

32

Oklahomans

die every month
from unintentional
prescription opioid
overdose.

Adults aged 35-54

have the highest risk
of prescription opioid
overdose death.

911

If you suspect someone
is experiencing an
overdose, call 911
immediately.

211

For treatment referral,
call 211.

OKLAHOMA
OVERDOSE
PREVENTION

REMEMBER

- Only take medications as prescribed.
- Never share or sell prescription drugs.
- Properly dispose of unused, unneeded or expired medications.
- Secure your medications to avoid theft.
- Naloxone is a safe and effective drug that reverses an opioid overdose. Talk to your doctor or pharmacist.

MEDICATION DISPOSAL

To dispose of unused or expired medications at a location near you, visit <https://portal.obn.ok.gov/takeback>
