, which had NOT been adopted by the State Board of Health, had been inadvertently submitted to the Legislature, Governor, and Secretary of State for review, final adoption, and promulgation [see 24 Ok Reg 2030, effective 6-25-07]: 310:675-1-2, 310:675-7-5.1, 310:675-7-12.1, 310:675-7-17.1, 310:675-7-18.1, 310:675-7-21, 310:675-9-13.1, 310:675-13-7, 310:675-21-1, through 310:675-21-5, Appendix B. Upon discovery of this error, the agency initiated another rulemaking action, and the rules were readopted in 2008. After review and final adoption, those rules were promulgated at 25 Ok Reg 2482, effective 7-11-08. [See also Editor's Note published at 25 Ok Reg 2482]

310:675-1-4. Purpose, authority and indoor tobacco smoke

(a) The purpose of this section is to establish a prevention program for several non-communicable diseases, which will improve the health of Oklahomans by eliminating exposure to secondhand tobacco smoke and its deadly effects. This section abates the public health nuisance of secondhand smoke under the authority of the Commissioner of Health as specified under Section 1-106(b)(1) of Title 63 of the Oklahoma Statutes. This section also further specifies how compliance with the

Smoking in Public Places Act will be accomplished. [63 O.S. §§ 1-1521 *et seq.*]

(b) The Commissioner of Health has conducted a study and is recommending these measures to the Board of Health under his authority as stated in section 1-106 of the Public Health Code. [63 O.S. § 1-106] The Board has the authority to establish prevention programs for non-communicable disease and to promulgate rules for the control of causative or toxic substances, which can cause disease under section 1-502b of the Public Health Code. [63 O.S. § 1-502b] The Board is adopting this rule under its authority in sections 1-104 and 1-1526 of Title 63 of the Oklahoma Statutes. [63 O.S. §§ 1-104 & 1-1526]

(c) Smoking or possessing a lighted tobacco product is prohibited in a facility and within fifteen (15) feet of each entrance to a facility and of any air intakes; provided however, the facility may provide a smoking room available to the residents and their guests and another room available to the employees.

(1) It is completely enclosed;

(2) It is exhausted directly to the outside and maintained under negative pressure sufficient to prevent any tobacco smoke from entering non-smoking areas of the building;

(3) It allows for visual observation of the residents from outside of the smoking room; and

(4) The plans are reviewed and approved by the Department.

(e) To enable better observation and supervision of residents who wish to smoke outside, a facility may designate a smoking area outside an entrance other than the main entrance which may be closer than fifteen (15) feet to the entrance providing consideration is given to minimizing the possibility of smoke entering the building.

(f) The walkway to the main entrance shall also be smoke free.

(g) No ashtray shall be located closer than fifteen (15) feet to an entrance, except in an indoor smoking room or a designated outdoor smoking area under paragraph "c" above.

(h) Should construction requirements not be in agreement with this rule, the stricter rule shall apply.

If the resident does not consent, then if possible a member of the Adult Protective Services staff must agree in writing that the resident needs to be moved.

(d) The Department shall give written notice to the resident and to the facility of the reasons for the discharge or transfer if the resident or the resident's families do not agree to transfer the resident.

(e) If the resident has no specific preference, the Department shall relocate the residents to the nearest facility capable of care for the resident if acceptable to the resident.

(f) Should a resident be aggrieved by the decision of the Department to relocate or transfer that resident, the Department shall conduct a hearing before relocating the resident unless to do so will fail to preserve the health, welfare or safety of the resident.

(g) The hearing will be conducted following Chapter 2 of this title and the Administrative Procedures Act.

(h) The hearing will be conducted at the facility, and will be attended by the Administrative Law Judge and the Department's legal counsel. The Department will maintain a record on the case as it would for another individual proceeding.

(i) The Administrative Law Judge shall make this case a priority and shall issue a written opinion within one working day from the close of the hearing.

(j) The Administrative Law Judge's order shall include findings of fact, conclusions of law and an order that the transfer was according to law or not.

(L) For purposes of subsection (K), the percentage of indirect ownership interest in the owner, lessee and/or manager is determined by multiplying the percentages of ownership in each entity. For example, if A owns 10 % of the stock in a corporation that owns 80 % of the applicant for license, A's interest equates to an 8 % indirect ownership interest in the applicant and must be reported. Conversely, if B owns 80 percent of the stock of a corporation that owns a 5% interest of the stock of the applicant, B's interest equates to a 4% indirect ownership interest in the applicant and need not be reported.

(4) The Affirmation Attachment (Form 953-D) supplements the Disclosure Statement (Form 953-B) and requires the following: the names and addresses of individuals, members, officers and/or registered agents required to be disclosed for the applicant pursuant to 310:675-3-5.1(a)(3); and an affirmation from each of the above concerning their age, character and health.

(5) The Staffing Projection and Professional Certification for a Nursing or Specialized Facility (Form 953-E) requires: a projected staffing pattern; and a certification from the director of nursing, the physician on call for medical emergencies, and the pharmacist providing consultation and emergency pharmacy services.

(6) The Periodic Report for Suspended License (Form 953-F) requires: the name and address of the facility; the applicant's name and address, contact person and address; report of progress in reopening the facility; request for extension based on extenuating circumstances; and an oath affirming the truth, correctness and completeness of the information provided.

(b) The Notice of Change requests information on the name and address of the facility; the administrator; the number and type of beds; the applicant; confirmation of changes in the owner, lessee or manager; and any change in disclosure of persons or entities pursuant 310:675-3-1.1(e).

310:675-3-8. Notice of change

(a) If changes occur so that information previously submitted in a facility's license application is no longer correct, the facility shall notify the Department. Notice is required of changes to the following information:

- (1) Facility identification including facility business name, mailing address, telephone number or facsimile number;
- (2) Changes in licensed bed capacity, including proposed increases;
- (3) The administrator;
- (4) Owner, lessee or manager disclosure or detail information that does not otherwise necessitate an initial license;
- (5) Disclosure of persons or entities required to be disclosed pursuant 310:675-3-1.1(e); and

(b) The facility shall file the Notice of Change form with the Department on or before the effective date of the change, with the following exceptions.

(1) When a change is unexpected or beyond the control of the facility, the facility shall provide notice to the Department within five (5) working days after the change.

(2) For an increase in licensed bed capacity, the facility shall file the notice of change prior to the requested license amendment date. The notice of change shall be accompanied by the \$10 per-bed license fee pursuant to 63 O.S. Section 1-1905(A), prorated by the number of beds to be added and the proportion of time remaining on the license until expiration. Prior to occupying additional beds, the facility shall obtain an amended license from the Department.

(c) Following receipt of information that an applicant or any person or entity disclosed pursuant 310:675-3-1.1(e) is not in compliance with the tax filing, payment or disclosure requirements of 310:675-3-1.1. or 63 O.S. Section 1-1930.1, the Department may require an applicant or licensee to submit proof that the applicant or person or entity disclosed pursuant to 310:675-3-1.1(e) is in compliance with state or federal taxes. Such proof may include a letter from the taxing agency, a file-stamped copy of a return, a receipt for a tax payment, or a tax transcript or account.

310:675-5-18. Design and construction

The requirements in applicable portions of the National Fire Protection Association (NFPA) 101: Life Safety Code, 2012 Edition, adopted in 81 Federal Register 26871 by the Centers for Medicare & Medicaid Services on July 5, 2016 are incorporated by reference. For Medicare or Medicaid certified nursing or specialized facilities, the Life Safety Code adopted by the Centers for Medicare & Medicaid Services prevails if there is a conflict between the Life Safety Code and this Chapter. A high degree of safety for the occupants shall be provided to minimize the incidence of accidents with special consideration for residents who will be ambulatory to assist them in self care. Hazards such as sharp corners shall be avoided.

(1) **Existing facilities.** Nonconforming portions which because of financial hardship are not being totally modernized, shall comply with the safety requirements dealing with details and finishes as listed in Chapter 13 NFPA Standard 1-1, 1981.

(2) **New construction projects including additions and alterations.** Details and finishes shall comply with the following:

(A) Items such as drinking fountains, telephone booths, vending machines, and portable equipment shall be located so as not to restrict corridor traffic or reduce the corridor width below the required minimum.

Windows in buildings designed with an engineered smoke control system in accordance with NFPA 90A are not required to be operable. However, attention is called to the fact that natural ventilation possible with operable windows may in some areas permit a reduction in energy requirements.

(G) Doors, except doors to spaces such as small closets which are not subject to occupancy, shall not swing into corridors in a manner that might obstruct traffic flow or reduce the required corridor width. (Large walk-in type closets are considered as occupiable spaces.)

(H) Safety glazing shall be of materials and at locations required by the Oklahoma Safety Glazing Material Law.

(M) Location and arrangement of handwashing facilities shall permit their proper use and operation.

(N) Lavatories and handwashing facilities shall be securely anchored to withstand an applied vertical load of not less than 250 lbs. (113.4 kg.) on the front of the fixture.

(O) Mirrors shall be arranged for convenient use by residents in wheelchairs as well as by residents in a standing position. Mirrors shall not be installed at handwashing fixtures in food preparation areas.

(P) Provisions for hand drying shall be included at all handwashing facilities. These shall be single-use separate, individual paper or cloth units enclosed in such a way as to provide protection against the dust or soil and ensure single unit dispensing. Hot air dryers are permitted provided that installation is such to preclude possible contamination by recirculation of air.

(Q) The minimum ceiling height shall be 8'0" (2.44 m.) with the following exceptions:

(i) Boiler rooms shall have ceiling clearances not less than 2'6" (76 cm.) above the main boiler header and connecting piping.

(ii) Rooms containing ceiling-mounted equipment shall have

- height required to accommodate the equipment.

- (3) **Finishes.**
- (A) Floor materials shall be easily cleanable and have wear resistance appropriate for the location involved. Floors in areas used for food preparation or food assembly shall be water-resistant and grease-proof. Joints in tile and similar material in such areas shall be resistant to food acids. In all areas frequently subject to wet cleaning methods, floor materials shall not be physically affected by germicidal and cleaning solutions. Floors that are subject to traffic while wet (such as shower and bath areas, kitchens, and similar work areas) shall have a non-slip surface.
- (B) Wall bases in kitchens, soiled workrooms, and other areas which are frequently subject to wet cleaning methods shall be made integral and covered with the floor, tightly sealed within the wall, and constructed without voids that can harbor insects.
- (C) Wall finishes shall be washable and, in the immediate area of plumbing fixtures, shall be smooth and moisture resistant. Finish trim, and wall and floor constructions in dietary and food preparation areas shall be free from spaces that can harbor rodents and insects.
- (D) Floor and wall penetrations by pipes, ducts, and conduits shall be tightly sealed to minimize entry of rodents and insects. Joints of structural elements shall be similarly sealed.
- (E) Ceilings throughout shall be easily cleanable. Ceilings in the dietary and food preparation areas shall have a finished ceiling covering all overhead piping and duct work. Finished ceilings may be omitted in mechanical and equipment spaces, shops, general storage areas, and similar spaces, unless required for fire-resistive purposes.

(Elevator service may be reduced for those floors which provide only partial resident services).

(C) At least three (3), one of which shall be hospital-type, shall be installed where 201 to 350 resident beds are located on floors other than the main entrance floor, or where the major resident services are located on a floor other than those containing resident beds. (Elevator service may be reduced for those floors which provide only partial resident services.)

(D) For facilities with more than 350 resident beds, the number of elevators shall be determined from a study of the facility plan and the estimated vertical transportation requirements.

(2) **Cars and platforms.** Cars of hospital-type elevators shall have inside dimensions that will accommodate a resident bed and attendants, and shall be at least 5'10" (1.52 m.) wide by 7'6" (2.29 m.) deep. The car door shall have a clear opening of not less than 3'8" (1.12 m.).

For all other occupied areas, the indoor winter design temperature shall be 72° F. (22° C.). (NOTE: This does not preclude operation at lower temperatures where appropriate and resident safety is not affected. This requirement is for "capacity".) The indoor summer design temperature shall be 80° F. (27° C.) for all areas occupied by residents.

(2) **Ventilation system details.** All air-supply and air-exhaust systems shall be mechanically operated. All fans serving exhaust systems shall be located at the discharge end of the system.

The bottom of outdoor air intakes serving central systems shall be located as high as practical but not less than 6' 0" (1.83 m.) above ground level, or if installed above the roof, 3' 0" (91 cm.) above roof level.

(B) The bottoms of ventilation openings shall not be less than 3" (7.6 cm.) above the floor of any room.

(C) All central ventilation or air conditioning systems shall be equipped with filters. the filter bed shall be located upstream of the air conditioning equipment, unless a prefilter is employed. In this case, the prefilter shall be upstream of the equipment and the main filter bed may be located further downstream.

310:675-5-24. Preparation of plans and specifications

(a) **Stage one.** Preliminary plans and outline specifications shall be submitted and include sufficient information for approval by the Department of the following: scope of project; project location; required fire-safety and exiting criteria; building-construction type, compartmentation showing fire and smoke barriers, bed count and services; the assignment of all spaces, areas, and rooms for each floor level, including the basement. A nursing facility has the option, at its own risk, to bypass the stage one submittal and proceed directly to submittal of stage two documents. After the first review and before Department approval of stage one plans, the nursing facility at its own risk may choose to make a stage two submittal; a nursing facility electing this option would not be eligible for the fast track process.

(b) **Stage two.** A proposed construction document shall be submitted that includes final drawings and specifications adequate for approval by the Department. All final plans and specifications shall be appropriately sealed and signed by an architect registered by the State of Oklahoma. All construction modifications of approved documents are subject to review and approval, and shall be submitted timely.

310:675-5-25. Self-certification of plans

(a) The Department shall make available consultation and technical assistance services covering the requirements of this section to a nursing facility considering self-certification of plans. The consultation and technical assistance is subject to the fees specified in OAC 310:675-5-23. The consultation is optional and not a prerequisite for filing a request through the self-certification review process.

(b) The nursing facility and the project architect or engineer may elect to request approval of design and construction plans through a self-certification review process. The nursing facility and the project architect or engineer shall submit a self-certification request on a form provided by the Department, along with the review fee specified in OAC 310:675-5-23. The form shall be signed by the nursing facility and the project architect or engineer attesting that the plans and specifications are based upon and comply with the requirements of this Chapter. The form shall require information necessary to demonstrate compliance with OAC 310:675-5-25(c).

(c) To be eligible for self-certification, projects must comply with the following requirements:

(1) The project involves any portion of the nursing facility where residents are intended to be examined or treated and the total cost of design and construction is two million and five hundred thousand dollars (\$2,500,000) or less; or

(2) The project involves only portions of the nursing facility where residents are not intended to be examined or treated; and

(3) The project architect or engineer attesting the application has held a license to practice architecture or engineering for at least five (5) years prior to the submittal of the application, is licensed to practice in Oklahoma; and

(4) The nursing facility owner/operator acknowledges that the Department retains the authority to:

(A) Perform audits of the self-certification review program and select projects at random for review;

(B) Review final construction documents;

(C) Conduct on-site inspections of the project;

(D) Withdraw approval based on the failure of the nursing facility or project architect or engineer to comply with the requirements of this Chapter; and

(5) The nursing facility agrees to make changes required by the Department to bring the construction project into compliance with this Chapter.

(d) Within twenty-one (21) days after receipt of a complete application, the Department shall approve or deny the application for self-certification and send notification to the nursing facility. If the application is denied, the nursing facility shall have thirty (30) calendar days to submit additional or supplemental information

demonstrating that the application complies with the requirements for self-certification of plans and specifications. The Department shall have fourteen (14) calendar days after receipt of supplemental information to reconsider the initial denial and issue a final approval or denial of the self-certification request.

(e) After denial of the application for self-certification and prior to the start of construction, the nursing facility shall pay the applicable fee for plan review specified in OAC 310:667-47-1(b)(1) through (5). Upon receipt of the plan review fee, the Department shall review the nursing facility's plans in accordance with the process in OAC 310:675-5-23.

310:675-7-4. Resident transfers or discharge

(a) **Reasons for transfer or discharge.** Involuntary transfer or discharge

of a resident may be initiated by a facility only for one or more of the following:

(1) Medical reasons, including needs that the facility is unable to meet, as documented by the attending physician, in consultation with the medical director if the medical director and attending physician are not the same person.

(2) The resident's safety, or for the safety of other residents, as documented by the clinical record. The facility shall show through medical records that:

(A) the resident has had a comprehensive assessment by an interdisciplinary team and alternative measures have been attempted unsuccessfully; or

(B) the resident is a danger to himself, herself or other resident as documented by the medical record and the facility is not capable of managing that resident.

(3) The non-payment of charges for the resident's care as documented by the facility's business records for services for more than 30 days.

(b) **Procedures.** Procedures for involuntary transfer or discharge by the facility are as follows:

(1) Written notice shall be provided at least thirty (30) days in advance of the transfer or discharge date to the resident, resident's legal representative, person responsible for payment of charges for the resident's care, if different from any of the foregoing, and the Department.

(2) The ten day requirement shall not apply when an emergency transfer is mandated by the resident's health care needs and is in accordance with the attending physician's written orders and medical justification; or the transfer or discharge is necessary for the physical safety of other residents as documented in the clinical record. The facility shall not use a discharge to a hospital as a reason for failing to re-admit a resident after release from the hospital to the first available bed in a semi-private room. Such action shall be considered to be an involuntary discharge subject to all the requirements of this section, unless the discharge was required by the Department.

(3) The written notice shall include:

(A) A full explanation of the reasons for the transfer or discharge;

(B) The date of the notice;

(C) The date notice was given to the resident and the resident's representative;

(D) The date by which the resident must leave the facility; and

(E) Information that the resident's representative or person responsible for payment of the resident's care who is aggrieved by the facility's decision, may file within ten (10) days of notice a written request for a hearing with the Department by sending a letter to the Hearing Clerk, Oklahoma State Department of Health, 1000 NE Tenth Street, Oklahoma City, OK 73117.

(4) Failure of the facility to give the notice as substantially specified above shall result in an order without hearing from the Department denying the right of the facility to discharge the resident.

(5) If a written request for a hearing is properly filed by an eligible aggrieved party, the Department shall convene a hearing within ten working days of receipt of the request. The request may be in the form of a letter or a formal request for hearing from the resident or resident's representative. In the event that the resident is unable to write, a verbal request made to the hearing clerk shall be sufficient. The Department shall reduce the verbal request to writing and send a copy to the resident. The request should state the reason for the discharge and attach a copy of the letter from the facility.

(6) During the pendency of the hearing, the facility shall not discharge the resident unless the discharge was required by the Department or is an emergency situation. If the resident relocates from the facility but wants to be readmitted, the Department may proceed with the hearing and the facility shall be required to readmit the resident to the first available bed in a semi-private room if the discharge is found not to meet the requirements of the Nursing Home Care Act and OAC 310:675.

(7) The Department shall provide the Administrative Law Judge and the space for the hearing. The parties, including the resident and the facility, may be represented by counsel or may represent themselves.

(8) The hearing shall be conducted at the Oklahoma State Department of Health building unless there is a request for the hearing to be held at the facility or at another place. Providing the hearing room in such a case shall be the responsibility of the parties. The Department shall maintain a record on the case as it does for any other individual proceeding.

(9) The hearing shall be conducted in accordance with the Department's procedures, Chapter 2 of this Title. The Administrative Law Judge's order shall include findings of fact, conclusions of law and an order as to whether or not the transfer or discharge was according to law. If a facility receives federal funds for services, it shall also comply with the certification standards. The more restrictive rule toward the facility shall be applied.

(10) If the Administrative Law Judge finds that the discharge was not according to law, the Department shall review, investigate and issue deficiencies as appropriate.

(11) If the discharge is according to law, the order shall give the facility the right to discharge the resident.

(12) The scope of the hearing may include:

- (A) Inadequate notice;
- (B) Discharge based on reason not stated in the law;
- (C) Sufficiency of the evidence to support the involuntary discharge; or
- (D) The finding of emergency.

(13) The Administrative Law Judge shall render a written decision within ten working days of the close of the record.

(14) If the Administrative Law Judge sustains the facility, the facility may proceed with the discharge. If the Administrative Law Judge finds in favor of the resident, the facility shall withdraw its notice of intent to transfer or discharge the resident. The decision of the Administrative Law Judge shall be final and binding on all

parties unless appealed under the Administrative Procedures Act.

(c) Room relocation

(1) If a facility wants to relocate a resident from one room to another, the facility shall give the resident at least forty-eight hours written notice. The notice shall include the cost of transferring the resident's telephone, if applicable.

(2) If the resident or the resident's representative agrees in writing to the relocation, the relocation may take place in less than forty-eight hours.

(3) No hearing is required if the resident requests or agrees to relocation from one room to another.

(1) Direction to the facility owner to respond to the Department in writing and to make funds available to the temporary manager within 48 hours of issuance of the order;

310:675-17-3. Acceptable Plan of Correction

(a) All facilities having deficiencies must submit an acceptable plan of correction within *ten (10) working days after receipt of notice of*

violation [63:1-1914.A.]. An acceptable plan of correction must:

- (1) Address how corrective action will be accomplished for those residents and/or clients found to have been affected by the deficient practice.
 - (2) Address how the facility will identify other residents and/or clients having the potential to be affected by the same deficient practice. Plans of correction specific to residents identified on the deficiency statement are acceptable only where the deficiency is determined to be unique to that resident and not indicative of a possible systemic problem.
 - (3) Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur.
 - (4) Indicate how the facility plans to monitor its performance to make sure that solutions are sustained. The facility shall develop a plan for ensuring that correction is achieved and sustained. This plan must be implemented, and the corrective action evaluated for its effectiveness. The plan of correction shall be incorporated into the quality assurance system. At the revisit, the quality assurance plan shall be reviewed to determine the earliest date of compliance. If there is no evidence of quality assurance being implemented, the earliest correction date will be the date of the revisit.
 - (5) Include dates when corrective action will be completed for each violation. The corrective action completion dates shall not exceed sixty (60) days [63:1-1914.A.] from receipt of notice of violation.
 - (6) Be signed by the administrator.
- (b) Upon written request from the facility, the Department may extend the time period within which the violations are to be corrected *where correction involves substantial structural improvement* [63:1-1914.A.].
- (c) The department shall provide written notice of the acceptance or rejection of a plan of correction. If the Department finds that the plan of correction does not meet the requirements for an acceptable plan of correction as specified in OAC 310:675-17-3(a) the Department shall provide *notice of the rejection and the reason for the rejection to the facility. The facility shall have ten (10) working days after receipt of the notice of rejection in which to submit a modified plan. If the modified plan is not timely submitted, or if the modified plan is rejected, the Department shall impose a plan of correction, which the facility shall follow* [63:1-1914.A.].
- (d) Acceptance of the plan of correction by the Department does not absolve the facility of the responsibility for compliance should the implementation not result in correction and compliance. Acceptance indicates the Department's acknowledgment that the facility indicated a willingness and ability to make corrections adequately and timely.
- (e) *If the violation has been corrected prior to submission and approval of a plan of correction, the facility may submit a report of correction in place of a plan of correction* [63:1-1914.B.]. The report of correction shall address those requirements specified in OAC 310:675-17-3(a).
- (f) As specified in 63 O.S. § 1-1914.C., facilities may request an extended correction time.
- (g) As specified in 63 O.S. § 1-1914.D., facilities may contest any Department action under this section.

APPENDIX A. HOT WATER USE

	Resident Use		
	Bathing	Dietary	Laundry
Gallons (per hr. & bed)	6 1/2	4	4 1/2
Temperature	115° F. (46° C.)	*120° F. (49° C.)	**160° F. (70° C.)

** Rinse water temperature at automatic warewashing equipment shall be 180° (82.1° C.).

** Required temperature of 160°F (70° C.) in the laundry area is that measured in the washing machine and shall be supplied so that temperature may be maintained over the entire wash and rinse period. Attention is called to the fact that control of bacteria in laundry processing is dependent upon a number of inter-related factors such as detergent, bleach, number of rinses and temperature. In most instances, maximum overall economies with acceptable results can be achieved with the use of 160° F. (70° C.) water. Lesser temperature may require excessive bleaching or other chemical treatment that would be damaging to fabrics.
