To: Administrators of Long Term Care (LTC) facilities receiving Federal Funds

Re: Provider Letter 11-03  
**Effective Immediately - Reporting Reasonable Suspicion of a Crime**

Dear Administrator:

The intent of this letter is to inform nursing homes, intermediate care facilities for the mentally retarded (ICF/MR), and other LTC facilities that have received greater than \$10,000.00 in Federal funds the preceding year of the new section of 1150B of the Social Security Act which was established by section 6703 (b)(3) of the Affordable Care Act. The new law requires covered individuals to report to the survey agency and local law enforcement immediately events that cause reasonable suspicion of a crime, and it prohibits a facility from retaliating against an employee for reporting a reasonable suspicion of a crime.

A "covered individual" is defined at section 1150B (a) (3) of the Act as each individual who is an owner, operator, employee, manager, agent, or contractor of such LTC facility. The statute requires owners/operators of LTC facilities that received at least \$10,000.00 in Federal funds the preceding year to notify covered individuals **annually** of their obligation to report to the survey agency and local law enforcement any reasonable suspicion of a crime committed against an individual who is a resident of, or is receiving care from the facility. If the event that caused the suspicion resulted in serious bodily injury, the report must be made not later than two hours after forming the suspicion, otherwise the report must be made not later than twenty-four (24) hours after forming the suspicion.

Covered individuals are subject to civil money penalties and exclusion sanctions for failure to meet the reporting requirements. LTC facilities are ineligible to receive Federal funds for any period they employ an excluded individual. LTC facilities are also subject to civil money penalties and exclusion sanctions for retaliating against any employee who makes a lawful report, causes a lawful report to be made, or for taking steps in furtherance of making a lawful report.

The attached Survey and Certification (S&C) memorandum number 11-30-NH at Section B outlines the Long Term Care (LTC) facility's responsibilities, additional advisable functions and timelines for reporting.

**DATE:** June 17, 2011

Survey and Certification Group

**SUBJECT:** Reporting Reasonable Suspicion of a Crime in a Long-Term Care Facility (LTC):  
Section 1150B of the Social Security Act

Memorandum Summary

- **Reporting Suspicion of a Crime:** Section 1150B of the Social Security Act (the Act), as established by section 6703(b)(3) of the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act), requires specific individuals in applicable long-term care facilities to report any reasonable suspicion of crimes committed against a resident of that facility.
- **Reporting to State Survey Agencies (SAs) and Law Enforcement:** Reports must be submitted to at least one law enforcement agency of jurisdiction and the SA (in fulfillment of the statutory directive to report to the Secretary).
- **Applicability of This Memo:** This memorandum discusses applicability of this provision to the following Medicare and Medicaid participating long-term care provider types that are collectively referred to as “facilities” or “LTC facilities” in this memorandum:
  - Nursing facilities (NFs),
  - Skilled nursing facilities (SNFs),
  - Hospices that provide services in LTC facilities, and
  - Intermediate Care Facilities for the Mentally Retarded (ICFs/MR).
- **Processing Reports about Suspected Crimes:** SAs should process reports received under Section 1150B of the Act in accordance with existing Centers for Medicare & Medicaid Services (CMS) and State policies and procedures for reporting incidents and complaints to SAs.
- **LTC Facility Policies and Procedures:** LTC facilities should have policies and procedures to comply with this law. The obligations of the facility are different than the obligations of a covered individual.

This memorandum informs SAs of the new section 1150B of the Act, which was established by section 6703(b)(3) of the Affordable Care Act and is entitled “Reporting to Law Enforcement of Crimes Occurring in Federally Funded Long-Term Care Facilities.”

In order to promote timely application of the protections offered by section 1150B of the Act for LTC facility residents, we are explaining now the current obligations of LTC facilities to comply with the law as it is plainly written, without any delay that might be occasioned by waiting for any administrative rule-making process that might further clarify application of the law.

## A. Background

Section 6703(b)(3) of the Affordable Care Act, in part, amends Title XI of the Act by adding a new section 1150B. Section 1150B requires LTC facilities that receive at least \$10,000 in Federal funds under the Act during the preceding year to annually notify each covered individual of their obligation to report to the Secretary (now assigned to the SA) and at least one local law enforcement entity “any reasonable suspicion of a crime,” as defined by local law, committed against an individual who is a resident of, or is receiving care from, the facility. A “covered individual” is defined at section 1150B(a)(3) of the Act as each individual who is an owner, operator, employee, manager, agent, or contractor of such LTC facility.

Effective implementation of section 1150B of the Act may promote a timely response to potential crimes, thereby protecting residents of such facilities. The statute requires that:

- Covered individuals timely report any reasonable suspicion of a crime against a resident of, or who is receiving care from, a LTC facility;
- If the events that cause the reasonable suspicion result in serious bodily injury, the report must be made immediately after forming the suspicion (but not later than two hours after forming the suspicion). Otherwise, the report must be made not later than 24 hours after forming the suspicion;
- Covered individuals are subject to civil money penalty and exclusion sanctions for failure to meet the reporting obligations of the statute;
- LTC facilities are ineligible to receive Federal funds for any period that they employ an individual classified as an excluded individual under sections 1150B(c)(1)(B) or 1150B(c)(2)(B) of the Act; and
- LTC facilities are also subject to civil money penalty and exclusion sanctions for retaliating against any employee who makes a lawful report, causes a lawful report to be made, or for taking steps in furtherance of making a lawful report pursuant to the statute.

## B. LTC Facility Responsibilities

1. Required Functions: A Medicare- or Medicaid-participating LTC facility must:
  - a) ***Determine Applicability***: Determine annually whether the facility received at least \$10,000 in Federal funds under the Act during the preceding fiscal year;

- b) **Notify Covered Individuals:** Annually notify each covered individual of that individual's reporting obligations described in section 1150B(b) of the Act, if the facility determines that it received at least \$10,000 in Federal funds under the Act during the preceding fiscal year.
- c) **Post Conspicuous Notice:** Conspicuously post, in an appropriate location, a notice for its employees specifying the employees' rights, including the right to file a complaint under this statute. The notice must include a statement that an employee may file a complaint with the SA against a LTC facility that retaliates against an employee as specified above, as well as include information with respect to the manner of filing such a complaint.
- d) **Eschew Retaliation:** The facility may not retaliate against an individual who lawfully reports a reasonable suspicion of a crime under section 1150B. A LTC facility may not discharge, demote, suspend, threaten, harass, or deny a promotion or other employment-related benefit to an employee, or in any other manner discriminate against an employee in the terms and conditions of employment because of lawful acts done by the employee, or file a complaint or a report against a nurse or other employee with the appropriate state professional disciplinary agency because of lawful acts done by the nurse or employee.

2. Additional Advisable Functions: A facility that effectively implements section 1150B will:

- a) **Coordinate with Law Enforcement:** Coordinate with the facility's State and local law enforcement entities to determine what actions are considered crimes in their political subdivision.
- b) **Review Adherence to Existing CMS Policies:** Review existing facility protocols and procedures to ensure adherence to existing CMS and State policies and procedures for reporting incidents and complaints. For example, participating nursing homes are already required to have policies and procedures in place to report abuse, neglect or misappropriation of resident property. During the course of a standard survey or complaint investigation, the identification of a possible crime may trigger a review of the LTC facility's policies and procedures for reporting as required under the Federal conditions and requirements for that provider type, and a review of the actions taken to make any required incident report.
- c) **Develop Policies and Procedures for Section 1150B:** Develop and maintain policies and procedures that ensure compliance with section 1150B, including the prohibition of retaliation against any employee who makes a report, causes a lawful report to be made, or takes steps in furtherance of making a lawful report pursuant to the requirements of the statute.

### **C. Covered Individual Reporting**

SAs receiving more than one report regarding the same incident may process and/or investigate the allegation as a single complaint or incident. Multiple covered individuals, each of whom has a reporting responsibility, may file a single report that includes information about the suspected crime from each covered person. It remains the responsibility of each covered individual to ensure their individual reporting responsibility is fulfilled, so it is advisable for any multiple-person report to include identification of all individuals making the report.

If, after a report is made regarding a particular incident or suspicion of a crime, additional covered individuals become aware of the same incident or form a similar suspicion based on the same reported events, the original report may be supplemented with additional information including the names of the additional covered individuals along with the date and time of their awareness of such incident or suspicion.

However, in no way will a single or multiple-person report preclude a covered individual from making an individual report separately, in his/her own words, to the SA and at least one law enforcement entity. While facilities may establish an efficient process for avoiding unnecessary duplication and easing administrative burdens, they cannot prohibit individual reporting directly by a covered individual.

SAs will follow the standard CMS protocols for assessing and, as appropriate, investigating all reported complaints and incidents.

### **D. Time Period for Individual Reporting**

Section 1150B establishes two time limits for the reporting of reasonable suspicion of a crime, depending on the seriousness of the event that leads to the reasonable suspicion.

1. ***Serious Bodily Injury – 2 Hour Limit:*** If the events that cause the reasonable suspicion result in serious bodily injury to a resident, the covered individual shall report the suspicion immediately, but not later than 2 hours after forming the suspicion;
2. ***All Others – Within 24 Hours:*** If the events that cause the reasonable suspicion do not result in serious bodily injury to a resident, the covered individual shall report the suspicion not later than 24 hours after forming the suspicion.

### **E. Survey Guidance**

It is useful to distinguish between three types of possible allegations;

1. ***Events Giving Rise to a Suspected Crime:*** As SAs receive reports of suspected crimes under this requirement, they must intake, record information about the event(s) giving rise to the suspicion, prioritize the complaints based on those underlying, alleged events, and, and as appropriate, investigate in accordance with existing CMS policies and

procedures for addressing complaints or incidents. Any deficiency citations against a LTC facility that may result will be ones that are currently specified in existing CMS regulations and guidance.

2. ***Allegations of Individual Failure to Report:*** With regard to any allegation that a covered individual had a duty to report under this requirement, but did not do so, SAs must take certain actions focused on the underlying event(s) that gave rise to the allegation:
  - a) ***Intake:*** SAs must intake and record the allegation according to existing CMS policies and procedures for complaints or incident reporting. An allegation that a covered individual failed to report a reasonable suspicion of a crime will generally contain some information about the health and safety conditions in the LTC facility at issue. The SA must assess the allegation with respect to what it may reveal about those underlying conditions and the facility's compliance with existing CMS conditions and requirements.
  - b) ***Prioritize and Investigate:*** If the allegation contains sufficient information, then the SA must prioritize and, as appropriate, investigate the facility's compliance with CMS conditions and requirements in accordance with existing CMS policies and procedures for addressing complaints or incidents (per part E.1 above).
3. ***Allegations of Facility Failure to Comply with Section 1150B:*** With respect to any allegation that a LTC facility failed to comply with any of the requirements of section 1150B (outlined in part B.1 of this Memorandum), SAs must take certain actions focused on determining the facility's compliance with existing CMS conditions and requirements.
  - c) ***Intake:*** SAs must intake and record the allegation according to existing CMS policies and procedures for complaints or incident reporting. An allegation of facility failure to comply with this requirement will generally contain some information about the health and safety conditions in the LTC facility and facility management or actions. The SA must assess the allegation with respect to what it may reveal about the facility's compliance with existing CMS regulations.
  - d) ***Prioritize and Investigate:*** If the allegation contains sufficient information, then the SA must prioritize and, as appropriate, investigate the facility's compliance with CMS conditions and requirements in accordance with existing CMS policies and procedures for addressing complaints or incidents (per part E.1 above).

For example, an allegation that covered individuals did not report or were not informed of their duty to report under 1150B of the Act could lead to a determination that the facility did not comply with existing Federal requirements for reporting incidents, or provide training and have certain policies and procedures in place. For example, possible deficiency citations in a SNF/NF, might include, but are not limited to:

- §483.13(c)-F226- Failure to develop and/or implement its policies and procedures for reporting abuse/neglect;
- §483.75(d)-F493- Governing body – failure to establish/implement facility policies regarding the management and operation of the facility.

For example, possible deficiency citations for a hospice provider might include, but are not limited to:

- §418.52(b)(4)-L508-The hospice must ensure that all alleged violations involving mistreatment, neglect, or verbal, mental, sexual, and physical abuse, including injuries of unknown source, and misappropriation of patient property by anyone furnishing services on behalf of the hospice, are reported immediately by hospice employees and contracted staff to the hospice administrator.
- §418.112 (c)(8)-L771-The hospice and SNF/NF or ICF/MR must have a written agreement that includes a provision stating that the hospice must report all alleged violations involving mistreatment, neglect, or verbal, mental, sexual, and physical abuse, including injuries of unknown source, and misappropriation of patient property by anyone unrelated to the hospice to the SNF/NF or ICF/MR administrator within 24 hours of the hospice becoming aware of the alleged violation.

For example, potential deficiency citations in an ICF/MR might include, but are not limited to:

§483.420 (d)(2)-W153-The facility must ensure that all allegations of mistreatment, neglect or abuse, as well as injuries of unknown source, are reported immediately to the administrator or to other officials in accordance with State law through established procedures.

At the present time there are no CMS regulations that apply specifically to section 1150B responsibilities of covered individuals or facilities. Consequently, SAs will focus on (a) the events giving rise to reports made under this requirement and (b) the LTC facility's responsibilities under existing CMS conditions and requirements to report incidents, prevent abuse or neglect, provide quality care and a safe environment, train staff, and similar duties of direct relevance to safety and quality of care.

**Effective Date:** Immediately. Please ensure that all appropriate staff members are fully informed within 30 days of the date of this memorandum. CMS is drafting guidance about the civil money penalty component of 1150B and information will be forthcoming.
