CHILD ABUSE PREVENTION MONTH

Every day in Delaware 17 children
of various ethnicities and races
are molested.

Child abuse occurs at every socioeconomic level,
across ethnic and cultural lines,
within all religions and at all levels of education.

One in four girls and one in six boys
will be sexually molested prior to 18 years of age.

88% of child sexual abuse victims
are abused by family members.

Delaware currently ranks 44 out of 50
states in the number of deaths
related to child abuse and neglect.

90% of child sexual abuse victims
leave the perpetrator in worse pain.

Nationally, a report of child abuse
is made every ten seconds.

About 30% of abused and neglected
children will later abuse their own children,
continuing the horrible cycle of abuse.
