Mike Romero, Chief Financial Officer for the State Department of Health, shared that he will be developing a financial reporting enterprise for the Board of Health. This system will utilize the Governmental Accounting Standards Board (GASB) techniques and will ensure accountability as well as follow requirements set by the code of federal regulations. Mr. Romero hopes to have this reporting system available in the near future.

1 Ms. Burger asked if this report would include complete financial statements such as balance sheets and income
2 statements. Mr. Romero responded that it would include that information.

3
4 Dr. Krishna asked how the OSDH auditing process could be more accurate and effective. Mr. Romero responded
5 that this will be looked at as the internal controls framework is developed.
